The Hong Kong Institute of Surveyors

The Hong Kong Institute of Surveyors

The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founder members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, there was also passed the Surveyors Registration Ordinance (Cap. 417) to set up a Registration Board to administer the registration of surveyors.

The number of corporate members has grown to 6,092 as at 31 December 2014; Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2014, the institute admitted 67 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members at the end of 2014 was 3,165.

To qualify as a corporate member of the Institute, surveyors must possess a recognized academic degree or similar qualification, followed by a minimum of 2 years supervised professional experience within strict guidelines, followed by an Assessment of Professional Competence (APC).

As a reputable and responsible professional body of surveyors, the Institute has always maintained vigorous assessment standards for entry to the profession and has also maintained high professional and ethical standards of member surveyors, through the various codes of professional practices, the code of ethics, and continuing professional development. The Institute has taken on an important and responsive consultative role in government policy making particularly on issues affecting land, property, construction.

The title “Surveyor” embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A **land surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **general practice surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project

as well as the valuation, marketing, sale, leasing and management of completed developments. A **planning and development surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A **quantity surveyor** is concerned with the building contractual arrangements and cost control will evaluate the likely cost of the development project and advises on the most suitable kind of contract for the project. A **building surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **property and facility management surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continues to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations in order to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors’ Alliance Asia which was inaugurated in November 2004. The Institute has reciprocal agreements with:

General Practice Division

The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, administration, continuous management and improvement; properties are developed as direct investments or securitized, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors are particularly equipped with skills and knowledge to offer timely and effective advice in connection with development, use and management of property resources both for operational needs and investment purposes. They are also concerned with planning, leases administration and valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. Contemporaneously, because of the General Practice Surveyors' understanding of investment principles and asset pricing, practitioners are ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. Recently, we are involved in valuation of franchises and intangibles and business valuation. Major roles played by General Practice Surveyors are as follows:

Land Surveying Division

The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts, defining property boundaries, preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively

involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in the Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection, integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make

valuable contributions to these systems.

Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

Planning & Development Division

The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximizing project return while minimizing the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

Land Administration Input

Planning & Development Surveyors specialize in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for a modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and

the strategy to submit planning applications, review and or appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help to set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

Town Planning Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the

relevant planning policies, the environmental context and specific site characteristics.

Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

Other Common Professional Services

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialize in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (LVIA), and Social Impact Assessment (SIA).

Training and Competencies

After obtaining the relevant academic qualification, candidates wanting to become Property & Facility Management Surveyors (PFMS) are required to undergo at least 400 days of recognized professional training to acquire the required level of professional competence in three major areas of competencies. In the area of Mandatory Competencies, candidates are expected to achieve general knowledge and understanding in all of the following:

- Core skills: ethics, knowledge of HKIS structure, rules and regulations;

- Basic business and communication skills: self management and customer care;
- Information technology: analysis of information and data;
- Law: dispute resolution and conflict avoidance; and
- Health, safety and environmental awareness

They are also required to acquire general knowledge and understanding in two of the following Optional Skills: Business management, Organisational Leadership, Negotiation Skills; Managing People and Resources, Recruitment and Selection; and Accounting Principles and Procedures.

Candidates may choose two out of the following four Core Competencies and engage themselves in such breadth and depth in knowledge application and analysis with the ability to give advice. These competencies are grouped under Property Asset Management, Corporate Real Estate, Project Management, and Property Management. Finally candidates are required to achieve general knowledge and understanding in two of the following five Non-Core Competencies: Finance Management, Human Resources and Organisation Management, Information Technology and Communication Management, Quality and Performance Management and Benchmarking, and Major Research. This will lead to the knowledge necessary to be an outstanding Property & Facility Management Surveyor.

Quantity Surveying Division

The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, Government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

Cost Planning

Cost planning is a specialist technique developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximize practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance

of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps; namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as is necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean at the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the

project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build, guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any

analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularized documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/public entities/Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/insurers; and
- Risk assessment personnel for insurance broker/insurers.

Young Surveyors Group

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 4,000 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

