The Hong Kong Institute of Surveyors

The Hong Kong Institute of Surveyors

The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founder members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, there was also passed the Surveyors Registration Ordinance (Cap. 417) to set up a Registration Board to administer the registration of surveyors.

The number of corporate members has grown to 6,124 as at 31 December 2015; Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2015, the institute admitted 74 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members at the end of 2015 was 3,364.

To qualify as a corporate member of the Institute, surveyors must possess a recognized academic degree or similar qualification, followed by a minimum of 2 years supervised professional experience within strict guidelines, followed by an Assessment of Professional Competence (APC).

As a reputable and responsible professional body of surveyors, the Institute has always maintained vigorous assessment standards for entry to the profession and has also maintained high professional and ethical standards of member surveyors, through the various codes of professional practices, the code of ethics, and continuing professional development. The Institute has taken on an important and responsive consultative role in government policy making particularly on issues affecting land, property, construction.

The title “Surveyor” embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A **land surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **general practice surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing

and management of completed developments. A **planning and development surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A **quantity surveyor** is concerned with the building contractual arrangements and cost control will evaluate the likely cost of the development project and advises on the most suitable kind of contract for the project. A **building surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **property and facility management surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continues to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations in order to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors’ Alliance Asia which was inaugurated in November 2004. The Institute has reciprocal agreements with:

General Practice Division

The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, administration, continuous management and improvement; properties are developed as direct investments or securitized, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors are particularly equipped with skills and knowledge to offer timely and effective advice in connection with development, use and management of property resources both for operational needs and investment purposes. They are also concerned with planning, leases administration and valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. Contemporaneously, because of the General Practice Surveyors' understanding of investment principles and asset pricing, practitioners are ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. Recently, we are involved in valuation of franchises and intangibles and business valuation. Major roles played by General Practice Surveyors are as follows:

Land Surveying Division

The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts, defining property boundaries, preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively

involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;

- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in the Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection, integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

Planning & Development Division

The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximizing project return while minimizing the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

Land Administration Input

Planning & Development Surveyors specialize in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for a modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to

submit planning applications, review and or appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help to set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

Town Planning Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

Other Common Professional Services

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialize in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/ Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (LVIA), and Social Impact Assessment (SIA).

Quantity Surveying Division

The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, Government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

Cost Planning

Cost planning is a specialist technique developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximize practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps; namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as is necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean at the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the “right” contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build, guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project’s replacement value for insurance.

Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer’s and/or a contractor’s case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularized documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/ public entities/Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/ insurers; and
- Risk assessment personnel for insurance broker/ insurers.

Young Surveyors Group

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 4,000 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organizing various site visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organizes and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the mainland China or overseas countries. YSG representatives also attend local and overseas conferences organized by local institutes and other international organizations such as the International Federation of Surveyors (FIG) and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong. HKIS was one of the participants in the annual Education & Career Expo hosted by the Hong Kong Trade and Development Council and YSG has been the coordinator for HKIS in the past few years.

President's Report

President's Report 2014-2015

會長報告

It is my greatest honour to serve The Hong Kong Institute of Surveyors (“the Institute”) as the President for the council year 2014/15. This was a challenging year for the Institute as Hong Kong has faced great challenges in many aspects encompassing land, housing and building issues. However, it was also a fruitful year for the Institute as we have achieved a lot on various major tasks including promotion of the institute’s public image, membership development, participation in public policies and external collaborations.

Membership

Growth

As at 30 November 2015, there was a total membership of 9,572, representing a growth of 2.57% from the previous year. Out of the total number, 6,124 are Corporate Members (502 Fellows and 5,622 Members) of whom 201 have been newly elected. There are 3,368 Probationers and Students and 74 Associate Members.

Life-long Learning

All members are obliged to undertake self-development to maintain and enhance a high level of competence in their professional practices. The Institute is committed to facilitating members in keeping abreast with the latest developments in the industry and to broaden their knowledge required at work. A total of 191 Continuing Professional Development (CPD) events in a wide range of professional topics were organised during the year respectively by the Divisions, Young Surveyors Group, Committees and the HKIS.

The Board of Professional Development proposed a four-tier sanction system in 2014 for members’ non-compliance of mandatory CPD requirements. The sanctions include the issuance of warning letters, interviews, publishing the names of the

defaulting members in Surveyors Times and finally the suspension of memberships. To enforce such sanctions, it would be necessary to amend the Bye-Laws on Professional Development. However, the proposed amendments were not supported at the EGM held on 2 March 2015.

Secretariat Office

The General Council has endorsed to renew the tenancy of the HKIS headquarters and Surveyors Learning Centre at Rooms 1205-1207, Wing On Centre, Sheung Wan, Hong Kong, for a further three years commencing on 1 January 2016 until 31 December 2019.

A working group has been established to explore, in the long term, the purchase of permanent office premises.

Brand Enhancement Campaign

This year, we have organised a large-scale community campaign with the title “測量專業建香港 認識蛻變創未來” to raise the public awareness on city development and issues in relation to urban transformation such as the problems and difficulties of urban redevelopment, building safety and maintenance, etc. The campaign consisted of a series of free activities for the public. The “HKIS Map-Making Competition” for students aimed to enhance the youth’s understanding of Central development; to provide opportunities for students to gain a better understanding of the role of surveyors in all aspects in the land and property development process; and to inspire them to develop their ideal future cityscapes. The event was meaningful and we were glad to receive encouraging feedback, not only from the students and teachers, but also from our own members.

The campaign also included workshops and guided tours known as “Touring Central with Surveyors”.

We were surprised at the overwhelming response from the public. The tours were met with over 18 tour groups with 250 participants and received wide media coverage. With the tours, we were able to successfully engage the public in informed discussions on urban development issues. It proved to be a very successful interactive event that attracted a wide range of media publicity.

A ceremony and a one-week exhibition was held from 24 to 30 October 2015 at the International Finance Centre to conclude this year's community campaign. The winning models of the Map-Making Competition, with a series of informative panels showing how surveyors have contributed to shaping Hong Kong into what it is today, were showcased to the public.

The present development of the HKIS is a result of the unflinching and continuous efforts of our members. I want to take this opportunity to express my special thanks to all members, and particularly to our young members for their support and contribution over the past year.

Expertise Input

To catch up with the fast-growing developments in the sustainable built environment in Hong Kong, a green building and a heritage working group have been established to embrace the cross-divisional expertise for the promotion of greater involvement and development of surveyors in this respect.

Consultations and Submissions

As a professional body that plays a vital role in the society, the HKIS should proactively voice out its professional views and opinions on public and social policies that are directly or indirectly related to the core competencies and knowledge of professional surveyors in Hong Kong. The Institute has been continuously offering its views to the Government on issues such as town planning, building, real estate development, facilities management, housing issues, etc., and in particular, on the following matters:-

In the area of new policies, the Institute has submitted a supplementary proposal to the Government with the aim of implementing a "Building Repair and Maintenance Advisory Committee" (樓宇維修工程諮詢委員會), which would be a transitional body before a permanent Building Repair and Maintenance Authority could be established. Besides, we have suggested to introduce independent cost consultants to exercise more effective cost controls on future infrastructure projects.

In June 2015, the Institute hosted luncheon meetings with the Development Bureau (8 June 2015), Transport and Housing Bureau (5 June 2015) and Home Affairs Department (19 June 2015). The luncheons served as a vital platform for participants to discuss and exchange views on recent policy issues relating to property and land development and matters concerning the surveying industry.

At the Land Supply Forum organised by the Development Bureau on 17 October 2015, representatives from the related professional organisations including the HKIS participated in the informal sharing sessions and a multi-party discussion. Reciprocal Recognition of Qualifications

A second supplemental reciprocity agreement with The China Engineering Cost Association (中國建設工程造價管理協會) was signed on 15 October 2015.

We are proud of our achievements so far and will continue to maintain our international and regional presence. We will extend our connections with our Mainland counterparts and uphold our professional standards to maintain and strengthen the status of surveyors in Hong Kong.

Sr Vincent Ho

President (2014-2015)

The Hong Kong Institute of Surveyors

我十分榮幸當上 2014-2015 年度香港測量師學會（學會）會長。這年，香港雖然正面對有關土地、房屋及樓宇等充滿挑戰性的議題；縱使如此，我們落實和完成了不少主要項目，例如公眾形象推廣、會員推廣及招募、公眾參與及對外合作項目等，所以對學會來說，過去一年是充盛和豐碩的。

會籍

增長

截至 2015 年 11 月 30 日，學會的會員人數共有 9,572 名，相比去年同期增長了 2.57%。在總人數當中，6,124 名為專業會員（502 名資深專業會員及 5,622 名專業會員），其中 201 名是屬於今年新獲推選的。另外，學會現有 3,368 名見習測量師及學生會員，以及 74 名副會員。

終身學習

為了加強及維持學會會員的專業水平，學會亦要求所有會員參與持續進修；同時致力將行業的最新專業及行業資訊給會員。學會不同組別、青年組以及各委員會遂在 2014-2015 年度合共舉辦了 191 個持續專業發展項目（CPD），令會員可以緊貼發展步伐，擴闊視野。

學會的專業發展委員會於 2014 年，建議了四個不同程度的規管機制，對未能達到持續進修要求的會員進行處分。要實行有關建議，我們必須修改《則例》內有關專業發展的相關部份，只是有關之修改建議未能於 2015 年 3 月 2 日舉行的會員特別大會中獲得通過。

秘書處

理事會通過將現時位於上環永安中心 1205-07 室的學會總辦事處及測量師研習中心的租約延長三年至 2019 年 12 月 31 日。

學會亦成立了工作小組，研究購置永久會址的長遠策略。

形象提升計劃

今年，學會舉辦了一個規模龐大的社區計劃，其理念是「測量專業建香港 認識蛻變創未來」，目的是提高市民大眾對城市發展、市區轉型（例如市區重建）、樓宇安全及保養議題的關注。計劃包括一系列公眾參與活動，當中的「地圖設計比賽」，加深了年青一代對中環區發展的認識，亦使學生了解到測量師於土地和物業發展過程中所擔當的角色，亦啟發學生描繪他們對中環發展的願景。「比賽」得到了教師和學生的參與和會員的支持，成效顯著。

計劃亦包括工作坊和「測量師帶你行街 GUIDE」公眾導賞團。市民大眾對導賞團的反應熱烈，學會共組織了 18 個團，共約 250 名市民參與。藉著參加導賞團，公眾可以參與和探討市區發展的議題，而這個互動模式的活動成功吸引了不少媒體的廣泛報導。

「香港測量師學會展覽周」於 2015 年 10 月 24 日至 30 日於國際金融中心舉行，為社區計劃作為總結。展覽內容豐富，以設計精美的展板回顧連串活動和介紹測量專業在發展周期（development cycle）中所擔當的角色。活動同時設置了展櫃，展示高中學生的地圖模型作品。

學會得以持續發展，實有賴各會員不斷的支持及努力，借此特別感謝所有會員，尤其年青專業會員在過去一年的支持和貢獻。

學會於 2015 年 6 月分別與發展局（6 月 8 日）、運輸及房屋局（6 月 5 日）及民政事務署（2015 年 6 月 19 日）舉行午餐聚會，提供了一個理想的平台讓政府官員及學會的代表就行業發展政策交換意見。

由發展局舉辦的土地供應論壇於 2015 年 10 月 17 日舉行，專業組織包括學會的代表均有參與分享和討論環節。測量業的專家探討了現時土地供應的挑戰，並向與會者建議了一些切實可行的方案，寄望可解決土地供應短缺的問題。

記者會 / 新聞稿 / 傳媒午餐會

學會本年度發放了 14 篇新聞稿，涵蓋不同的議題。我們也藉於 2015 年 1 月 19 日舉行的傳媒午餐會與新聞界交流，不同媒體的代表也有應邀出席。

會員諮詢論壇

學會土地政策小組於 2015 年 7 月 16 日舉辦了土地供應論壇，讓會員了解政府的土地供應政策、土地儲存資料及所遇到的困難，同時趁機討論土地管理和規劃、檢討綜合發展區規劃、重建合作社等議題。我們也把握了這個機會探討了發展郊野公園、市區重建包括賠償基準、如何解決土地短缺等問題。

學會的房屋政策小組於 2015 年 10 月 31 日舉辦了公私型房屋政策論壇，檢討現行的房屋政策。來自不同界別的專家講者分享了他們對公型及私型房屋需求的看法。

就修改學會章程和則例的事項上，我們先於 2015 年 8 月 14 日舉行了論壇，才正式開始會員特別大會。而在 2015 年 11 月 9 日舉行的另次會員特別

Honorary Treasurer's Report

Honorary Treasurer's Report

For the Financial Year Ended on 31 July 2015

Dear Fellow Members,

I am pleased to present herewith the audited account of The Hong Kong Institute of Surveyors (HKIS) for the financial year ended 31 July 2015. The auditor's report was prepared by Messrs Fok Chan Leung Wan CPA Limited.

The total revenue of the HKIS for the year was HK\$26,336,133, similar to that of the previous year (2014: HK\$26,611,320). On the expenditure side, the total operating and administrative expenses for the year was HK\$23,620,328, which was approximately 0.02% or HK\$435,043 more than the expenditure in 2014. As at the end of the financial year, the Institute recorded a surplus of HK\$2,715,805. The accumulated fund for the HKIS as at 31 July 2015 was HK\$13,279,405, representing an increase of approximately 25.7% as compared to the amount of HK\$10,563,600 in 2014.

The increase in annual membership fees in 2014, growth of new membership subscriptions and contributions from activities such as annual conference and annual dinner have attributed to the revenue increase for the year. While we appreciate the continuous growth of the Institute, we are at the same time adopting a stringent control on the operation and administrative expenses.

There was an increase of accumulated fund by more than 25.7%, which demonstrated the importance of the Institute's prudent financial management. We shall continue to observe the prevailing practices/guidelines with respect to financial controls on all expenditures to ensure that resources are spent for the interests of the Institute.

The accumulated funds for the Divisions' and Young Surveyors Group are listed as follows:

<u>Accumulated Fund (HK\$)</u>	<u>31/7/2014</u>	<u>31/7/2015</u>
The Institute	3,441,301	4,517,012

Young Surveyors Group	829,561	811,098
Total:	<u>10,563,600</u>	<u>13,279,405</u>

It is my honour to have served the Institute, which enjoyed a very fruitful year in 2015. I would like to thank Vincent, the President, Office Bearers, Members of the General Council and Finance Committee, and all staff of the Secretariat for their patience and unfailing support. Lastly, I would like to thank Eva for her hard work in keeping the Institute's accounts in good order.

Wishing you all a wonderful year in 2016!

Honorary Secretary's Report

Honorary Secretary's Report

I am very honoured to have served the Institute as the Honorary Secretary for the year 2014/15. It was a busy year during which I have performed my duties under the direction of the General Council to conduct the ordinary business of the Institute in accordance with the Constitution and Bye-Laws; to keep an accurate record of the proceedings of the Institute and the General Council; to keep the Membership Register of the Institute; to conduct the correspondence of the Institute; and to give notice of all meetings of the General Council and General Meetings of the Institute.

You can imagine the amount of time it has taken to deal with the membership affairs including applications for exemptions and concessions of subscriptions, complaints against members as well as matters relating to disciplinary proceedings.

In year 2015, a Forum and Extraordinary General Meeting in relation to the proposed amendments to the HKIS Constitution and Bye-Laws were successfully conducted.

Forum and Extraordinary General Meeting (EGM) in relation to the proposed amendments to the HKIS Constitution and Bye-Laws

A Task Force was formed to review the inconsistencies in connection with “admission into membership” and “elected to membership” within the HKIS Ordinance and HKIS Constitution and Bye-Laws. To rectify the inconsistencies, necessary amendments to the existing provisions, such as the alignment of the term “Election” with “Admission”, were proposed.

Part VI of the Bye-Laws provides that all Corporate Members of the Institute shall observe a high and honourable standard of professional conduct and the General Council shall have the power to suspend any Corporate Member who in its opinion has failed to observe this standard of professional conduct. Provisions related to the rights or privileges as well as obligations of a Corporate Member can exercise during the period of suspension had not been clearly and fully set out in the Bye-Laws, and necessary amendments to the existing provisions were proposed.

A Forum organised by the General Council to discuss the proposed amendments to the HKIS Constitution and Bye-Laws was held on 14 August 2015. The rationale behind the amendments to the existing provisions was explained and members’ views were collected before the holding of an EGM planned for 9 October 2015, in which members were to vote on the proposed amendments. Unfortunately, the EGM on 9 October 2015 was adjourned because of insufficient quorum.

At the adjourned EGM held on 9 November 2015, all three resolutions for amendments were passed by more than three-fourths majority voting for (including proxies) as required by the Bye-Laws in relation to matters of membership. A total number of 343 valid votes were cast (including 330 valid votes by proxy). Results of the voting on the resolutions are as follows:

Resolutions	For	Against	Total
Resolution 1 Amendments to Clause 4.1 (b) of the Constitution and the addition of Bye-Law 1.3	272 (79%)	71 (21%)	343
Resolution 2 Amendments to Part VI of the Bye-Laws in respect of Professional Conduct	265 (77%)	78 (23%)	343
Resolution 3 Amendments to Bye-Law 9.5.3	269 (78%)	74 (22%)	343

Proceedings of the Institute

During the year 2015, eleven Executive Council Meetings and six General Council Meetings plus a special General Council Meeting were held to conduct the ordinary business of the Institute under the Constitution and Bye-Laws.

Last year, the total number of members has grown 2.58% to 9,572 while 211 corporate members have been newly elected.

The data for the Practical Tasks 2015 is listed as follows:

- There were 130 registrants; 128 applied for professional assignment attempts and 2 applied for technical assignment attempts;
- 125 candidates were interviewed, including 123 for professional assignment and 2 for technical assignment;
- As indicated by the provisional results, the average passing rate for each assignment was around 50%.

3. Promotion of BS Profession

The BSD Council Members have contributed a lot of time in the promotion of BSD in 2014/15. We have taken parts as speakers in seminars on building repair organised by HAD as well as Building Safety Pioneer Scheme organised by BD, served as volunteers to advise building owners in regard to the “AP Easy Scheme” launched by HAD, and delivered talks to students of HKU, PolyU, CityU, IVE and secondary schools.

4. Communication with Government Departments and PBSCA

BSD and PBSCA have been maintaining regular communication meetings (at approximately 6 months intervals) with ArchSD in the past few years. Similar communication meetings were also held with BD. These regular meetings are proven to be very useful in establishing communication for the better understanding of each participant’s planned activities so that everyone can work together to serve the common objective of ensuring building safety in Hong Kong.

Bi-monthly informal meetings were also held between BSD OBs and members of PBSCA to facilitate the exchange of views and ideas on hot issues and to catch up with the latest development in the profession.

5. BS Discussion Forum

A designated email account bs.discussion@gmail.com has been created to facilitate the communication with our members for over 1 year. The account was planned for the better communication with Authorized Persons (AP) on issues pertaining to the practice of AP or the application of the Buildings Ordinance. I encourage members to use this platform more often to share their ideas as the utilisation rate has been very low.

6. Seminar on Non-Financial Asset Management in Shanghai

Organised by HKIS and the Hong Kong Chamber of Commerce in China (HKCCC), this seminar was held in April 2015 in Shanghai to promote the skills of surveyors in the field of Asset Management. Sr YL Wu, Chairman of the Beijing Forum and a building surveyor delivered a talk to share his experience in this area. At present, there is no professional institute relating to Asset Management in the Mainland and if the Central Government agrees to establish such a professional institution in the Mainland, we hope surveyors can be included as members and that was the objective of the seminar. Thanks to our Vice Chairman Sr Daniel Chang who represented the BSD in joining this seminar in Shanghai.

7. Building Surveyors Award 2015

Building Surveyors Award 2015 Presentation Ceremony and Gala were successfully held on 18 June 2015. This first ever award ceremony served the function of presenting our skills to the public. Very positive feedbacks both from members of other divisions and other professional institutes were received. Tremendous amount of preparation works were involved and I have to thank Sr Robin Leung, Chairman of the OC and the OC team's hard work to make this event a great success. I look forward to see the next round in another two to three years' time.

8. BS Conference 2015

As usual, BS Conference is an annual event that we building surveyors do not want to miss and that is why the enrolment figures have always been high. This year we had the special theme "Building Surveying with no Boundary" for the conference.

Speakers shared their diverse career experiences and described how they moved out of the comfort

zone and migrated to new areas outside their professional boundaries. Expanding our territory technically and geographically is important for us to survive and for the BS profession to prosper.

9. HKIS Building Surveying and Eddie Lee Memorial Education Foundation Scholarship for Secondary School Students

The Award Presentation Ceremony was held on 28 January 2015 with six winners for the ELMEF Scholarship and ten winners for the BSD Scholarship for Secondary School Students. Out of the ten awardees of the Scholarship in 2014, two are now studying undergraduate surveying course in Hong Kong University and one in the Hong Kong Polytechnic University. We are now screening the applications received for this year and the presentation of scholarships will be arranged in early January 2016.

10. CPDs

A number of interesting CPDs were held this year. The events started with Heritage Conservation – A Site Visit to Ping Shan Heritage Trail and Revitalization of Ping Shan Police Station, followed by Sr N.C. Mak's sharing on how he built his own home in Melbourne, and completed with a Short Course on Building Control which received overwhelming responses. In the latter half of 2015, a series of CPDs relating to Fire Safety were organised with the help of BD and FSD which supplied us with a number of experienced speakers. The series of BIM CPDs are valuable sharing sessions that we building surveyors should not miss. Thanks to our CPD Convener Sr Gary Chan for the hard work!

11. Qianhai Development

In May this year, a group of delegates from BSD council and PBSCA were invited by Shenzhen CAEC to visit Qianhai and Shenzhen CAEC. PBSCA companies were invited to team up with CAEC companies in Shenzhen in submission of tender bids for government building projects in Qianhai as the projects required both local supervision engineer and project management services.

Although no PBSCA companies won the tender, the teaming up of companies, one on one, in bidding of tenders has enhanced the mutual understanding between partnering companies and we are looking forward to more collaborations in the future.

12. Proposed Building Repair and Maintenance Authority

With the understanding that it was almost impossible for the government to solicit enough support from LEGCO members to setup such a Building Repair and Maintenance Authority under the existing political atmosphere, a revised proposal of turning this organisation into a private body to kick-start the setting up process was submitted to the Development Bureau.

Although there has been no solid reply from Development Bureau, we strongly believe that it is essential to push this forward for the benefit of the public as the number of old buildings is increasing drastically each year.

13. China's Overseas Aid Projects

Through the signing of Memorandum of Understanding between HKIS and the Ministry of Commerce of the PRC Government on 4 September 2014, a contract for an aided project in Nepal providing Project Management cum supervision services was awarded to a local Building Surveyor firm "Fruit Design and Build". We look forward to more of such cooperation after this round of pilot projects.

Once again, I would like to thank BSD OBs, Council Members, co-opt members, conveners and OC members of conferences/awards, working groups, taskforces, etc., as well as the office staff of HKIS administration office for their unfailing supports to the above tasks. Thank you!

Divisional Council & Young Surveyors Group Reports

General Practice Division

Sr Joseph Ho
GPD Council Chairman

I am pleased to take this opportunity to share with you some of the works accomplished by the General Practice Division this year to promote and maintain GP surveyors' professional standards and standing.

Following a fruitful 2013-2014 and with strong divisional finances, we aimed to stabilise and expand our work done in the previous year. The major accomplishments of the Council are as follows.

1. Internal Affairs

The CPD conveners (Sr Jason CW CHAN, Harry CHAN, JIM Chun Yip, Jim LAM and Simon POON) actively arranged over 48 CPD programmes and seminars to cover a wide range of topics such as the Hong Kong property market, asset management, and the sale of properties through a transfer of company shares. All events were well attended. We also invited a delegation from the Appraisal Institute of the United States and the CEO of the IPMA to give CPD talks on "How to conduct valuations/appraisals in the US" and the "Key Features of International Property Measurement Standards (IPMS)" on 21 August and 25 November 2015, respectively.

Mr Alexander Aronsohn in the IPMS CPD Venue held on 25 Nov 2015 *From Left – Mr Tony Ho, Sr Harry Chan, Mr Alexander Aronsohn and Sr Joseph Ho*

Similar to last year's arrangement and to help candidates prepare for their APC written examinations, the GPD Education Committee, co-convened by Sr Edward AU and Sr Louie CHAN, successfully conducted 17 sessions (51 hours) of the APC SLP to cover the entire syllabus of Part I of the GPD APC written examination. Revision Workshops to cover the entire syllabus of Parts I and II of the APC were also held for candidates this year. The GPD Education Committee organised a gathering for newly-qualified members and probationers

on 6 March 2015. About 60 members joined the event, which offered an opportunity and platform for members of the two tiers to share their experiences with each other.

To build up communications between the GPD Council and members, we organised the 2015 GPD Annual Dinner on 6 February 2015 with the theme, "Evolution of the General Practice Surveyor in the Past 30 Years". A total of 108 guests occupying nine tables were in attendance. Among the guests were three HKIS founding members and 30 probationers. We also invited six surveyors/guests from different generations to share their experiences as GP surveyors.

Through visits and various seminars or conferences in China and Macau, I met various Mainland HKIS members or GP surveyors stationed there and updated them on the recent GPD developments in Hong Kong.

2. External Affairs

To maintain our relationships with the various professional entities in China and to promote our profession, I attended various seminars and conferences in Beijing, Shanghai, Changsha, Tokyo, Toronto and Montreal to explore more opportunities for communication and cooperation between the HKIS GPD and other professional institutes/organisations. In addition, we received a Taiwanese delegation on land reform and a delegation from the Shenzhen Association of Real Estate Appraisers to exchange views on various topics concerning land systems and real property valuations. Our Council members, Sr CHIU Kam Kuen and Sr Harry CHAN, and Co-opted member Sr Elsa NG joined the HKIS delegation to Beijing in September, during which they visited various relevant government departments and local professional institutes to further strengthen relationships.

To further strengthen our relationship with CIREA and the China Appraisal Society, I joined the Sino-Korea-Japan Valuation Forum and the 7th WAVO Valuation Congress in Beijing in September and November 2015, respectively. During these conferences, I had a chance to meet the leaders of both institutes and exchange views on how we could work closely on issues of common interest in valuation.

For our mission to promote GP surveying practices to the public, I aimed to promote our strengths in intellectual property valuation, business valuation, and non-financial asset management. For the last area, I gave technical talks in Shanghai and Changsha organised by the HKIS Shanghai Forum and Hong Kong Economic and Trade Office in Wuhan in April and in July 2015, respectively.

On the subject of intellectual property (IP) valuation, this year I lobbied for the inclusion of a HKIS technical session at the BIP Asia Forum on 3 December 2015. This assisted our members to further promote their strengths when conducting IP valuations. Like last year, there was a promotion booth at the forum. There were a total of 2,432 people attended the Forum and about 166 people attended our session. With the blessings of the HKIS Executive Committee (ExCom), I also set up an appointment mechanism to appoint independent experts to conduct business valuations in addition to real property valuations. The provision of business valuations to the public marks a new chapter for GP surveyors.