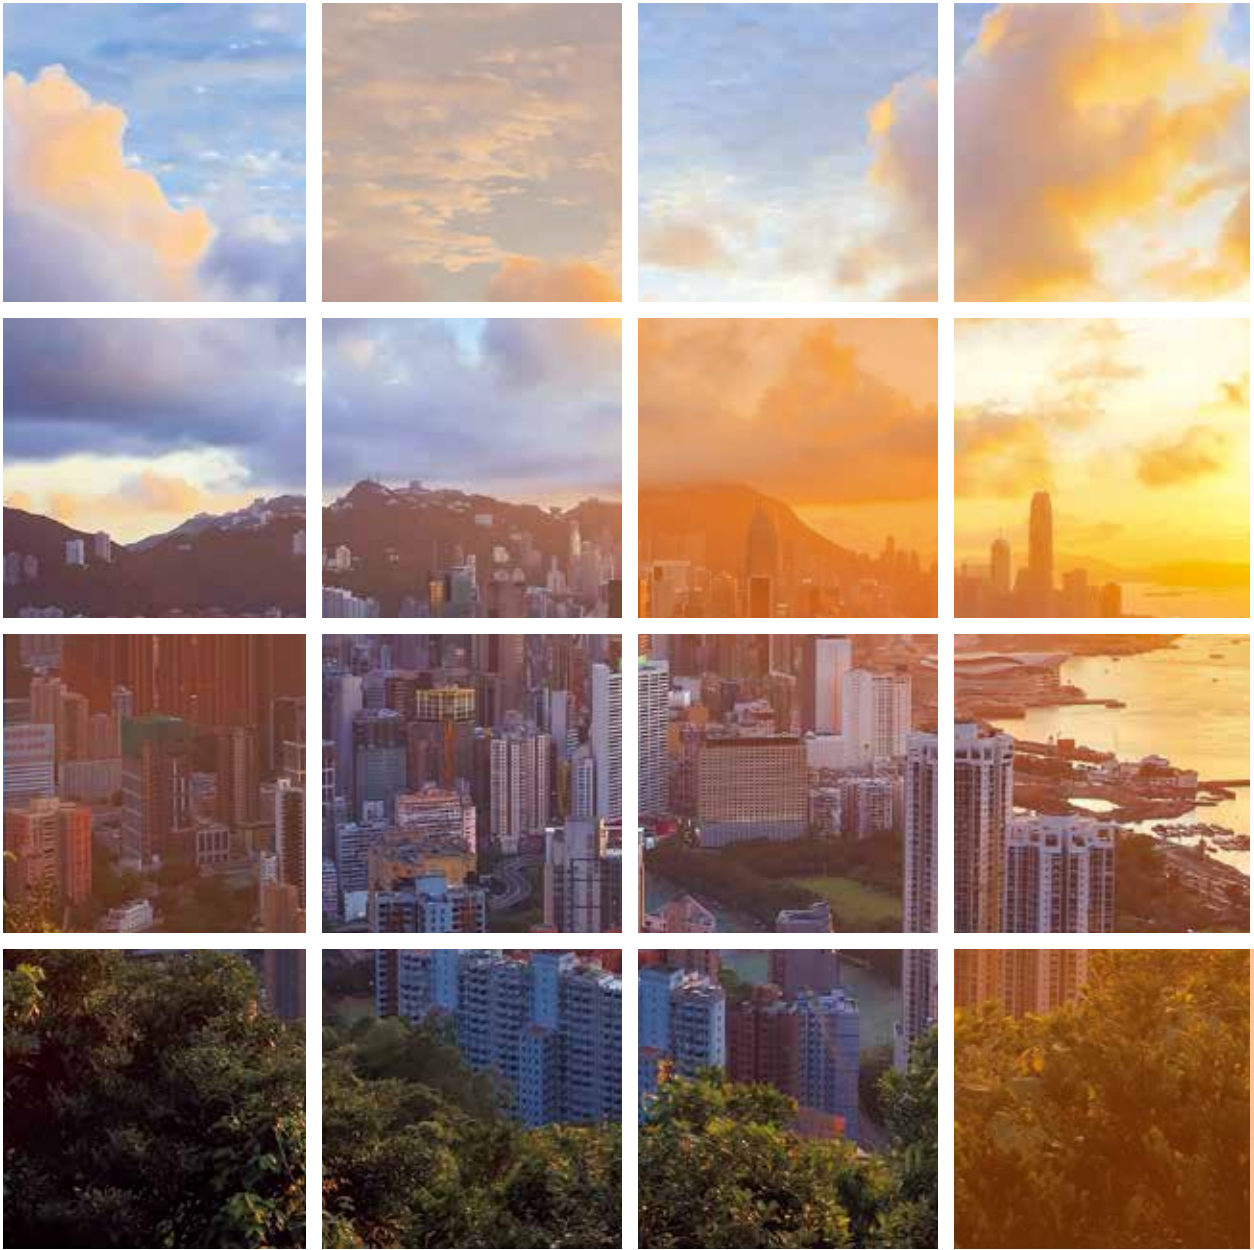

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organizing various site visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organizes and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the mainland China or overseas countries. YSG representatives also attend local and overseas conferences organized by local institutes and other international organizations such as the International Federation of Surveyors (FIG) and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong. HKIS was one of the participants in the annual Education & Career Expo hosted by the Hong Kong Trade and Development Council and YSG has been the coordinator for HKIS in the past few years.

President's Report 2013-2014

會長報告

It is my greatest honour to have served the Hong Kong Institute of Surveyors ("the Institute") as the President for the council year 2013-2014. This year has been very fruitful; in particular, we saw our profession grow in strength and the industry was flourishing. The year 2014 was also a memorable one as it was the 30th Anniversary of the Institute.

I have the pleasure in presenting the major works we have done and our achievements during the year.

Membership

Growth

At the end of November 2014, there was a total membership of 9,332, representing a steady growth of 5.79% from the previous year. Of the total number, 6,092 are Corporate Members (497 Fellows and 5,595 Members, of which 271 were newly elected). There were 3,240 probationer and student members.

Life-long Learning

The Institute is committed to facilitating members to keep abreast of the latest developments in the industry and to broaden their knowledge required in their work. A total of 174 Continuing Professional Development events on a wide range of topics were organised during the year by the Divisions and Young Surveyors Group.

All members are obliged to undertake self-development. The Board of Professional Development ("the Board") has conducted a review of the Mandatory CPD process and proposed sanctions for non-compliance by members and has submitted its proposal to the General Council. The work on introducing necessary amendments to the relevant sections of the Bye-Laws are in progress.

Reinstatement of Membership

The Working Group on Reinstatement of Membership has reviewed the procedures and conditions for Reinstatement of Membership, and has proposed to introduce necessary changes and amendments to the Bye-Laws.

30th Anniversary Events

To mark the 30th anniversary of the Institute, we have organised thirty events during the past twelve months to celebrate the achievements of the Institute.

To kick off the series of celebration activities, we launched a logo and slogan competition for our members to showcase their creative designs and innovative ideas. Based on the winning entries, we finalised the official slogan, which is "30 Years of Surveying Service with Pride, For the Community's Betterment We Strive" (測量服務三十年，帶動社會邁向前). This logo and slogan have been used for all the 30th anniversary activities.

We have produced a commemorative video, and published twelve special columns in our monthly newsletter, Surveyors Times, featuring interviews of our past presidents and the developments of the Institute during their tenures of office over the past three decades.

During the past year, each of the six Divisions and the Young Surveyors Group of the Institute have organised conferences, awards, luncheon talks and receptions on various occasions. One of the major events was the 30th Anniversary Cocktail Reception held on 25 April 2014 to celebrate the birthday of the Institute. A summary of the talks and conferences are listed as follows:

Community and Charity Services

The HKIS Volunteering Team participated in the mentorship programme "Project SPARKLE" jointly organised with T.W.G.Hs Jockey Club Tin Shui Wai Integrated Services Centre. Mainland and International Cooperation

Memorandum of Understanding and Cooperation Agreements

A Cooperative Agreement between the HKIS and the Association for the Advancement of Cost Engineering International (AACE) was signed on 9

June 2014 for the development of leading practices in cost management and quantity surveying.

In order to strengthen the cooperation between Hong Kong and the Mainland in the implementation of the "going global" policy, the HKIS signed a Memorandum of Understanding with the Ministry of Commerce on 4 September 2014 on the cooperation in engaging Hong Kong professional surveyors to supervise the works of China's construction projects in foreign countries.

On 27 November 2014, the HKIS signed a Memorandum of Understanding with the International Valuation Standards Council (IVSC) on the development and promotion of the global valuation standard.

Reciprocal Recognition of Qualifications

The Institute is discussing with the China Engineering Cost Association for the arrangements of reciprocity agreement for the third batch of cost engineers.

There has been very good progress in developing the arrangements for the mutual recognition of qualifications with the China Appraisal Society for business valuation, and with the China Real Estate Valuers Association for land valuation.

Mainland Affairs

The Chinese Government aims to achieve full liberalisation of trade in service between the Mainland and Hong Kong by the end of the 12th Five-Year Plan period. China is exploring ways to allow more service industries to operate in the Mainland without prior approval. The proposed arrangement operates under a system of Negative Listing (負面清單), which means any business can freely operate in China except for those trades specified on the "not-to-be-liberalised list". The

Institute has proposed to the Mainland officials that surveying should be classified as a business that is allowed to operate in China without prior approval from the Mainland authorities.

The Institute joined the Hong Kong SAR Trade Delegation to Fujian on 23-25 January 2014. The delegation was led by the Chief Executive, the Honourable CY Leung. About 140 Hong Kong delegates from the Government, professional institutes, trade associations, and universities joined this group. The purpose of the visit was to promote trade and Hong Kong's financial and professional services. The delegation met with representatives of the Government of Fujian Province and the Xiamen Municipal Government.

A HKIS delegation visited Tianjin on 28-30 April 2014, and met with representatives from the Tianjin Municipal Committee, the Tianjin Association for Science and Technology, the Tianjin Planning Bureau, etc. The purpose of the visit was to introduce the Institute and surveying profession to the relevant authorities and institutions, as well as to perform a professional knowledge exchange and foster cooperation between the surveying industries of Hong Kong and Tianjin.

A HKIS delegation visited Beijing on 2-5 November 2014 to meet officials of the Ministry of Housing and Urban-Rural Development, the Ministry of Commerce, the Ministry of Finance and the Ministry of Land and Resources. The delegation also met with the relevant Mainland professional institutes to provide updates on the latest developments in the profession and to explore further opportunities for cooperation.

The 2014 Mainland and Hong Kong Construction Industry Forum was held on 9-11 November 2014 at Nanning. The forum was hosted by the Ministry of Housing and Urban-Rural Development, the Nanning Municipal People's Government and the Development Bureau of the HKSARG. The HKIS was one of the co-organisers. The theme of this year's forum was "Collaborative Development with a Global Perspective, Integrated Project Management with Innovative Technology".

International Activities

HKIS delegates attended the International Federation of Surveyors (FIG) Congress, which was held on 16-21 June 2014 in Kuala Lumpur, Malaysia. The theme of the Conference was "Engaging

the Challenges – Enhancing the Relevance". There were over 500 presentations on various aspects of land surveying, geospatial information management, cadastre and land administration, satellite positioning, valuation standards, etc.

The HKIS, the Cartography and Cadastre Bureau of the Macao SAR Government, the Faculty of Geography of Taiwan Politics University, and the Land Administration Faculty of the People's University of China co-organised the 2014 Cross-Strait Land Conference (2014 年兩岸四地土地學術研討會) in Taiwan on 20-21 September 2014. The theme of the Conference was "Challenge and Strategy in Land Use".

HKIS delegates attended the 27th Pan Pacific Congress of Real Estate Appraisers, Valuers and Counsellors, which was held on 21-24 September 2014 in Singapore. The theme of the Congress was "Sustainable Development: Challenges Facing the Valuation Professions – Taking Environment, Economic, Equity, Cultural, and Heritage Issues into Perspective".

HKIS representatives joined the 39th International Cost Engineering Council (ICEC) Meeting and the 9th World Congress on 18-22 October in Milan, Italy. The Congress was organised jointly by the Italian Association for Total Cost Management (AICE) and the Italian Federation of Scientific and Technical Association (FAST). The theme of the Congress was "Re-engineering Total Cost Management".

The International Real Estate Valuation Conference 2014 was held on 23-24 October 2014 in Beijing. The Conference was hosted by the HKIS, China Institute of Real Estate Appraisers and Agents (CIREA), the World Association of Valuation Organizations, the Singapore Institute of Surveyors and Valuers. The theme of the Conference was "Global Developments in Real Estate Valuation – Methods, Standards and Best Practices" in Beijing.