To promote our valuation strengths and let the accounting profession understand our practices, I gave two technical talks/workshops to Deloitte Touche Tohmatsu Hong Kong and BDO Limited Hong Kong on the relationship between valuers and auditors and investment property valuation.

One of our goals is to maintain good relationships with other overseas bodies. The Appraisal Institute (AI) delegation visited the HKIS on 21 August 2015 and gave a technical CPD to our members that night. I visited the Japan Association of Real Estate Appraisers on 13 March 2015 and on 30 September 2015. Vice Chairman Sr Slayman CHAN and I had a lunch meeting with Mr Alexander Aronsohn, Executive Secretary of the IPMS (International Property Measurement Standards) Standard Setting Committee and the Executive Secretary of the IESC Standard Setting Committee in London to exchange views on property measurement issues.

We have actively participated in the Institute's year-round brand enhancement programme to promote the surveying profession. In addition to the map-making competition launched in August 2015, GPD Council members Sr Francis NG, Sr Dr Lawrence POON, and Co-opted member Sr Elsa NG participated in Touring Central with Surveyors in September. They led two tours from the HKIS headquarters to the Mid-Levels Escalator area and then to Caine Road to share with participants on the Institute's role in the real estate development cycle and Hong Kong's development.

3. Local Affairs

Two real property issues that affect the land and housing supply in Hong Kong drew our attention this year.

The Land Supply Discussion Forum, a CPD event jointly organised with the Land Policy Panel, was successfully held on 6 July 2015. The Hon Paul CHAN, Secretary of Development, and the HKIS President, Sr Vincent HO, gave opening speeches. Three guest speakers – Sr PC LAU, currently a member of the Lantau Development Authority Committee and our Past President; Sr Victor SO, Chairman of the Urban Renewal Authority; and Sr Hon Tony TSE, a LegCo member and representative of the Architecture, Surveying and Planning Constituency – and our Past President gave presentations and their views on various land supply issues. The Land Policy Panel Chairman, Sr CK LAU, and Housing Policy Panel Chairman, Sr CK CHAN, presented on land administration and planning issues, respectively. The Land Policy Panel will summarise the views and suggestions collected during the Forum for submission to the Development Bureau.

Our Council members also helped organise the Housing Policy Discussion Forum held on 31 October 2015 at the HKIS SLC. The guest speakers were Mr Stanley WONG Yuen Fai, Sr Prof Eddie HUI, and Mr SHIH Wing Ching. Guests from various professional institutes were also in attendance, which numbered over 100 in all. The Forum reviewed the existing housing policy and proposed suggestions for addressing Hong Kong's housing demand and supply situations in the private and public markets. The theme of the Forum focused on flat supply and the demand situation after the launch of the Long Term Housing Strategy (LTHS), the problems Hong Kong faced, and the need to adjust the existing LTHS policy. The Housing Policy Panel will summarise the views and suggestions collected during the Forum for submission to the Transport and Housing Bureau.

4. Professional Standards

This year, the HKIS and RICS published the Guidance Notes for Surveyors Serving as Experts in Commercial Rent Review Determinations (hereafter the GN) and a joint CPD is scheduled for 2 December 2015 to introduce the GN to members of both institutes.

A working group of the Valuation Standard Panel is currently preparing the HKIS Guidance Notes on Valuation of Development Land. It is anticipated that the final draft will be released in 2016 for consultation.

5. Division Finance

Over the past year (November 2014 to October 2015), the GPD had a total income of \$720,801.10 and total expenses of \$350,130.89. This resulted in a net income of \$370,670.21 for the 2015 fiscal year.

The GPD's income mainly came from the SLP and CPD, while expenses were primarily from venue charges, Annual Dinner and SLP and other expenses for Council activities. The unaudited "Accumulative Balance of GPD" was, as at 31 October 2015, \$2,093,561.16 (compared to a balance of \$1,722,935.95 as at 1 November 2014).

6. Conclusion

Last, but not least, the GPD is a very big division with specialties covering a wide scope of services. It not only provides real property valuations, but different trade-related asset and business valuations as well. Intellectual property valuation and asset management are also within the business scope of GP surveyors. Apart from Hong Kong, the GPD's geographical coverage extends to China and overseas due to reciprocity agreements with other institutes. The surveying industry is changing given the growing diversity in its clients' demands. Hence, it is my wish that GP surveyors equip themselves with the latest knowledge to meet these new challenges and opportunities.

My sincere thanks go to my fellow Council members who served in the GPD for the 2013-2015 term.

Divisional Council & Young Surveyors Group Reports

Land Surveying Division

Sr Dr Lesly Lam
LSD Council Chairman

It has been my second chairmanship of the Land Surveying Division (LSD). I would like to take this opportunity to express my sincere appreciation to all council members for serving the Institute and leading the Land Surveying Division Council. The LSD grew significantly and expanded its scope of services to the community. During the last few years, we contributed a lot of ideas to the Chief Executive and the Financial Secretary with respect to the Policy Addresses on: (a) determining land boundaries; (b) spatial data infrastructure and smart city; and (c) establishing a cadastre system to encourage the public to participate in the management of Hong Kong's land resources. We have also arranged a number of popular seminars, conferences, as well as exchange activities with our Mainland counterparts. The liaison with Mainland's survey and mapping professionals in relation to the issues of mutual recognition is currently in the pipeline.

Taking up the Chairman position again has been a very delightful challenge. I enjoyed facilitating the integration of young and experienced LSs, and appreciate the council members for their continued contributions to promote our professional services to the public and the society, and to strengthen our networks with both Mainland and international bodies.

In this council year, we have focused on: (1) education and membership issues for younger members and (2) the exploration of expanded scopes of services. We are obliged to provide high quality Continuous Professional Development (CPD) and Pre-Qualification Structural Learning (PQSL) sessions for all surveyors and probationers to update their knowledge which can be shared with their counterparts, as well as to uplift the credentials of the LS membership base.

Having reviewed in details the scope of works of the committee, the Boundary Survey Advisory Committee (BSAC) started to explore the possibility

of introducing an "Independent Boundary Survey Expert", which would be similar to that of an "Independent Valuation Expert" under the General Practice Division (GPD). In addition to this, BSAC would keep looking into a broader spectrum of issues in relation to land boundary survey. With respect to the de-linking of the proposal to include a clause on determination of land boundaries in the Land Survey Ordinance in 2010, the momentum to proceed with the exercise could not be sustained by developments in the Land Title Ordinance. We believe the new provision will effectively establish a statutory mechanism to clear doubts, as well as possible conflicts and disputes that may arise from undetermined land boundaries. As such, we issued a letter urging the government to actively take up the exercise and initiate public consultations on the Land Survey (Amendment) Bill. Development Bureau recognised the problem and advised that they would keep monitoring the situation. There is a need to establish a cadastre system, a legal record of land rights that supplements the current land registration system. A set of transparent, accurate, and accessible land boundaries and related information can provide the public with a clearer picture in case doubts arise. The proposed provision in the Land Survey Ordinance would be a key element for the development of cadastre system in Hong Kong. We, as professional land surveyors, will offer assistance via different established channels with the administration and stakeholders.

As for engineering and construction industry, the task force has continued to focus on hot issues such as shortage of manpower and professional land surveyor positions in various construction projects. In recent years, we have been advising the government to hire "the right professionals to do the right jobs" for its infrastructure projects. Professional land surveyors have been imparting their land surveying expertise to each project.

In response to the increasing demand for land

surveyors in various public works and infrastructure projects, we contributed valuable views to the Technological and Higher Education Institute of Hong Kong (THEi) on their recently established degree course to include land surveying modules. To act on the shortage of surveying personnel, including both professionals and technicians, in government departments and consultant as well as in contractor companies for mega infrastructure projects, both degree and sub-degree student quotas must be increased.

With regard to the possibility of mutual recognition of membership between the LSD and RICS GPG, a new form of mutual recognition of membership at the divisional level between the LSD and RICS GPG was proposed. In this connection, the working group comprising representatives from these two bodies conducted a few discussion sessions and the HKIS Team presented a proposal to the HKIS Executive Committee for consideration. The Executive Committee showed support and committed to discussing the issue in details with RICS in the coming liaison meeting.

The biennial Beijing-HK-Macau Geomatics Conference was successfully held on 6 November 2015 in Beijing. It provided us with a very good opportunity to liaise with one of our mainland counterparts - the Beijing Association of Surveying and Mapping (北京測繪學會) and friends from Macau. The delegation team learnt a lot in the conference.

In the coming year, I wish the new council will make even more significant progress on various tasks. A few causal gatherings for young surveyors were successfully held in the past year. I look forward to seeing more new faces to help promote our professional services to the public and the society. The genuine demands for land survey professionals in real estate, construction, and particularly smart city development in Hong Kong are widely recognised.

Divisional Council & Young Surveyors Group Reports

Property & Facility Management Division

Sr Dr Edmond Cheng
PFMD Council Chairman

It has been a busy but fruitful year of the Property and Facility Management Division (PFMD) for the year 2014/2015. A number of critical issues and events have been in progress which may affect the long term development of our division. Moreover, a number of seminars, talks and gatherings have been organised to enhance the communications among members.

I would like to summarise the major activities organised and tasks performed within the year for members' information and references.

1. Regulation of the Property and Facility Management Industry

Firstly, we have been closely monitoring and following up on the discussions of the proposed Property Management Services Bill (the Bill) under which the licensing of property management companies (PMCs) and a two-tier licensing regime will also be introduced to the property management practitioners (PMPs).

In order to gauge the members' views on the Bill before the 2nd Reading Debate, Committee Stage, and the 3rd Reading resume, the major stakeholders of the industry, including HKIH, CIHAPB, HKAPMC, HKIFM, HKIS PFMD, HMRB and RICS jointly organised a forum on 7 June 2014 to collect the members' feedbacks to the Bill.

The Bills Committee on the Property Management Services Bill conducted its first meeting on 11 June 2014. The latest progress on the proposed licencing requirements for Tier 1 PMPs as specified in Paragraph 2 under LC Paper No. CB(2)1788/14-15(02), dated June 2015 should be:-

- (a) Members of property management related professional bodies are to be specified by the Property Management Services

Authority (PMSA) and HKIS is one of the property management related professional bodies as shown in the footnote; or

- (b) Members of other equivalent professional bodies are to be assessed and recognised by the PMSA, subject to professional assessment in relation to property management by PMSA.

Members can visit <http://www.legco.gov.hk> for more information on the licencing criteria for Tier 1 PMPs.

2. Forum on the Review of the Building Management Ordinance (Cap. 344)

A forum was held on 16 January 2015 to review the Building Management Ordinance (BMO) Cap. 344. Mr K Y Kwok, a Partner of Li, Kwok & Law Solicitors & Notaries, was invited to discuss with members the rationale behind reviewing the BMO from a legal perspective.

After the forum, we expressed our views to the Home Affairs Department on 2 February 2015 on the issues and proposals set out in the consultation document as follows:

1. Bid-rigging and Disputes Relating to Large-scale Maintenance Projects
2. Convening an OC General Meeting at the Request of Owners

3. Extension of the “AP Easy” Building Maintenance Advisory Service Scheme

With the success of the implementation of the “AP Easy” Building Maintenance Advisory Service Scheme (the Scheme) which went into effect on 1 April 2014, and upon the request of the Home Affairs Department (HAD), the Scheme was extended for another year from April 2015 to March 2016, so as to allow more time for the Owners Corporations (OCs) to appoint APs with the assistance of expert teams and to render help to more OCs. The HKIS’s Building Surveying Division and Property and Facility Management Division, together with the Hong Kong Institution of Engineers and the Hong Kong Institute of Architects, will continue to provide pro bono professional and tailor-made advisory and support service to OCs in helping them appoint APs to carry out building maintenance works.

The Scheme is intended to guide the OCs on how to appoint a competent and appropriate project consultant and provide basic knowledge for OCs to monitor the performance of consultants. Members are not supposed to get involved in the actual assessment of the building conditions and details of the repair works, not even in the specific cost aspect, which should be more properly dealt with by the respective consultant appointed. Members are also not supposed to become involved in the works supervision stage of the building repair works.

4. The 2014 Quality Property and Facility Management Award (QPFMA)

HKIS held the Quality Property and Facility Management Awards 2014 (QPFMA 2014) jointly with The Hong Kong Association of Property Management Companies (HKAPMC). QPFMA is a biennale award since 2010 that honours outstanding projects within the property and facility management industry.

The theme for QPFMA 2014 was “Moving Forward to the New Era of Property and Facility Management – Sustainability and Liveability”. Last year, we have received overwhelmingly 115 nominations and 27 selected nominees were invited to present their projects to the Judging Panel on 2 August 2014 at the Chiang

Chen Theatre of the Hong Kong Polytechnic University. The winners were revealed at the QPFMA 2014 Award Presentation Banquet, held on 12 September 2014 at the Crystal Ballroom of the Holiday Inn Golden Mile Hong Kong in Tsim Sha Tsui.

The banquet turned out to be a delightful and lively occasion where the industry came together under one roof to celebrate progress. The Guest of Honour for the event was Mr WONG Kam Sing, JP, Secretary for the Environment, HKSAR Government, who shared his vision of Hong Kong’s future with the guests of the evening. Among the 260 plus attendees, there were many easily recognized and distinguished guests.

5. PFMD Conference 2015 cum 10th Anniversary Celebration

PFMD organised a Conference cum 10th Anniversary Celebration on Friday, 15 May 2015 at the Grand Ballroom I & II of the Crowne Plaza Hong Kong Kowloon East, Tseung Kwan O.