HKIS representatives joined the Hong Kong delegation to attend the World Sustainable Building Conference held on 28-30 October 2014 in Barcelona, Spain. The aim of the Conference was to share views on developing a local action plan to tackle the challenges of (1) providing decent housing for the world's population, (2) reducing energy use and ecological footprint, and (3) promoting a sustainable economic model which creates jobs.

The HKIS and RICS co-organised a Joint Valuation Conference on 14 November 2014 in Hong Kong. The theme of the conference was “Value in a Changing World – Policy Compliance and Client Mandates”.

Members' Communication and Services

Members' Forums

Discussion Forums on the Revision of Annual Subscriptions and Application Fees for Admission into Membership and on Proposed Amendments to the HKIS Bye-Laws were held on 10 February and 13 October 2014 respectively.

Beijing Office

In 2014, the Beijing Office organised five members' events, including a members' gathering on 16 April, a members' brainstorming session on 13 June, a CPD cum Dinner on 20 August, a CPD and Site Visit on 13 September and a Dinner gathering on 4 November.

Shanghai Forum

On 13 September 2014, the Shanghai Forum organised a CPD event to visit the Shanghai Tower. A CPD seminar on the topic “Chinese Developers Marching Overseas” followed by a Dinner was held on 16 October 2014.

The HKIS Charitable Foundation Limited

The HKIS Charitable Foundation Limited (‘the Foundation’) was incorporated on 9 April 2014.

The Foundation was established by the Hong Kong Institute of Surveyors for the purpose of receiving voluntary donations and organising fundraising activities, as well as making donation of money to provide relief.

This is significant because in the past, the HKIS had faced situations in which it had wanted to make donations for charitable purposes, but had been prohibited to do so because of financial considerations and restrictions under the HKIS Constitution and Bye-Laws.

HKIS Mobile App.

The Institute has launched the “HKIS” App, its first mobile application, on 10 November 2014. The application can be downloaded onto iPhones, iPads

or Android phones via Apple Store or Google Play. With this new programme, HKIS members and the public can now gain access to the Institute's information more conveniently through their mobile phones and other handheld devices.

Words of Appreciation

I would like to express my sincere thanks to all the members of the Institute, the Office Bearers, members of the General Council, Executive Committee, Divisional Councils, various Working Committees and Task Forces, and the staff of the Secretariat office for their unfailing support and great contributions to the surveying profession.

I wish the HKIS and the incoming Council every success in the years to come.

Honorary Treasurer's Report

Honorary Treasurer's Report

For the Financial Year Ended on 31 July 2014

Dear Fellow Members,

I am pleased to present herewith the audited account of The Hong Kong Institute of Surveyors (HKIS) for the financial year ended 31 July 2014. The auditor's report was prepared by Messrs Fok Chan Leung Wan CPA Limited.

The total revenue of the HKIS for the year was HK\$26,611,320, representing about 38.83% or an increase of HK\$7,442,675 as compared with the previous year. On the expenditure side, the total operating and administrative expenses for the year was HK\$23,185,285, representing about 8.58% or a decrease of HK\$2,176,717 as compared with the previous year. As such, the Institute has recorded a surplus of HK\$3,426,035 this year. The accumulated fund of the HKIS as at 31 July 2014 was HK\$10,563,600, representing an increase of about 48% as compared with the amount of HK\$7,137,565 in the previous year.

The adjustment of annual membership fee, growth of new membership subscriptions, reimbursement of legal fees and contributions from annual conference, annual dinner and divisional activities, etc all attributed to the revenue increase of the year. While we appreciate the continuous growth of the Institute, we are at the same time adopting a stringent control on the operation and administrative expenses. As a result of cost efficiency improvement in operation and absence of major capital and legal expenses this year, we have managed to reduce our overall expenses by more than 8%.

The increase of accumulated fund by more than 48% has demonstrated a success of the Institute's prudent financial management both on increasing revenue and reducing expenses. However, I do not expect a continuous high percentage growth next year. Nevertheless, the current financial situation of the HKIS is considered healthy and in good shape.

On the Divisions' and Young Surveyors Group accounts, the individual accumulated funds are listed as follows:

Divisions	Accumulated Fund (HK\$)
Building Surveying	635,898
General Practice	1,719,307
Land Surveying	6,071
Planning and Development	139,163
Property and Facility Management	326,237
Quantity Surveying	3,466,062
Young Surveyors Group	829,561
Total:	7,122,299

To conclude, I must say I am so delighted to have the opportunity to serve the Institute and have enjoyed a very fruitful year of 2014. I would like to thank the President, Office Bearers, Members of the General Council and Finance Committee, and all staff of the Secretariat for their sincere advices, patience and unfailing support.

Honorary Secretary's Report

Honorary Secretary's Report

It is my honour to be the Honorary Secretary for the Year 2013 to 2014. As the Honorary Secretary of the Institute, it was my duty to conduct the ordinary business of the Institute in accordance with the Constitution and Bye-Laws under the direction of the General Council; to keep an accurate record of the proceedings of the Institute and the General Council; to keep the Membership Register of the Institute; to conduct the correspondence of the Institute; and to give notice of all meetings of the General Council and General Meetings of the Institute.

With the assistance of the administration office, the above duties have been properly discharged. In addition, I have dealt with general enquires concerning the Institute and the membership affairs and handled complaints against members as well as matters relating to disciplinary proceedings.

During my term of office, I was assigned as the Chairman of a task force to review the Constitution and Bye-Laws regarding the election/admission procedures of members and to propose appropriate amendments to the same. I was also assigned as the Chairman of a working group to review the procedure of reinstatement of expunged members and to draft guidelines for the same.

In 2014, a Forum and an Extraordinary General Meeting in relation to the proposed revisions of the annual subscriptions and the application fees for admission into membership, and a Forum on proposed amendments to the Bye-Laws were conducted.

On 10 and 24 February 2014, a Forum and an EGM in relation to the proposed revisions of the annual subscriptions and the application fees for admission into membership were held respectively. Forum on proposed amendments to the Bye-Laws

The Board of Professional Development (BoPD) proposed to impose sanctions for non-compliance of mandatory CPD requirements – from issuing warning letters; conducting interviews; to publishing the names of the defaulting members in *Surveying Times*; and finally suspension of membership. To empower the BoPD and the General Council to enforce the sanctions for non-compliance of mandatory CPD requirements, it is necessary to amend the Bye-Laws on Professional Development.

The Bye-Laws stipulate that all Corporate Members of the Institute shall observe a high and honourable standard of professional conduct and the General Council shall have the power to suspend any Corporate Member who in its opinion has failed to observe a high and honourable standard of professional conduct. However it is noted that a suspended member is still entitled to use the appropriate abbreviated designation under the Bye-Laws. The General Council considers that it is not appropriate for suspended member to use the appropriate abbreviated designation after his/her name or to present himself/herself as a member or Professional Surveyor during the period of suspension and hence the Bye-Laws need to be amended accordingly.

Forum on 13 October 2014

A Forum on the above proposed amendments to the Bye-Laws was held on 13 October 2014 to collect views from the members. Questions and concerns raised by the members at the Forum were noted and addressed. It was then decided that an EGM was to be held on 2 February 2015 for the members to discuss and vote on the proposed amendments.

Proceedings of the Institute

During the year 2014, twelve Executive Council Meetings and seven General Council Meetings were held to conduct the business of the Institute.

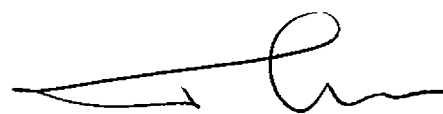

During the year, 234 new Corporate Members joined the Institute and the overall membership growth in 2014 was 5.79%. The details are tabled below:

The BS Conference 2014 with the theme "Essential and Evolving Expertise of Building Surveyors" was successfully held on 11 October 2014. In addition to HKIS's Hon. Legal Advisor who is a Professional Quantity Surveyor, all the speakers were Professional Building Surveyors. The Conference recorded a very high enrollment with 277 registrations.

4. Distinguished Building Surveyors

Since the presentation of diplomas for the 5th batch of Distinguished Building Surveyors in 2011, the ceremony for the 6th batch was held after the BSD AGM, during the BSD Annual Dinner on 21 November 2014. We congratulated Sr Johnny CK AU and Sr Vincent KY HO for the honour of Distinguished Building Surveyor.

5. Building Surveyors Award 2015

After months of preparation, the call for entries for the Building Surveyors Award held for the first time in 2015 started on 1 November 2014. More details can be found in the designated HKIS webpage: <http://www.hkis.org.hk/bsa>

6. Meeting the challenge of proposed omission of Supervision Engineer in private development projects in Qianhai

Although we started the dialogue with the Qianhai Authority in 2013 and received a very positive response in the beginning, there were a lot of proposed changes in policy for the development of Qianhai since April 2013. BSD is now facing significant resistance in promoting the use of building surveyor's expertise in Qianhai but the division is still liaising with the Shenzhen Project Management Engineers Association (深圳市監理工程師協會) and China Association of Engineering Consultants (中國建設監理協會) to explore the market in this regard.

7. Implementation of APC Reform for AMHKIS

2014 marked the first Practical Task of Technical Assignment for three probationers. 2 out of the 3 candidates passed the Practical Task.

8. Publication of the Professional Guide for Detection and Diagnosis of Water Leakage in Residential Buildings

The Professional Guide was published in November 2014 and all BSD Members and Probationers were offered free copies with additional copies offered at a charge of \$120 each. CPD talk in this regard will be arranged on 22 January 2015.

9. HKIS Building Surveying and Eddie Lee Memorial Education Foundation Scholarship for Secondary School Student

Out of the 10 awardees of the Scholarship 2013, two awardees are now studying at the University of Hong Kong and three awardees at the Hong Kong Polytechnic University for undergraduate courses in surveying. The 2nd stage scholarship presentation was held on 16 September 2014. The Scholarship 2014 received a moderate number of applications and the interview sessions were conducted on 20 December 2014. The presentation of scholarships will be arranged on 28 January 2015.

10. The List of Experts (Water Seepage Investigation)

After several rounds of consolidation and discussion, the finalised list would be published in a designated webpage on the HKIS website. A press conference and CPD talks to stakeholders, in particular to solicitors to address the formal launching of the list will be arranged on 22 January 2015.

11. Chair of Beijing Forum filled by a Building Surveyor

Sr YL WU was appointed as Chairman of Beijing Forum after he completed the hard work in supervising the renovation work of HKIS's Beijing Office. With YL's dedicated effort, the Beijing Forum held several events for our members in Beijing and its vicinity. In particular, visits to various organisations was arranged by the CEPA Committee during the period from 2 to 5 November 2014.

12. Discussion Forum

A designated email account bs.discussion@gmail.com was created to facilitate e-communication with BS members. This email will also be used for the communication with Authorized Persons (AP) on issues related to the practice of AP or the application of the Buildings Ordinance.