Our Guest-of-Honour, Professor Anthony Cheung Bing Leung, GBS, JP, Secretary for Transport and Housing delivered a 30-minute inspiring keynote speech during the Conference. Other speakers include: Ms Florence Hui Hui-fai, Under Secretary for Home Affairs; Ms Anissa S.Y. The theme of the Conference was “Enhancing Sustainability through Professional Property and Facility Management Services”, which was aimed at providing a unique opportunity for real estate, property and facility management professionals to exchange experiences and ideas towards a sustainable future in Hong Kong, as well as a platform for industry stakeholders to exchange their views and perspectives. The Conference also marked the 10th Anniversary of the PFMD.

6. Green Property Management Practices

As a reputable and responsible component of The Hong Kong Institute of Surveyors (HKIS), the Property and Facility Management Division (PFMD) has taken the lead in developing intelligent and sustainable solutions for the industry. Therefore, with the joint efforts and kind contributions from renowned scholars and experienced practitioners, the PFMD published the Green Property Management Practices in April 2015 to promote a greater public awareness of the importance and good practices of green management and operations, which should be adopted not only at the occupation stage of properties, but also during their design and construction stages. This publication also advises professional property and facility managers on how to deliver value-added management services to all users while maintaining a sustainable living environment.

Green Property Management Practices have been issued to government bureaux/departments, professional bodies, academic institutions and the like. Free copies were also provided to attendees of conferences and CPD events organised by the PFMD, such as HKIS PFMD 2015 Conference cum 10th Anniversary. The contributors to the publication were invited to share their professional experiences on managing the use of energy resources, indoor air quality, waste handling, landscaping at the CPD events in August and October 2015.

7. Publications & Researches

The Division's new leaflet and brochure were published in 2014. We appointed The Hong Kong Polytechnic University in 2014 to conduct a research on "Contributions of Property and Facility Management Industry in terms of Gross Domestic Product (GDP) to Hong Kong". We also appointed The University of Hong Kong and The Hong Kong Polytechnic University in 2015 to conduct another two researches on "The effective use of web-based management tools for the property management companies in Hong Kong" and "The Relationship between Green Certified (Beam Plus) Buildings and Property Price in Hong Kong" respectively.

9. Membership Growth

Membership growth has always been our division's concern. As at 31 October 2015, we had a total membership of 813, with the addition of 3 new members and 5 probationers in 2015. We shall continue to publicize ourselves to the undergraduates and we are looking forward to more young graduates joining our division in the coming years.

10. Way Forward

The Council has been contributing its best efforts in reflecting our comments and concerns to HAD regarding the legislation of the Property Management Services Bill and the proposed amendments to the Building Management Ordinance Cap 344 over the last 12 months. Specifically, the Property Management Services Bill will be a critical legislation to the long term development of the members in our Division as well as the Hong Kong property and facility management industry as a whole. Hence, we

shall spare our efforts to raise our concerns and request the Property Management Services Bill Committee to include our opinions into the new legislation.

The upcoming year will be a busy and challenging year for us as we are organising the 2016 Quality Property and Facility Management Award (QPFMA) for the 4th year jointly with HKIS PFMD and The Hong Kong Association of Property Management Companies (HKAPMC).

Finally, I would like to express my heartfelt gratitude to all Council Members for their unfailing supports in various issues in the past, together with their valuable contributions to the growth and development of the Division. I would also like to thank all Fellow Members for their supports and their commitments to the well beings of our Division.

With all your supports, I look forward to the continued success of the PFM Division in the years ahead.

1.2 Visit by the President of the Chartered Institution of Civil Engineering Surveyors (15/4/2015)

The President of the Chartered Institution of Civil Engineering Surveyors (ICES), Mr Ian Bush, visited the Institute on 15 April. He was

accompanied by the Chairperson of ICES (Hong Kong Region), Ms Miranda Lui, and a delegation of four. I had the pleasure to attend the meeting along with representatives of the HKIS, Sr Vincent Ho (President), Sr Edward Au (Senior Vice President), Sr Thomas Ho (Vice President and QSD Past Chairman), Sr TM Koo (Honorary Treasurer), and Sr Raymond Kam (BoE Chairman and QSD Vice Chairman).

During the meeting, Mr Bush gave us a brief introduction to the current status of the ICES. In return, I updated him on the status of the QSD and other prevailing hot-button issues on the local market, such as BIM, NEC3, and green buildings, for quantity surveyors in Hong Kong. The reciprocity agreement between the ICES (Commercial Management) and the QSD was discussed and both institutes agreed to extend this agreement before it expires. Both institutes also wished to extend their collaboration on the organisation of the CPD and social functions. Ms Lui wished to encourage QSD members to join ICES via the reciprocity agreement in its commercial management stream.

Being invited by ICES, I joined its annual dinner on 17 April, during which I had more opportunities to pursue further collaboration with ICES.

1.3 International Construction Measurement Standards (ICMS) Coalition (15-17/6/2015)

The International Construction Measurement Standards (ICMS) Coalition was established by non-profit organisations representing professionals in over 140 countries. Collectively, the group aims to create overarching international standards that will harmonise costs, classifications, and measurement definitions in order to enhance comparability, consistency, statistics, and the benchmarking of capital projects.

Over 30 professional bodies from around the world met from 15-17 June at the International Monetary Fund (IMF) headquarters in Washington, DC to launch a major initiative to create international standards in construction

measurement for the quantity surveying and cost engineering professions. Our QSD Past Chairman, Sr Dr Paul Ho, represented the Institute at this initiation meeting.

During the meeting, some of the attending organisations signed a declaration to join the Coalition. In this connection, the QSD discussed and proposed that the Institute should join the Coalition. This was approved by the Executive Council and General Council, which stated that:

1. the Institute shall join the ICMS Coalition and the President will sign the declaration document on its behalf and
2. Sr TT Cheung shall be nominated as the Institute's Trustee for a term of two years with effect from 1 July 2015.

In early July, the Coalition was formally launched. It will continue to grow as more professional organisations come forward to align themselves with its high-level principles. Corporations, contractors, and key government stakeholders are also encouraged to contribute to and adopt the new international framework in their capital markets.

In early July, the Institute also received two papers (namely the Role Description and Work Plan) in respect of the setup of the ICMS Standard Setting Committee (SCC). After reviewing the papers, the QSD proposed that the Institute should apply to become a member of the ICMS SCC and nominated Sr KC Tang to represent the HKIS in the organisation. These two proposals were endorsed by the Executive Committee and were followed.

Over 30 organisations participated in the ICMS Coalition meeting at IMF HQ in Washington, DC

1.4 Visit by the President of the Australian Institute of Surveyors (13/11/2015)

Chapter, Sr Peter Ng, and Honorary Secretary of International Chapter, Mr Leong Choong Peng, visited the Institute on 13 November, one day ahead of the HKIS and AIQS Joint Conference on 14 November.

The HKIS President, Sr Vincent Ho; HKIS Vice President and QSD Past Chairman, Sr Thomas Ho; QSD Vice Chairman, Sr Raymond Kam; and I received our visitors in the Institute's Board Room. The representatives gave introductions of their respective institutes and exchanged views on the development and promotion of the quantity surveying profession. I would like both institutes to continue their collaborative efforts in the future.

1.5 HKIS and AIQS Joint Conference: How QS will succeed in Tomorrow's World (14/11/2015)

The HKIS and AIQS Joint Conference was successfully held at the Hong Kong Design Institute, Tseung Kwan O, on 14 November. This was the first time that the HKIS and AIQS jointly organised a conference. About 400 participants attended and gave positive responses.

The aim of the conference was to discuss on future opportunities in the field of quantity surveying and how to improve the quality of QS services. Topics such as risk management, BIM, BEAM Plus, environmental, maintenance contracts, dispute resolution and other topics on QS profession were examined.

The conference started with the welcome speeches by HKIS President, Sr Vincent Ho, and AIQS President, Mr Peter Clack. It was followed by an opening keynote speech by our Guest of Honour, Prof Anthony Cheung Bing-leung, Secretary for Transport and Housing of the HKSAR Government. The excellent keynote speech on "Quantity Surveying Skills in Great Demand" is available at the government website [news.gov.hk](http://www.news.gov.hk) as below.

1.6 Co-operative Agreement with Overseas Quantity Surveying/Cost Engineering Institutes/Organisations

1.6.1 Exploring the Opportunities to Work with American Association of Cost Engineers (AACE)

With the signing of the Cooperative Agreement with AACE, it was suggested that the QSD should consider exploring the opportunities to work together with AACE for the exchange of ideas and techniques in costing and other

aspects. To start with, Dr Alexia Nalewaik of AACE was invited to deliver a speech on risk management in the HKIS and AIQS Joint Conference on 14 November.

1.6.2 Following Up on the Memorandum of Understanding (MOU) with South Africa

With the open of dialogue with South African Association of Quantity Surveyors (SAAQS), the QSD has liaised with SAAQS to explore the practice requirements and opportunities in South Africa (Registration Board) for the QSD members' information. The QSD has expressed interest in signing a MOU agreement with SAAQS and will continue to follow up.

1.6.3 Following Up on the Memorandum of Understanding (MOU) with Ghana

The QSD met with the representatives from Ghana in the ICEC Congress in Milan in 2014 and agreed to explore possible opportunities for further collaboration. The President of the QS Association from Ghana reverted that its Council had discussed the MOU with the QSD and would follow up to prepare the MOU. However, the development of the same would be put on hold for the time being due to the outbreak of Ebola epidemic.

2. MAINLAND AFFAIRS

2.1 Cooperative Agreement between CECA and the HKIS (4/3/2015)

A cooperative agreement to translate the Chinese version of the "National Standard of the People's Republic of China – Code of bills of quantities and valuation for construction works" (建設工程工程量清單計價規範) (GB50500-2013) into English was signed between the China Engineering Cost Association (CECA) and Hong Kong Institute of Surveyors (HKIS) in early August 2014. The engaged translation services provider was Messrs KC Tang Consultants, Ltd. The purpose of the translation was to let CECA's counterparts gain a more thorough understanding of the current standards promulgated by the MoHURD on the preparation of bills of quantities and the valuation of construction works. This would hopefully enhance the standing of the National Standard internationally.

The English version of the Code was reviewed by a panel of CECA-appointed experts consisting of Mr Xie Hong-xue (謝洪學), Mr Shu Yu (舒宇), Sr Prof Anita Liu (廖美薇), Sr Tommy Yim (嚴汝江), and Sr Jacob Lam (林清錦).

After several months of translating the Code, the panel of experts; the service provider's representative, Sr KC Tang; and the QSD's representatives, Sr Keith Yim (QSD Immediate Past Chairman) and I, attended a half-day meeting in Shenzhen to discuss on the wrapping up the work on 4 March. Shortly after this meeting, it was announced that the translation was completed.

2.2 內地造價工程師與香港工料測量師互認協議中國註冊造價工程師繼續教育培訓班 (14-15/3/2015)

因取得中國註冊造價工程師資格的香港工料測量師是有義務接受並按要求完成《繼續教育》，中國造價工程師協會（中價協）作為負責組織開展全國註冊造價工程師繼續教育工作的機構，已於 3 月 14 和 15 日為香港地區的中國註冊造價工程師在深圳完成為期 2 天的面授培訓。是次的面授培訓班得到共 159 名會員踴躍報名參加。中價協為隆重其事，在面授培訓開始前舉行了簡單而隆重的開幕儀式。當日開幕儀式邀請了中價協秘書長吳佐民先生、主任孔憲珍女士、深圳市造價工程師協會會長賀道明先生及學會會長何鉅業測量師、學會副會長及工料測量組前主席何國鈞測量師、工料測量組主席黃國良測量師列席主持。本人亦謹代表香港測量師學會工料測量組，感謝中價協是次悉心的安排。

為了讓各位學會會員能夠符合延續註冊的繼續教育要求，中價協在是次培訓，邀請了內地造價管理行業的專家講者，向各會員講解行業的發展及管理情況、工程造價專業發展展望、建築安裝工程費用項目組織、《建設工程工程量清單計價規範》概述及條款解讀、以及造價工程師註冊管理系統的操作說明。透過這兩天的培訓，盼能促使各會員對內地的工程造價管理行業，以及相關的工程規範有更深入的了解。

中價協及香港測量師學會自成立以來，一直致力維護行業的利益，及提升業內人士的專業素質，本人期望兩會繼今次的培訓後，繼續為推動兩地工程諮詢造價行業的發展而努力。

中價協秘書長吳佐民先生、主任孔憲珍女士、深圳市造價工程師協會會長賀道明先生及學會會長何鉅業測量師、學會副會長及工料測量組前主席何國鈞測量師、工料測量組主席黃國良測量師列席主持開幕儀式。

2.3 Visit by the ChongQing Construction Cost Association (19/6/2015)

The Councilor of the ChongQing Construction Cost Association (CCCA) (重慶市工程造價管理協會), Ms Jia Hui Yan, visited the Institute in the morning of 19 June. She was accompanied by a group of ten delegates.

The meeting was organised by the Chartered Institution of Civil Engineering Surveyors (ICES) (Hong Kong Region). Its Chairperson, Ms Miranda Lui, and two delegates also visited the Institute to meet with the CCCA representatives. I attended this meeting along with Sr Thomas Ho (HKIS Vice President and QSD Past Chairman) and Sr Antony Man (QSD Past Chairman).

During the meeting, all three groups shared their experiences in the development of quantity surveying/cost engineering. The QSD briefed its guests on the route to HKIS membership and the quantity surveying market in Hong Kong. The QSD will consider the possibility of future collaboration with the CCCA.

2.4 拜訪中國建設工程造價管理協會 (7/9/2015)

香港測量師學會赴北京代表團一行二十人於9月7日和8日拜訪多個國家單位，工料測量組代表為主席黃國良測量師和副主席甘家輝測量師。於9月7日上午香港測量師學會赴北京代表團拜訪完國務院港澳事務辦公室後，在接着拜訪中國建設工程造價管理協會（中價協）期間，工料測量組除了交流香港和國內工料測量和工程造價事務外，並就第三批互認跟進了內地造價工程師與香港工料測量師的互認補充協議。經雙方商討後，工料測量組亦於是次會面後和中價協確定互認補充協議的細節。

2.5 中國建設工程造價管理協會與香港測量師學會簽署內地造價工程師與香港工料測量師互認補充協議 (15/10/2015)

為了加強內地造價工程師和香港工料測量師的交流與合作，促進兩地的共同發展，中國建設工程造價管理協會（中價協）與香港測量師學會（學會）於2004年就內地造價工程師和香港工料測量師互認工作進行評估，通過評估雙方對開展內地造價工程師和香港工料測量師進行互認工作的必要性及可行性取得共識，經雙方認真、友好的協商，同意就內地造價工程師與香港工料測量師展開互認工作，並於2005年5月簽署了資格互認協議。

於2005年12月，學會跟中價協互相推薦首批符合資格的會員參加了培訓及考核，並於2006年完成了內地註冊造價工程師與香港工料測量師資格互認的工作。當時，173名香港工料測量師通過互認考核而取得內地造價工程師資格證書，內地亦有197名造價工程師通過考核而取得學會會員資格。

在2009年，雙方進行了第二次的資格互認培訓及考核，166名香港工料測量師通過互認考核而取得內地造價工程師資格證書，內地亦有172名造價工程師通過考核而取得學會會員資格。

現時，學會合共339名會員通過考核，並取得內地造價工程師資格證書。當中，144名會員更已經取得造價工程師註冊證書及執業印章，可以於內地以造價工程師的名義開展業務。

為繼續做好內地造價工程師與香港工料測量師互認工作，經中價協與學會協商後，兩會同意繼續開展內地造價工程師與香港工料測量師的資格互認工作。兩會並已於10月15日早上在北京由中價協會長徐惠琴女士和學會會長何鉅業測量師代表簽署了新一份互認補充協議。

中價協出席簽署互認補充協議儀式的代表包括：

1. 會長徐惠琴女士

3. NETWORKING WITH EXTERNAL BODIES

3.1 HKIS Media Luncheon (19/1/2015)

The HKIS arranged a media luncheon on 19 January. Two spokesmen from the Quantity Surveying Division, Sr Honby Chan and I, attended this luncheon, during which I briefed the media on the quantity surveying profession and the scope of its services.

Delivering a speech by QSD Chairman, Sr Paul Wong

I also mentioned the adoption of the new HKIS Standard Form of Contract for Maintenance and Renovation Works and emphasised the importance of independent cost consultants for infrastructure projects.

3.2 Communication Meeting between the ACQS, DevB, ArchSD, and HKIS

The Communication Meeting between the Association of Consultant Quantity Surveyors (ACQS), the Development Bureau (DevB), the Architectural Services Department (ArchSD), and the Hong Kong Institute of Surveyors (HKIS) was held at the Queensway Government offices on 23 March.

The meeting was chaired by the Director of ArchSD, Sr KK Leung, and attended by his senior officials; representatives from the ACQS and DevB; and representatives from the HKIS's QSD, Sr Keith Yim (QSD Immediate Past Chairman), Sr Honby Chan (QSD Vice Chairman), Sr Raymond Kam (QSD Vice Chairman), and myself.

During the meeting, a number of items were discussed. The HKIS raised the following issues:

1. Use of a Standard Form of Contract for Maintenance and Renovation Works published by the HKIS

It was suggested to use this form for any major repair to be carried out in school projects. The ArchSD aired its observations on the new terms for different parties in this form and its acceptance by the construction industry. The HKIS agreed to observe and seek collaborative efforts from the HKIA and HKICM.

2. Use of BIM in ArchSD projects

The ArchSD selected some projects for the testing of BIM and will continuously review its use in these projects. As the Housing Department widely employs BIM technology, it was proposed that the ArchSD should consult with the Housing Department to see if a common standard may be adopted for BIM.

3. Use of NEC in ArchSD projects

The HKIS raised concerns over the applicability and suitability of using NEC in building works projects. The ArchSD advised that it had adopted NEC in three projects on a trial basis, with another three scheduled in 2016. The ArchSD also selected a QS consultancy agreement to test the use of an NEC Professional Services Contract (PSC) in three future projects.

3.3 Visit to the Architectural Services Department Quantity Surveyors Association (25/6/2015)

Sr Thomas Ho (HKIS Vice President and QSD Past Chairman), Sr Keith Yim (QSD Immediate Past Chairman), Sr Raymond Kong (QSD Honorary Secretary), Sr Amelia Fok (QSD Honorary Treasurer), Sr Antony Man (QSD Past Chairman), and I met with representatives of the Architectural Services Department Quantity Surveyors Association (ArchSDQSA) on 25 June. We were received by the ArchSDQSA's Sr Wong Chi Lok (Chairman), Sr Rachel Yu (Vice Chairperson), and four other members.

During the meeting, the discussion focused on the areas of NEC3 Contracts, independent cost consultants, maintenance contracts, the ArchSD's coming project volume, BIM studies and applications, and the implications of the Security of Payment Legislation. The QSD also informed the ArchSDQSA about the launch of the HKIS QSD's Facebook page, on which QSD events would be regularly uploaded for members' information.

After the meeting, we had an opportunity to meet with the Assistant Director (QS) of the ArchSD, Sr Sheron Li, to discuss the collaboration between the QSD and ArchSDQSA. The QSD appealed for more support and participation in QSD affairs from the ArchSDQSA.

Representatives of the QSD and ArchSDQSA

3.4 2nd Communication Meeting Between the ACQS, DevB, ArchSD and HKIS (28/10/2015)

The 2nd Communication Meeting between the Association of Consultant Quantity Surveyors (ACQS), the Development Bureau (DevB), the Architectural Services Department (ArchSD), and the Hong Kong Institute of Surveyors (HKIS) was held at the Queensway Government offices on 28 October.

3 QSD Council Members, Sr Keith Yim (QSD Immediate Past Chairman), Sr Raymond Kam (QSD Vice Chairman) and Sr Amelia Fok (QSD Honorary Treasurer) represented the HKIS to attend the meeting.

In this meeting, the QSD raised the following 4 issues for discussion.

1. BIM study and application on ArchSD projects;
2. Use of NEC3 on ArchSD projects;
3. Impact of the proposed Security of Payment Legislation on QS practice; and
4. Implications of the Contracts (Rights of Third Parties) Ordinance.

4. NETWORKING WITH MEMBERS

4.1 HKIS QSD FACEBOOK

**The HKIS QSD is now on Facebook!
Like us and get first-hand news!**

The QSD has launched an official “HKIS QSD” FACEBOOK page: <https://www.facebook.com/HKIS.qsd> on 11 February. Since its launching, the “HKIS QSD” official page has accumulated more than 750 “likes”. In addition to details and photos of completed events, the QSD also uploads news of upcoming events. Members can now easily access the latest information of completed and upcoming events about the QSD and building industries through our official “HKIS QSD” FACEBOOK page. Furthermore, members can make use of this page to communicate with the QSD Council.

The objective is to widen our spectrum of communications and enhance sharing between the QSD Council and QSD members, as well as among QSD members themselves. Hopefully this will create closer bonds between QSD members and the society and become a pleasure ground for the members of the QSD!

4.2 New Members Welcoming Party (4/3/2015)

The QSD New Members Welcoming Party was originally planned to be held at a Western restaurant in Central on 4 March. Due to overwhelming interest, the party was moved to a bigger venue at the Staff Club, 5/F, Communal Building, The Hong Kong Polytechnic University.

This year, over 100 participants (including new members, their friends and families, QSD Council Members, QSD Past Chairmen, and HKIS EC Members) joined the party. The QSD Council Members and QSD Past Chairmen gladly met with the freshest faces during this jovial and casual event. It was our great honour that the Senior Vice President of the Institute, Sr Edward Au, was able to attend the event and give an impressive speech to the newly-

qualified members. I had the great pleasure to represent the QSD Council to introduce to our newest members the functions of its various sub-committees and organising committees in the hope that they would inspire more of our younger surveyors to participate in the Council’s important activities. In order to sustain the QSD Council’s development, we need to inject new blood into the council on a regular basis. The party provided us with a platform to promote the Council’s work and, hence, encourage members to contribute their efforts to the QSD Council. At this party, we were also grateful to have the attendance of our HKIS Vice President and QSD Past Chairman, Sr Thomas Ho; other Divisional Chairmen; and the YSG Chairman.

The creative games played during the party gave it a cheerful atmosphere. Everybody joined in and enjoyed the experience. Before the party ended, I had the honour to host a lucky draw.

4.3 1st Social Event – Golf Fun Day (17/5/2015)

Over 40 members (including HKIS Vice President and QSD Past Chairman, Sr Thomas Ho, and QSD Immediate Past Chairman, Sr Keith Yim) of the QSD stepped away from their work on 17 May to take part in its first social event of the year – a GOLF FUN DAY. This event was organised by the QSD Social and Welfare Sub-committee and was held at the driving range of Kau Sai Chau Public Golf Course, Sai Kung. After members were coached on the basics of swinging a golf club, they were each supplied with one golf club and unlimited golf balls to practice their swings. During the one-hour session, the coaches watched and corrected the swings of each participant. Most

members showed great interest in learning this sport. Even though adverse weather later approached the driving range, members were still keen on honing their newly-learnt skill.

Thereafter, members enjoyed a buffet lunch. Our QSD Honorary Treasurer and Social and Welfare Sub-committee Chairlady, Sr Amelia Fok, and QSD Honorary Secretary, Sr Raymond Kong, took this occasion to conduct a quiz to test members' familiarity with the Institute, the QSD, and the game of golf. Prizes were given to anyone who could answer a question correctly. Overwhelming responses were received from the participants.

Before leaving the picturesque golf course, members were given some free time to enjoy the environment and take photos. It was a day of cheers, energy, food, drinks, and, most importantly, fun.

4.4 HKIS QSD Annual Dinner 2015 (12/6/2015)

The HKIS QSD Annual Dinner 2015 was successfully held on 12 June at the Grand Ballroom of the Royal Plaza Hotel with a total of 33 tables fully occupied. As one of the year's major events for the QSD, the Annual Dinner provided a precious opportunity for members to mingle and meet with seasoned friends from the surveying profession, other professional institutions, and government officials, as well as to make new friends. This year, we had the pleasure of inviting Mr Eric SC Ma, Under Secretary for Development of the HKSAR, as our Guest of Honour. We also had the privilege to receive distinguished guests from government bureaus/departments, the Legislative Council, educational institutes, other professional institutes, and the Liaison Office of the Central People's Government in the HKSAR. Other guests included the President, office bearers of the General Council, Divisional Chairpersons, past Presidents, and past QSD Chairpersons of the Institute.

For this dinner, we invited five artists as MCs and performers. The organising committee also arranged a fabulous LED dance programme and a photography game using selfie sticks to bring the atmosphere of the event to its climax.

I should mention that the "Quantity Surveying Division APC Best Candidate 2014 Award" went to a newly-elected member, Sr Chong Po Yee. The award acknowledged her outstanding performance in the Assessment of Professional Competence in 2014. I hope that Sr Chong will keep up the good work on her job. Congratulations to her.

Again, it was a wonderful and successful annual dinner of the QSD.

4.5 2nd Social Event – Porcelarts Course (18/7/2015)

Porcelarts has been a big hit in Japan for quite some time. It is a portmanteau of the words “porcelain” and “art”. The QSD Social and Welfare Sub-committee organised a porcelarts course, its second social event of the year, at an art and design workshop in Causeway Bay on 18 July. Two classes were held to accommodate enthusiastic members.

33 QSD members, including Sr Thomas Ho (HKIS Vice President and QSD Past Chairman), Sr Raymond Kong (QSD Honorary Secretary), and Sr Amelia Fok (QSD Honorary Treasurer and QSD Social and Welfare Sub-committee Chairperson) and I, participated in the porcelarts course. At the beginning of each class, members chose either a mug or a plate. They proceeded to create their own designs and transferred them to the porcelain through a sheet of transfer paper. With laughs and chats, our members joyfully completed their personal and unique creations in two hours.

Members of Class 1 produced their own porcelain designs

The main purpose of organising social events for members is to allow them to meet new friends and socialise with other members in a casual atmosphere. It was wonderful to see all the members enjoyed the course as they were able to produce their own porcelain designs at the end of the event.

4.6 3rd Social Event – Organic Farm Visit (8/11/2015)

About 40 QSD members, their family members and friends including HKIS Vice President and QSD Past Chairman, Sr Thomas Ho; QSD Honorary Secretary, Sr Raymond Kong; QSD Honorary Treasurer and Social & Welfare Sub-committee Chairperson, Sr Amelia Fok; QSD Past Chairmen, Sr Dr Paul Ho and Sr Daniel Ho, and I enjoyed a relaxing day at an organic farm at Ping Che, Ta Kwu Ling on 8 November.

The visit started with a guided tour of the farm including greenhouses, introduction to organic farming and seasonal vegetables. It was followed by a yummy DIY organic lunch (with organic salad, mushroom soup, roasted chicken, and handmade firewood pizza), after which they attended a DIY lipstick workshop. Each participant were able to bring home a piece of organic lipstick of chosen flavour.

Before the participants left the organic farm, they were given the chance to buy some organic vegetables and fruits. All participants enjoyed a day with sunshine, laughs and delicious fresh food at the organic farm.

5. ASSESSMENT OF PROFESSIONAL COMPETENCE (APC)

5.1 APC 2014

The APC 2014 has ended. The results are as follows:

	Written Assessment			Interview for Associate / Full Membership		
	No. of Candidates	Passed	Pass Rate	No. of Candidates	Passed	Pass Rate
Part I	207	203	98%	11	11	100%
Part II	270	92	34%	92	69	75%

In December 2014, 27 referred candidates repeated their professional interviews. 11 of them passed, representing a pass rate of 44%.