13. Heritage Working Group

Under the leadership of Sr Idi CHAN, the Working Group scheduled a number of different activities including CPD talks and site visits. The Working Group is currently drafting a renovation and maintenance guide for our members' reference.

14. Fire Safety Expert Panel

The Panel led by Sr Eddy CHEUNG met several times and a series of CPD seminars have been scheduled. We hope that our expertise in the application of Fire Safety Assessment will be enhanced under the effective operation of the panel.

15. Proposed Building Repair and Maintenance Authority

After months of preparation and repeated

reviews of the draft proposal, a press conference was held on 25 September 2014 that resulted in very good media coverage for the HKIS and BSD. The proposal was also forwarded to relevant organizations in the government including the DEVB and HAD. It was noted that the proposal has drawn keen attention from the government and we hope that the proposed Authority could be set up in the foreseeable future.

16. Elderly Safe Living Scheme

We participated in the Elderly Safe Living Scheme initiated by the Housing Society by providing voluntary professional advices on the feasibility and design as well as supervision/monitoring of improvement works in the homes for the elderly. The scheme was originally terminated at the end of September 2014 but is now further extended to the end of March 2015.

17. AP Easy

We participated in the AP Easy Scheme arranged by the Home Affairs Department, together with the PFMD. HKIA and HKIE were the other two Institutes offering services in this scheme but they provided comparatively smaller teams as compared with the 25 strong teams deployed by HKIS. The result of this scheme was considered unsatisfactory due to a number of factors including the lack of prior-screening of applicants and inconsistent Logistic arrangements by different government officials.

18. China's Overseas Aid Projects

After many rounds of discussions and a late intervention by the DEVB, HKIS signed the Memorandum of Understanding (MOU) with the Ministry of Commerce (MOFCOM) of the PRC Government on 4 September 2014. Apart from HKIS, 4 other organisations signed MOUs with MOFCOM on the same day. Contract for providing project management cum supervision services to MOFCOM's Overseas Aid Projects was awarded to at least one Building Surveying Consultancy firm.

I would like to express my sincere thanks to all BSD Council Members, especially Vice Chairman Sr Andrew KUNG who assumed my

Chairman's role on a temporary basis during my 10 weeks of attachment in Qianhai, Co-opt members, supporters and administrative staff of HKIS for having successfully organised those tasks performed by various Working Groups, Panels and Committees.

Divisional Council & Young Surveyors Group Reports

General Practice Division

Sr Joseph Ho
GPD Council Chairman

I am pleased to take this opportunity to share with you some of the works performed by the General Practice Division in promoting and maintaining GP surveyors' professional capabilities and standards this year. Major works done by the Council are as follows:

Internal Affairs

This year, with the effort of the organizing committee led by Sr Eugina FOK and Tony WAN, we have organized the 2014 Valuation Conference - Valuation Practice in Hong Kong on 28 June 2014 with 250 participants attending the conference. This was the *first-ever Valuation Conference* organized by the GPD since its establishment in 1984.

GPD Valuation Conference 2014

The CPD conveners (Sr Jason CW CHAN, Harry CHAN, JIM Chun Yip, Jim LAM and Simon POON) have actively arranged over 42 CPD programmes and seminars to cover a wide range of topics such as Hong Kong property market, asset management and sale of properties through transfer of company shares. *Attendance was good in all events.*

Similar to last year's arrangement and to help candidates prepare for their APC written examinations, the GPD Education Committee, co-convened by Sr Edward AU and Louie CHAN,

successfully conducted 17 sessions (51 hours) of the APC SLP to cover the entire syllabus of Part I of the GPD APC written examination. Revision Workshops to cover the entire syllabus of Part I and Part II of the APC were also held for all candidates this year. The passing rate of Part II of the APC reached 62% this year.

To establish communication links between the GPD Council and the members, I convened a round table meeting in the afternoon of 12 September 2014 for a group of representatives from the firms on the GPD Company List to exchange views on the supply and demand of manpower in the GP surveying profession. I also, through visits and various seminars or conferences attended in mainland China, met various mainland HKIS members or GP surveyors stationed in the mainland, and updated them on the recent developments of GPD in Hong Kong.

Sr Joseph Ho on the stage with some mainland HKIS GPD members in a real property valuation seminar in Beijing

We were deeply honoured to have the presence of Ms Bernadette LINN, JP, Director of Lands, as the speaker at a HKIS Surveyors Luncheon organized by the GPD Council on 21 February 2014 (Friday) at the World Trade Center Club in Causeway Bay. The Director delivered a talk on "Land Administration: Challenges for Professionals and Laymen Alike". Over 100 participants attended.

External Affairs

To maintain our relationship with various professional entities in the mainland and to

promote our profession, I was invited by the Beijing Real Estate Valuer Association (BREVA) to meet with its representatives in Beijing on 29 April 2014 to explore better communication and cooperation between the HKIS GPD and BREVA. We took the view that more activities could be arranged in the future, such as conferences and seminars, to enhance members' professional knowledge and practices in the counterpart territories. I also met a delegation of three representatives from the Shenzhen Society of Certified Public Appraisers led by Mr Li Xiheng in the morning of 29 September 2014 in HKIS office to share issues on intellectual property (IP) valuation.

To further strengthen our relationship with CIREA, I met Ms Li Juan, Director of CIREA's Department of Foreign Affairs, and Ms He Nam, Director of CIREA'S Development and Services Department, at the HKIS's Beijing office on 29 August 2014 to exchange views on how both institutes could best organize joint CPD programmes for dual members of both institutes.

Given the recent development of business valuation practice in the mainland, we have *explored the possibility to work with the China Appraisal Society (CAS)* in promoting business valuation and intellectual properties valuation in the Greater China region. The President Sr Simon KWOK and I, together with the Vice President Sr Edward AU and Co-opted Council Member Sr Elsa NG, paid visits to the CAS in May and October this year. In the meetings, we discussed different scenarios that both HKIS and CAS could work together to promote business valuation and intellectual properties valuation in Greater China. Both parties also exchanged views on the possibility to introduce a reciprocity arrangement between the parties.

Friendly visits to China Appraisal Society

We also have the mission to *promote GP surveying practice to the public*. Therefore, apart from the above visits, I was also invited by the China Real Estate Valuers and Agents Association to attend a technical seminar co-organized by BREVA to introduce how GP surveyors used the available

databases to conduct real property valuations in Hong Kong on 30 August 2014 in Beijing. I also had a chance to meet the Guest of Honour of the seminar - Mr Hu Cunzhi, the Vice-Minister of the PRC's Ministry of Land & Resources.

HKIS and the Singapore Institute of Surveyors and Valuers were co-organizers in the 2014 International Real Property Valuation Conference in Beijing organized by CIREA and WAVO, and I was invited to give a presentation on "The Best Practice of Real Property Valuation in Hong Kong" on 24 October 2014. More than 300 participants from different parts of the world attended the conference, at the end of which, I took the time to invite the mainland HKIS members attending the seminar to take a group photo on the stage with the other HKIS delegates.

HKIS Delegation in the 2014 International Real property Valuation Conference in Beijing

Due to the implementation of the fair value hierarchy in financial statements reporting, there exist some issues involving disclosure between GP surveyors and auditors regarding *financial reporting valuations*. As the one who responsible for the drafting of the HKIS Valuation Standards 2012 in the past council. I initiated to help both professions move forward, and was invited by the Society of Chinese Accountants and Auditors on 14 June 2014 to conduct a technical seminar with its members. The theme of the seminar was "The Relationship between Valuers and Auditors in preparing/Assessing Valuations for Financial Statement Purposes. Similar technical seminars were also arranged for two key accounting firms in Hong Kong in late November and early December this year, and about 250 accounting practitioners attended.

Sr Edward AU and I have been invited since 2012 by the Intellectual Property Department of the

HKSAR to join the round table meeting to explore the possibility of GP surveyors to provide IP valuation in Hong Kong, and this is a true indication that we are capable of providing such service in the Greater China region. I am promoting this GP surveying capability to the public by all means to expand our influence in the field of IP trading hub in the region.

After negotiation, and with the kind assistance from Hon Sr Tony Tse, and the support from Sr Edward Au and members of the Executive Committee of the HKIS, I have successfully obtained the agreement of Trade Development Council to provide a free exhibition booth to HKIS members who are providing IP valuation in Hong Kong to promote their business in the BIP Asia Forum that held on 4 and 5 December 2014. There were 7 firms participated in this first ever promotion opportunity to GPD members and their firms to promote their business in the HKIS booth. There were more than 70 inquires received during the promotion period.

BIP Asia Forum – HKIS booth

To promote our expertise in asset management, a HKIS delegation (a joint division collaboration between the PFMD, GPD, and PDD) paid a visit to the China Banking Regulatory Commission's Shanghai Office, Non-bank Financial Institutions Supervision Division, to discuss further collaboration between the HKIS and the Commission to promote asset management and explore the possibility of developing asset management professionals in Shanghai. I am now working closely with the PFMD and Mainland Affairs Committee in arranging an asset management seminar in Shanghai to enlarge GP surveyors' scope of work. The seminar is expected to be held in early 2015.

Early this year, initiated by Sr Alex LAM and KK CHIU and organized by the GPD, a 16-member

delegation consisting of council members and members from the various divisions led by the President Sr Simon KWOK went on a technical visit to Tianjin from 28-30 April 2014. Apart from this technical visit, HKIS delegations visited all the four municipalities in China. Also we were tasked by the General Council of the HKIS as the key division to promote the 2014 Cross-Strait Land Conference, and GPD Immediate Past Chairman, Sr Francis NG, and Co-opted Council Member, Sr Dr Lawrence POON, attended the Conference to promote the GP profession.

One of our missions is to maintain a good relationship with other overseas bodies. The Appraisal Institute (AI) delegation visited the HKIS on 29 May 2014. The delegation was welcomed by the HKIS President, Sr Simon KWOK, Sr KK CHIU and myself.

The World Association of Valuation Organisations (WAVO) held its Board Meeting and Annual General Meeting (the WAVO Meetings) in Hong Kong on 9 May 2014. As an association member of WAVO, the HKIS helped co-organize this year's annual gathering in its head office at Wing On Centre, which was attended by WAVO board members from different countries. The WAVO delegates were received by HKIS President, Sr Simon KWOK, GPD Immediate Past Chairman, Sr Francis NG, and Vice President, Sr Edward AU. The WAVO also held its 2014 Board Meeting in Beijing on 22 October 2014. Sr Edward AU represented the HKIS in attending the WAVO Board Meeting.

HKIS RICS Valuation Conference 2014

Initiated by Sr KK CHIU and CK LAU, we co-organized with the RICS Asia Valuation Professional Group Board the *first-ever joint valuation conference* on 14 November 2014. As one of the GPD's events to commemorate HKIS's 30 anniversary, the Conference was well-received with over 220 participants. Through this Conference, we

strived to raise the industry standards of the GP profession, to enrich the knowledge of valuation practitioners, and to offer a comprehensive view of the Asia Pacific region.

Local Affairs

There are two real property issues that affect the land and housing supply in Hong Kong that drew our attention this year.