5.2 APC 2015 (Part I : 19/8/2015; Part II : 15&16/9/2015)

This year’s APC Parts I and II were held on 19 August and 15-16 September, respectively, at the Kowloon International Trade and Exhibition Centre, Kowloon Bay. 217 candidates sat for Part I Paper and 321 sat for Part II.

5.3 APC Assessors' Briefing (2/10/2015)

As per past practices and to ensure fairness to all candidates, all papers were marked by at least three assessors. This year about 400 members joined the panel of assessors for the APC Final Assessment 2015. On 2 October, the QSD organised the Assessors' Briefing for more than 100 assessors at the World Trade Centre Club, Causeway Bay. The objective of the briefing session was to provide a forum for the assessors to discuss the marking scheme, provide suggested answers, highlight common mistakes, and respond to frequently asked questions. After the briefing session, I delivered a short speech to brief members on our previous and future major events.

Following the briefing session and my short speech, the assessors and Council Members enjoyed a complimentary buffet dinner, which was a good platform for members to mingle with accomplished peers and new friends.

Briefing by the Divisional Education Committee (DEC) Chairman, Sr Raymond Kam, and other DEC members

5.4 APC Interviews (Tentatively Scheduled for 16/1/2016)

Our members may have noticed that those candidates who have achieved a passing grade on their written papers can proceed to be interviewed by a panel of three assessors. Over the past three years, all interviews were conducted on Saturdays. By adopting this practice, we were able to better control the duration of the assessment time and announce the results as soon as possible. The Divisional Education Committee has tentatively scheduled the interviews on 16 January 2016. Same as previous years, there is tremendous demand for interviewers. I would like to call for members who can spare half or a whole day of their precious time to participate in this meaningful exercise. This is a moment for us to have face-to-face discussions with the prospective new blood of the quantity surveying profession. Members will be informed of the exact time and venue of the interviews in due course.

6. PRE-QUALIFICATION STRUCTURED LEARNING (PQSL) AND CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

6.1 Pre-qualification Structured Learning (PQSL)

According to the HKIS QSD APC Rules and Guide, candidates must undertake a minimum of 15 HOURS of Pre-qualification Structured Learning (PQSL) EVERY SIX FULL MONTHS (i.e., NOT a minimum of 30 HOURS EVERY YEAR) after their entries to the APC and until they take any written APC Assessments. Candidates are reminded that fulfilling such a requirement is one of the preconditions for the admission to any written assessments under the QSD APC Scheme.

Following the success of the courses in PQSL, which have been arranged since 2010, the QSD has organised a series of QSD PQSL courses to cope with the requirements of the QSD APC Scheme in this year term. These courses covered different aspects of the quantity surveying practice, ensuring that candidates would gain an appropriate level of skills and knowledge prior to sitting for the APC.

In this year term, the QSD has organized 22 PQSL events (including 18 talks and 4 APC workshops), which is a sky-high figure. For details, please see Annex "A".

6.2 CPD Events in 2015: Talks, Workshops, Training Courses & Site Visits

Continuing professional development (CPD) is "the systematic maintenance, improvement and broadening of knowledge and skill and the development of personal qualities necessary for the execution of professional and technical duties throughout the practitioner's working life."

持續進修 提昇專業水平 鞏固基礎 發揮專長
終生學習 發展全人理想 擴張領域 啟發潛能

6.3 First CPD Talk in Macau (14/5/2015)

For the benefit of our members working in Macau, the first CPD talk in Macau entitled "Contractor Bonds and Contractor Bonds Arrangement in Macau" was successfully held on 14 May.

With the great effort of the Macau Subcommittee, another 3 CPD talks in Macau were also held on 20 Aug, 14 Oct and 19 Nov thereafter.

I would like to add that the said 4 CPD talks in Macau were jointly organised with the ICES (Hong Kong Region). I look forward to more opportunities to have further collaboration with ICES in future.

QSD set up the SMM Sub-Committee to review the errors and comments received to improve the SMM4, and to clarify any disputes from the public on the interpretation on the SMM4. After reviewing, the SMM4 (2014 amendments version) was issued last year.

The SMM Sub-Committee has set up a panel comprising representatives from Consulting QS firms, Architectural Services Department and Hong Kong Housing Authority to further review the amendments to SMM4 earlier this year. The panel has explored the need for the drafting of SMM5 and/or a version for measurements using BIM.

8.2 Practice Notes for Quantity Surveyors

The QSD launched six Practice Notes for Quantity Surveyors in October 2012 covering the following core subjects:

- Tendering
- Cost Control and Financial Statements
- Valuation for Interim Payment Certificates
- Valuation of Variations
- Contractual Claims
- Final Accounts

These Practice Notes were prepared jointly with the Association of Consultant Quantity Surveyors (ACQS) and the Hong Kong Construction Association (HKCA) to produce some basic guidelines for quantity surveying core practices. They have been available in both hard and soft copies [http://www.hkis.org.hk/en/publication_sales.php] for some time. The QSD has arranged some hard copies for members’ collection during the CPD events. Another set of two Practice Notes for Quantity Surveyors on the subjects of “Procurement” and the “Pre-contract Estimate and Cost Plan” are currently under review.

9. PROMOTION OF THE QUANTITY SURVEYING PROFESSION

9.1 Interview by Economic Times – “基建易超支；工料測量師吃香”(16/3/2015)

I was interviewed by Economic Times in February this year. A thorough description of the quantity surveying profession was published in Economic Times on 16 March. The attractive header – “基建易超支；工料測量師吃香：畢業生就業率百分百；非本科生可入行” arouse the public to learn more about quantity surveying profession.

The contents of the recorded interview included the below areas.

1. 統籌工程着重溝通能力
2. 主流投身顧問行；女性漸增
3. 中澳項目多；成港人出路
4. 測量師入行 3 大途徑 - 可先修讀學位課程後考牌
5. 晉升階梯
6. 工程超支；人工是最大因素

9.2 HKIS Quantity Surveying Division Scholarship Presentation Ceremony 2015 (1/4/2015)

The 2015 HKIS QSD Scholarship Presentation Ceremony was successfully held on 1 April at the Institute's Surveyors Learning Centre. This was the fifth ceremony in a roll that the QSD has organised. The main objective of the scholarship programme is to reward students who study quantity surveying at local universities and the Institute of Vocational Education (IVE) and aspire to become professional quantity surveyors, as evidenced by their electives and performances in key quantity surveying subjects during their scholarship periods. A secondary objective is to promote quantity surveying as a highly-valued profession in the construction industry to students.

Due to the current economic boom in the local construction industry, the demand for quantity surveyors is overwhelmingly high, and the career prospects for quantity surveyors should remain promising in the coming years. Indeed, the employment rate of quantity surveying graduates has been high over the past few years.

The QSD Council wants to not only focus

on recruiting young talents to the profession, but also reinforce the branding of quantity surveyors as highly-valued professionals in the construction industry. By awarding scholarships and conducting further promotional activities, the QSD will be collectively seen as a profession that opens its doors to high-calibre young people.

This year, 18 scholarships were awarded to students in recognition of their outstanding performances in key quantity surveying courses leading to a bachelor's or associate's degree or a higher diploma. The results of the awards are as follows.

Through these publications, I hope that the general public and students can learn more about quantity surveying.

9.5 Visits to Universities and IVE

The visits to Universities and IVE were part of the HKIS BoE’s campaign in promoting the surveying profession through visits to local universities and IVE. The objectives of these visits are to introduce the Institute, the scope of the professional services of quantity surveying and building surveying, the membership admission routes and APC training schemes.

9.5.1 CityU Information Day 2015 (17/10/2015)

The CityU Information Day 2015 was held on 17 October. As in previous years, both the BSD and QSD were invited to conduct an information session for the prospective applicants, mostly local Form 6 or high school third year students.

Sr Edwin Tang of the BSD and our Vice Chairman, Sr Raymond Kam, represented the HKIS at the session to introduce the scopes of BS and QS services.

As the Chairman of the Board of Education, Sr Raymond Kam also introduced various admission routes to membership and the APC qualification requirements to about 100 attendees.

Sr Thomas Ho (HKIS Vice President and QSD Past Chairman) and Sr Andrew Kung (BSD Chairman) visited the HKU on 26 October to deliver a talk on quantity surveying and building surveying professions to the Year 1 students of BSc Surveying programme.

This talk was part of the Year 1 Urban Development Studio Programme for students to explore the roles of key participants in Hong Kong’s urban development process. It introduced students to information about different construction professions and future career prospects once they would join the surveying programme.

QSD and BSD representatives delivered a talk for students of IVE (Tsing Yi)

9.6 Visits to Secondary Schools

The purposes of the QSD's visits to secondary schools are to promote general surveying and quantity surveying and to let secondary school students gain an interest in the surveying profession. In recent years, the QSD has made a number of visits to different secondary schools, which I believe, has made more students interested in the quantity surveying profession.

In this year term, seven visits to secondary schools were arranged.

9.6.1 Visit to Clementi Secondary School (5/12/2014)

The QSD Immediate Past Chairman, Sr Keith Yim, the QSD Past Chairman, Sr Gilbert Kwok, and guests from other professions were invited by Clementi Secondary School to attend a half-day career talk on 5 December 2014 and explain their respective professions to students in Forms 4-6.

9.6.2 Visit to Chan Sui Ki (La Salle) College (3/1/2015)

The second secondary school visit was to Chan Sui Ki (La Salle) College in the afternoon of 3 January. This visit was coordinated by our Chairman, Sr Paul Wong, who is an alumnus of the school and was invited to join its career talk day. After an introduction of all the alumni in attendance was made, Sr Wong delivered

two talks on the surveying profession to two groups of the school's high level students in a classroom.

9.6.3 Our Lady of Rosary College (22/5/2015)

On 22 May, Sr Raymond Kong (QSD Honorary Secretary), Sr Steven Tang (QSD Council Member and Promotion Sub-committee Chairman), Sr Tzena Wong (QSD Council Member), Sr Tiffany Chan (QSD Council Member), and I visited Our Lady of Rosary College to deliver a career talk. It was the first time for QSD to visit a girls' school, knowing the growing number of female surveyors in Hong Kong. About 70 Form 5 students and 10 teachers attended this talk.

9.6.5 Career Talk to Secondary School Students (24/6/2015)

Another fruitful and successful career talk (《把握未來大方向 探視專業測量前景》測量師行業就業講座) was held in collaboration with the Education Bureau on the morning of 24 June.

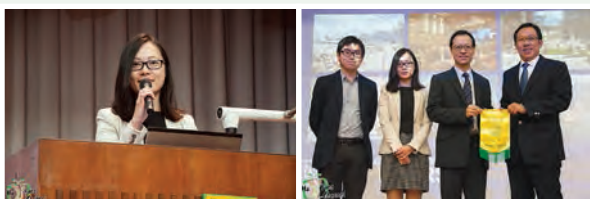

The HKIS introduced all six surveying divisions to an audience of about 150 students from more than 15 secondary schools. Sr Raymond Kam (HKIS Board of Education Chairman and QSD Vice Chairman) and Sr Tiffany Chan (QSD Council Member) represented the QSD at the talk.

9.6.6 Visit to Ho Fung College (2/11/2015)

Three QSD Council members, Sr Tiffany Chan, Sr Ken Hui and Sr Steven Tang, visited Ho Fung College to deliver a talk to about 400 Form 4 to 6 students on 2 November. They introduced the background of the Institute, the roles of its six surveying professions followed by a bit more details about quantity surveying, job opportunities, and routes to HKIS membership. Like other school visits in the past, the interactive quiz session made the students jump up from their seats to answer the questions. The school was delighted with our visit and would like to invite us to deliver similar career talks in the future.

9.6.7 Visit to SKH Lui Ming Choi Secondary School (11/11/2015)

QSD Honorary Secretary, Sr Raymond Kong and the representatives of BSD, GPD, LSD and PFMD visited SKH Lui Ming Choi Secondary School on 11 November to deliver a talk to its

upper-level students. The visit was arranged by the HKIS BoE with an aim of introducing to the secondary students the whole spectrum of the surveying professions which embraces the six divisions of the HKIS. The students were particularly interested in learning about the career prospects and the routes to obtaining a HKIS membership.

QSD Honorary Secretary, Sr Raymond Kong, delivered a talk to the students of SKH Lui Ming Choi Secondary School

After these talks, I hope that some of those students will be more interested in the surveying profession and will study surveying at Hong Kong's universities or the IVE before finally becoming members of the Institute.

10. BUILDING INFORMATION MODELLING (BIM)

10.1 BIM Training

The QSD BIM Sub-committee was set up in 2012. Its main purposes are: (1) to keep members updated on the use and development of BIM; (2) to promote BIM to and train members in its use and application; and (3) to collaborate with other organisations to study and review the use of BIM and the BIM Standard Methods of Measurement. Since being established, the BIM Sub-committee has worked with various organisations by attending and organising a number of BIM events, which included attending the 2012 BIM Conference in Singapore, organising the 2013 International QS BIM Conference in Hong Kong, attending BIM Committee meetings during the annual Pacific Association of Quantity Surveyors Congress, organising BIM CPD talks and training courses, conducting BIM research papers, etc.

This year, the QSD successfully organised five BIM CPD talks with high attendance rates on 6 January, 17 March, 14 April, 29 June and 25 November which attendees learned a lot about BIM.

Presentation of certificates to attendees of the BIM workshop

The QSD has organised various introductory hands-on and intermediate BIM training courses

since 2012. In order to help members gain more knowledge of BIM, the QSD has arranged four new intermediate BIM training courses in July and August.

10.2 PAQS BIM Committee Meeting (29/5/2015)

Our Co-opted member, Sr KC Tang, is a member of the PAQS BIM Committee. He represented the Institute to attend the PAQS BIM Committee Meeting on 29 May. It was a good opportunity to share experiences of BIM with the delegates of the PAQS member countries.

10.3 BIM Meeting with PAQS Overseas Delegates (13/11/2015)

The BIM Committee of the PAQS held a meeting in the Institute in the afternoon of 13 November. The meeting was attended by representatives from Malaysia, Singapore and Hong Kong. Our HKIS BIM Committee Chairman, Sr Dr Paul Ho; QSD representative in the PAQS BIM Committee, Sr KC Tang; our Vice Chairman, Sr Raymond Kam; and other QSD members joined the meeting and shared their insights on the development of BIM in quantity surveying in PAQS member countries.

BIM meeting with PAQS overseas delegates

10.4 BIM Speech in the HKIS and AIQS Joint Conference (14/11/2015)

BIM is not simply a 3D model or a design software tool. It is a process of development using three-dimensional, digital representation of building data throughout its life cycle. Information contained in the BIM models can improve efficiency and accuracy in estimation and measurement works. However, is it so straight forward that what gets modelled gets measured? How quantity take-off software can help? What are the business opportunities for quantity surveyors beyond measurement? What are the challenges to overcome if quantity surveyors want to reap the benefits brought by BIM technology?

In the speech “BIM in Quantity Surveying – Beyond Measurement” by Mr Justin Chiu

(Lecturer of IVE), Mr Ken Leung (QS practitioner) and Sr Sunny Choi (Senior QS of HKHA and QSD Council Member) in the HKIS and AIQS Joint Conference, it touched upon the aforesaid areas and answered the questions.

10.5 Promotion of the Use of BIM

The QSD has decided to work out a plan to promote the use of BIM and establish the best practices for BIM use. This is a long term task which will be proceeded continuously.

11. CONTRACT FORMS

11.1 Review of the Standard Form of Building Contracts 2005 Edition (SFBC 2005)

The review of the SFBC 2005 was completed, with amendments drafted and approved by the Contract Sub-Committee. The proposed amendments has also been vetted by HKIA and HKICM and is now under its final vetting by an appointed law firm. After the conclusion of the amendments, a new edition of the SFBC will be published next year. The Nominated Sub-contract and Nominated Supply Contract will also be amended accordingly.

11.2 Standard Form of Contract for Maintenance and Renovation Works (First Edition 2013) (First Amendments December 2014) & Standard Form of Contract for Decoration, Repair and Maintenance Works (First Edition 2013) (First Amendments December 2014)

It is noted that many renovation projects are using a variety of contracts written on an ad hoc basis or the amended versions of some repeatedly used forms of contracts. The contract terms of these projects are very often loosely drafted and hence would often impose a lot of uncertainties and high risks on both the clients and the contractors. The QSD has mentioned in various occasions that a standard form of maintenance contract is very important in defining a set of standard conditions for the contracting parties to follow and to reduce the possible risks and uncertainties. With the joint effort of the Building Surveying Division (BSD) and QSD, the HKIS has published two standard forms of maintenance contract in this respect, namely, “Standard Form of Contract for Maintenance and Renovation Works” and

“Standard Form of Contract for Decoration, Repair and Maintenance Works”, according to the size and value of the maintenance works, in 2013. The first amendments of these two maintenance contracts (with Chinese and English version) were issued in December 2014.

These two maintenance contracts are intended to be used as standard documents by all building consultants involved in maintenance and renovation works. As it is relatively easy to read such that clients / building owners will be able to better understand their contractual rights and obligations. On the other hand, contractors will be less exposed to ambiguous harsh terms and be able to offer better prices and end products.

I would also suggest all practitioners in maintenance and renovation works to make reference to and recommend the clients to use these two maintenance contracts. In order to promote the use of the said maintenance contracts, the HKIS has written to Construction Industry Council for its assistance.

11.3 New Engineering Contract (NEC)

While the NEC was custom-drafted for engineering works, the QSD NEC Task Force expressed concern over the applicability of and suitability for using it on building works projects, given the substantial differences in the scope and nature of the works between these two sectors. In view of its own concerns, the QSD raised comments on the frequently asked questions (FAQ) for the NEC issued by the CIC’s Task Force in 2014.

Another concern was the potential of corruption when implementing the NEC. In order to exchange views, the following QSD and HKIS representatives attended a meeting with the ICAC’s Director of Corruption Prevention, Mr MS Tse, on 17 February:

1. Sr Vincent Ho, HKIS President
2. Sr Thomas Ho, HKIS Vice President and QSD Past Chairman
3. Sr TT Cheung, HKIS Past President and QSD Past Chairman
4. Sr Dick Kwok, HKIS Honorary Secretary
5. Sr Paul Wong, QSD Chairman
6. Sr Keith Yim, QSD Immediate Past Chairman

7. Sr Raymond Kong, QSD Honorary Secretary

The meeting was fruitful and different views on implementing the NEC were discussed and exchanged. Everyone agreed to look into the concerns raised by the QSD.

As we understand that the Development Bureau has issued a directive to all works departments (including the Architectural Services Department) requesting that NEC should be used for contracts as much as possible, the QSD will maintain close dialogue with the relevant bodies to express its comments and views on implementing the NEC on a regular basis.

12. NEW LEGISLATIONS

12.1 Competition Ordinance

Hong Kong’s Competition Ordinance finally came into full effect on 14 December. Businesses throughout Hong Kong have had very little time to ensure that their operations comply with the new law before they risk prosecution. In order for members to get ready for the new Competition Ordinance, a talk entitled “Competition Ordinance – Final Chance for Preparation” organised by the QSD was held on 8 December. This talk was to set out the most critical dos and don’ts to avoid falling foul of the new law, with a focus on the construction industry. Members were given practical examples and scenarios to help better understand the concepts.

12.2 Contracts (Rights of Third Parties) Ordinance

Contracts (Rights of Third Parties) Ordinance which took effect from 1 January 2016 applies to contracts (including construction contracts) entered into starting from this date. Given the profound implications of this ordinance, it is important to update our contracts and standard clauses now to ensure that no unexpected third party claims would arise. A talk entitled “The Contracts (Rights of Third Parties) Ordinance: Beware, Statutory Third Party Rights are Coming Your Way” organised by the QSD was held on 21 September. In this talk, the speakers examined the key provisions of this ordinance and explained how statutory third party rights might affect our contracts and construction

projects. They also provided tips to help members in the drafting of contracts during the period leading up to the date when the new law came into effect and the time beyond.

12.3 PROPOSED SECURITY OF PAYMENT LEGISLATION (SOPL)

12.3.1 SOPL Forum for Stakeholders (2/7/2015)

The Development Bureau (DevB) recently launched an open consultation on the proposed Security of Payment Legislation. The period of consultation was three months from 1 June to 31 August.

The proposed legislation will have a profound impact on the payment arrangements between contracting parties along the whole supply chain of building and construction works from contracting parties to professional services and suppliers. Apart from the conventional requirements of the contract, payers and payees will be required to observe the statutory duty when administering contracts, in particular when dealing with payment arrangements.

In order to provide a platform for the stakeholders (contract administrators), namely the architects and the quantity surveyors, to share and exchange views on the proposed legislation, the QSD arranged a Security of Payment Legislation forum at the Surveyors Learning Centre on 2 July. It was attended by Legislative Councillor, Sr Hon Tony Tse Wai-Chuen, BBS, and about 70 architects and quantity surveyors from the HKIA, HKIS, ICES and ACQS.

At the beginning of the forum, I delivered an opening speech, which was followed by a speech by Sr Tony Tse. Our past QSD Chairman, Sr Dr Paul Ho, briefed the attendees on the background and major clauses of the consultation documents, as he was one of the members of the HKSAR Government Development Bureau Working Group who worked on the Security of Payment, representing the Construction Industry. Our Vice Chairman, Sr Raymond Kam, moderated the forum.

12.3.2 SOPL Forum for Members (20/7/2015)

Another forum for HKIS members on this legislation was held at the Surveyors Learning Centre on 20 July. During this forum, our Past QSD Chairman, Sr Dr Paul Ho, briefed the members, while our Vice President and QSD Past Chairman, Sr Thomas Ho, moderated the event.

12.3.3 Preliminary Meeting with Development Bureau (20/8/2015)

To study and review the proposed SOPL, a preliminary meeting was held with the DevB on 20 August. Working closely with the HKIA and HKIE, a report summarising the HKIS's opinions and comments on the SOPL was prepared for submission to the DevB.

During the aforesaid forums and meeting, some key items for discussion were:

1. Coverage of the SOPL: new building works, preservation and maintenance works, oral contracts, consultancy engagements, and supply contracts.
2. The impact of the SOPL on the prevailing contract administration of general building works (e.g. payment procedures, payment certification, pay when paid, pay when certified, conditional payment, nominated sub-contracts, etc.).
3. Adjudication: the conditions for the commencing of adjudication, the criteria for being an adjudicator, an adjudicator's default appointing body, and the time constraint in handling a case (e.g. quantum or EOT claim).

12.3.4 3rd SOPL Forum (19/9/2015)

The consultation period for the proposed SOPL originally expired on 31 August. In response to

the Institute's request, the DevB informed the Institute that it would have no problem receiving the Institute's comments by 30 September and taking them into account, even though the consultation period has already closed. To review the proposed SOPL, the Institute set up a Working Group for SOPL. The 3rd SOPL forum, in which the study by the Working Group and various opinions collected were shared to the members, was held on 19 September. It was an informative session in which the proposed SOPL and its implications on the prevailing contract administration practice were explained. The major areas presented during the forum were the application coverage of the SOPL, the proposed statutory payment arrangement, the implications to both the payer and payee, and the type of adjudication for resolving a payment dispute.

Briefing by Sr Raymond Kam (Convener of the HKIS Working Group on SOPL and QSD Vice Chairman)

Briefing by Sr Dr Paul Ho, QSD Past Chairman

3rd SOPL forum

by Sr Vincent Ho (HKIS President), Sr Paul Wong (QSD Chairman), Sr Raymond Kam (QSD Vice Chairman and Convener of HKIS Working Group on SOPL), and Sr Paniel Ho (QSD Past Chairman). The meeting was focused on the default adjudicator nominating body (ANB) for the proposed SOPL. The Joint Institute expressed that the default ANB for the proposed SOPL should be led by the construction industry comprising relevant professionals and other stakeholders who are conversant in contract administration and dispute resolution. It can hence process adjudications to serve its purpose under the proposed SOPL to swiftly resolve disputes in particular those related to non-payment. After expressing the parties' views in the meeting, the DevB requested the Joint Institute to formulate the way forward as soon as possible for DevB's further consideration.

13. CONCLUSIONS

I am pleased to conclude that the QSD Council has accomplished most of the tasks set out in the 2015 Year Plan with the concerted efforts of the Officers, Council Members, Co-opted Members, Panel Advisors and the Secretariat of the Institute.

I would like to thank you for all your hard works, efforts, continuous supports and participations in various activities of the QSD Council as well as your participation in the consultation of the Government's policy making, which have made these activities and events successful. Without your participation, the QSD would not be able to achieve so many goals.

Last but not least, I would also like to express my sincere gratitude to all members of the Quantity Surveying Division and the Divisional Council for giving me the opportunity to serve the QSD Council as Chairman for the QSD Council Year 2014/15. Though it was a very busy year, it was my great honour to have taken up the post as the Chairman of the QSD Council. As the new Council term of the QSD will commence soon, I wholeheartedly request the members' continuous support to the next QSD Council for the Year 2015/16.

2. Study Tour

With the support of 30 members (including senior members, young members and students), we had a very successfully study tour to Qingdao from 15 to 19 October. Our journey was recorded in details and with photos, and uploaded to the YSG Facebook page for your reference. Qingdao is the major coastal city and economic centre in Northeast China. We visited the planning departments, a number of private

developments including both local and overseas projects, as well as some Hong Kong consultant companies in Qingdao. It was not all about studies and visit, as we also went to some scenic attractions to gain a better understanding of Qingdao. We enjoyed each visit, meeting and communication with our professional counterparts in Qingdao.

3. Social Events

Work Hard, Play Hard — an attitude which we always encourage our young members to hold. They are encouraged to actively participate in our social events to reduce pressure and meet new friends. We successfully organised the Dragon Boat Team, Mobile Phone Case Workshop, and Joint Professional Drinking Parties. Our HKIS Dragon Boat Team had demonstrated marvelous performances in the international competition in Stanley and RSCP Joint Professional Dragon Boat Competition. YSG puts together a dragon boat team every year with the aim of promoting our members' team spirits as well as healthy living. This year, we recruited over 40 paddlers to participate in the Dragon Boat competitions.

Results:

Hong Kong Stanley International Dragon Boat Championships 2015

- Men's B Gold Cup Final 5th Runner-up
- Mixed Bronze Plate Final Champion

RSCP Joint Professional Dragon Boat Competition

- 1st Runner-up

4. Institutional Events

As YSG consists of members from different divisions, we are always the core members for all institutional functions. Our committee and helpers have been actively supporting the HKIS in many events such as Career Expo, Diploma Presentation Annual Dinner, Annual Conference, Divisional Annual Dinner, welcoming parties and Conferences. This year HKIS carried out a Brand Enhancement Scheme introducing a series of activities for the promotion of surveyors and HKIS to the public. YSG showed our support to the institute through active involvements in the HKIS Mapmaking Competition and the Touring Central with Surveyors events. We created a model of Central and produced a video showing how to create a map for the district. We also provided more than 30 helpers as speakers for the Touring Central with Surveyors event.