I was tasked by the General Council to lead the cross divisional Working Group of the *Pilot Scheme for Arbitration on Land Premium (Pilot Scheme)* and submitted a proposal to advise the government on the possible framework of the Pilot Scheme early this year. After rounds of discussions with the Lands Department, I initiated and pushed the GPD to prepare a list of professional surveyors in valuation who are qualified to act as Arbitrator under this Pilot Scheme, and the List was finally published on the HKIS GPD website for public reference on 15 November 2014. Qualified GPD members may contact the HKIS Administrative Office for application details if they wish to apply.

A Joint Working Group with 9 members from the HKIA and 8 members from HKIS (including Sr Edward AU, Charles CHAN, Tony WAN and CK LAU who were on the GPD Council) was formed to deal with the two recent LAO Practice Notes on DD&H and GRA.

Professional Standards

Being a valuation organization of the IVSC, the GPD Council agreed and the General Council endorsed to enter into a multi-party MoU early this year with other valuation organizations in the IVSC to make a public commitment to a single set of global standards.

Following the RICS's acceptance of the use of Hong Kong Laws to resolve disputes in the copyright agreement between the HKIS and RICS on the Guidance Notes for Surveyors Serving as Experts in Commercial Rent Review Determinations (the "GN"), action is now needed for HKIS's execution of the copyright agreement in due course. Once accomplished, the GN will be released to members of both institutes for their reference.

Registration requirement from an overseas institute caused our GPD members' concern, and a position

letter from me was published in the Surveyors Times, and sent to each of the GPD members by email to clarify the HKIS position on the issue. Subsequent works to deal with the concern are in progress, and I assure you that I will protect our members' interest.

Forward looking

The Council will continue to establish communication links between the Council and the members as well as to maintain our relationship with overseas valuation organizations. The Council will take a proactive role to strengthen HKIS position in the IVSC and WAVO. With the support of the Ministry of Finance and the Land Resources Bureau of China, we are currently working on reciprocity arrangement with the CAS and CREVA in China.

The Council will continue its inputs on various local affairs and will, from time to time, recruit relevant specialists and assign appropriate members to take care of appropriate issues. The arrangement of a certified Structural Learning Programme will also be continued. Last but not least, the Council is working on further developing the recognition of our members' professionalism in the area of intellectual property valuation, project management and asset management.

Divisional Council & Young Surveyors Group Reports

Land Surveying Division

Sr Dr Lesly Lam
LSD Council Chairman

The LSD AGM was held on 27 November 2013 (Wed) in the Surveyors Learning Centre, Room 1207, 12/F, Wing On Centre. The 2014-2015 LSD Council, with Sr Dr Lesly LAM as the Division Chairman, who was re-elected for another term. The new Council will continue to serve in the best interests of the Division, as well as continue its work to promote the land surveying profession.

Chairman's Report in the 2014 LSD AGM

This is my first chairmanship of the Land Surveying Division (LSD). I would like to take this opportunity to express my most sincere appreciation to the past Chairmen and the Council for leading the Land Surveying Division Council in serving the Institute. Over the years the LSD has grown significantly and

expanded its scope of services to the community. During the past few years, we contributed a lot of advices to the Chief Executive and the Financial Secretary regarding the Policy Address on: (a) determining land boundaries; (b) spatial data infrastructure; and (c) establishing a cadastre system for encouraging the public to participate in the management of Hong Kong's land resources. In addition, LSD has also arranged various seminars, conferences, and networking activities with our Mainland counterparts. The liaison with Mainland survey and mapping professionals in relation to the issues on mutual recognition of professional qualifications is currently in the pipeline.

Taking up the Chairman position is a delightful challenge. Working in harmony with the young and experienced LSs, each council member continues to work hard in promoting our professional services to the public and the society, and in strengthening our networks with both Mainland and international bodies.

In this council year, two issues being focused on are: (1) education and membership issues for younger members and (2) exploration of an expanded scope of services. We are obliged to provide high quality Continuous Professional Development (CPD) and Pre-Qualification Structural Learning (PQSL) sessions for all surveyors and probationers to update their knowledge and to share it with their counterparts, as well as to enhance the quality of the LS membership base.

As for the Land Boundary Survey, the council has reviewed in detail the scope of work of the Boundary Survey Advisory Committee (BSAC). This year, BSAC is looking into a broader spectrum of issues in relation to land boundary surveys. The new edition of the Guidance Notes for Land Boundary Survey has been published. Further to the de-linking of the proposal to include a clause on the determination of land boundaries in the

Land Survey Ordinance in 2010, the momentum in proceeding with the exercise cannot be sustained without improvements in the Land Title Ordinance. We believe that the new provision will effectively establish a statutory mechanism to clear doubts, as well as possible conflicts and disputes that may arise from undetermined land boundaries. As such, we have issued a letter urging the government to actively take up the exercise and initiate public consultations on the Land Survey (Amendment) Bill. There is a need to establish a cadastre system, which is a legal record of land rights that supplements the current land registration system. A set of transparent, accurate, and accessible land boundaries and related information can provide the public with a clearer picture in case doubts arise. The proposed provision in the Land Survey Ordinance will be a key element for the development of a cadastre system in Hong Kong. We professional land surveyors will offer assistance via different established channels with the administration and stakeholders.

As for the engineering and construction industry, a task force has been set up in the council to look at current topics of concern, e.g. a shortage of manpower and professional land surveyor positions in various construction projects. We contributed valuable views to the Construction Industry Council (CIC) on their recent manpower study. In recent years, we have been advising the government to hire “the right professionals to do the right jobs” in its infrastructure projects. Due to our hard work, more Land