5. Universities Events

YSG spends lots of time and effort to encourage communications and understandings among Surveying University Students through events such as holding career talk, seminars, study tours and social events every year. This year, we were invited by 4 students' societies from the 3 universities to introduce HKIS and its 6 divisions along with YSG, deliver seminars and hold sharing sessions regarding career prospects, application for membership and professional development. In addition to these, a Joint University Party was also organised to provide the students from different universities an opportunity to meet and have an enjoyable night.

6. Joint Professional Events

To provide an all-round professional and social development to our members, YSG worked closely with various professional bodies in Hong Kong and their young members groups, in a variety of seminars, forums and social events for our members. This year, we worked with Coalition of Young Professional Group (CYPG) under Hong Kong Coalition of Professional Service (HKCPS), One Day Seminar Working Group and Architectural, Surveying, Planning and Landscape Functional Constituency (which include HKIA, HKIP, HKILA, HKIE, HKICPA, LSHK, HKBA, HKDA, HKMA, HKICS, CIArb, CIBSE and ICE). Throughout the year, we co-organised over 10 events and also supported events held by these professional young groups. These events have offered a great opportunity to our members in updating information of the current market by different professions and establishing own social network.

Major events organised during the year included the Youth Forum, One Day Seminar on Contract Management, Joint Professional Happy Hours, BSPP Joint Career Day, Visits to Tibet Qinghai Railway and Band Show. The most spectacular one was the "Youth Forum" organised by the CYPG in July. Nearly 500 young professionals had the chance to communicate with the HKSAR Chief Executive, Honorable C.Y. Leung and reputable speakers from health, financial and construction sectors on the topic of "Succession for Success: Developing Next Generation Leaders".

7. International Conferences

YSG also treasure the opportunity to exchange our experience with surveyors abroad and attend

surveying international conferences to learn more about the surveying professions in other parts of the world. This year we have attended the PAQS 19th Congress in Yokohama, the FIG Working Week 2015 in Sofia, Bulgaria and the 2015 Mainland and Hong Kong Construction Industry Forum in Yinchuan, China. I went to Yokohama with Sr Frank Poon of the YSG Committee to attend the PAQS Congress and the Young Quantity Surveyors Group (YQSG) Programme 2015. During our five days in Yokohama, we had the chance to present and share with our fellow QSs from the Pacific region the latest developments in Hong Kong's construction industry and QS profession. We visited many of Yokohama's latest developments and traditional buildings. We also met our YQSG friends and connected with newcomers to the programme.

8. YSG Annual Dinner 2015

We were excited to record the over-subscription for the YSG Annual Dinner this year. Over 150 members and friends joined the Masquerade in School Uniform held at the Metropark Hotel Kowloon. We are honoured to have the presence of our President, Sr Vincent Ho, the OB including Sr Edward Au, Sr Thomas Ho, GPD Chairman Sr Joseph Ho, PDD Chairman Sr Tony Leung, QSD Vice Chairman Sr Honby Chan, Legco member and our Past President Sr Tony Tse, Past YSG Chairmen, representatives from China Liaison Office and young professional groups. This year we aimed to encourage our HKIS members, Guest and Students to take the opportunities to communicate with each other. We designed a game using QR code and web apps to exchange attendances' information. The Drinking Competition, a featured game of the YSG Annual Dinner, stills grabbed everybody's attention. This year we even had President Vincent Ho, YSG Vice Chairman Lizzy To and I competing on the stage at the same time!!! Our organising committee did a good job and every participants enjoyed the evening.

9. Vote of Thanks

Once again, I would like to send my sincere thanks to the great team including the immediate past Chairman, Sr Kason Cheung, the Committee and Co-opted Members and Students' Representatives from the 3 universities and the HKIS Admin Office, especially Alice, Coody, Donna, Karen and Margaret in the past year. Without their contributions and continuous support, the above events could not have been held so successfully.

I invite all of you to continue your support to the new Chairman and Committee. I believe they will continue the YSG spirit and strive for a greater success. I wish YSG all the best.

The above statistics refer only to the number of applications processed during the year and do not reflect the actual changes to the membership base of the Institute. It should be noted that applicants may migrate from one membership grade or category to another. For the full details of all members, readers should refer to the Membership Registers maintained by the Honorary Secretary in accordance with Bye-law 2.1 of the HKIS Constitution.

During the session year, the application form for student membership has been reviewed. The subscription by the Head of Department of the university or institution in which the applicant is undergoing the relevant academic training may now be signed by a duly authorized officer of the relevant academic institution. This will facilitate full time students to apply for student membership of the Institute.

The relevant resolution regarding the synchronization of “admission to membership” and “election to membership” in the Constitution and Bye-law was adopted at the EGM held on 9 November 2015. Accordingly BOM will continue to process membership applications for admission. Those approved for admission will be deemed to be elected to membership, and the date of election will be the date of approval for admission by BOM.

In pursuance of the provisions of Part VII of the Bye-Laws, the Board continues to consider the policies and control mechanism for mandatory continuing professional development and lifelong learning, so as to help members enhance not only their professional competence but also their social status as professional surveyors. All professional and technical members are required to engage themselves in a continuous process of sharpening their expertise and broadening their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute can strengthen its strategic position in the property industry for the long-term sustainability of the surveying profession in Hong Kong.

In 2015, 166 CPD events were organised by various Divisions and the Young Surveyors Group (YSG). Apart from the 21 institutional events, QSD was the largest CPD organiser among the Divisions, which had provided 70 events. The ranking order of events held by the other Divisions is as follows: BSD (25 CPD), GPD (21 CPD), YSG (20 CPD), PFMD (10 CPD), PDD (8 CPD) and LSD (7 CPD).

Mandatory Continuing Professional Development

In order to sustain the professionalism of our members and to preserve the confidence of the public to the surveying profession, all members must comply with the Guidance Notes for Mandatory Continuing Professional Development (June 2007) and complete a minimum requirement of 60 CPD hours over a three-year period. The Board started the first and the second checking exercise for Mandatory Continuing Professional Development (CPD) in 2010 and 2013 respectively, and the third checking exercise was held in 2015. Sr Thomas Ho conducted a random draw by computer at the HKIS Secretariat on 23 December 2015. About 100 members were selected by computer to submit their CPD records for Years 2013 to 2015 on or before 29 January 2016 for checking.

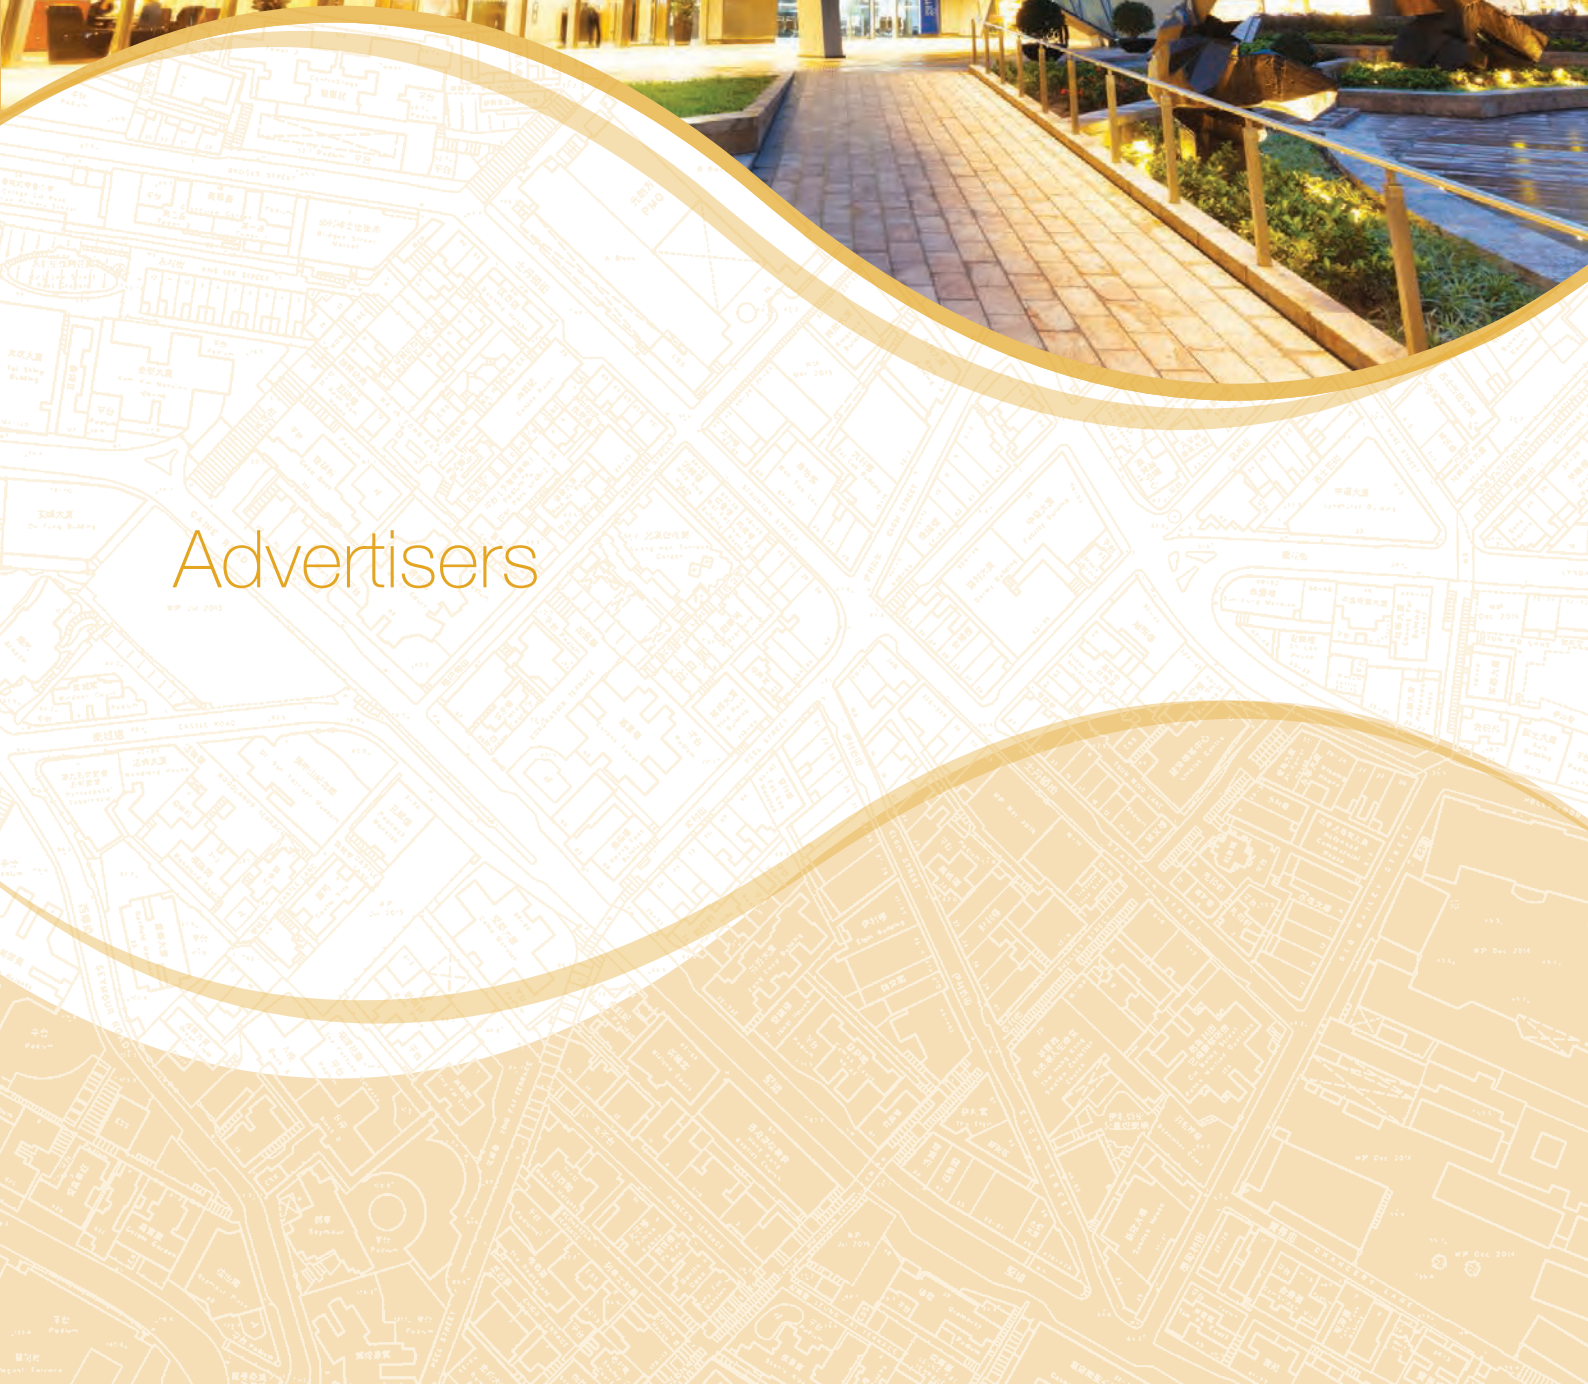

E-learning system

With an aim to provide web-based CPD hours for members, especially those residing in Mainland and overseas, a Task Force has been formed to explore the possibility of providing an E-learning system.

Enhancement of the HKIS website for CPD events and CPD registration procedures

To simplify the online registration procedures, the Board proposed that members registering for CPD event online are required to settle the reservation fee via PayPal or credit card instantly. To facilitate the above, enhancement work to the HKIS website has been carried out and the new system will be ready for use in 2016. An announcement in relation to the new CPD registration procedures will be made in due course.
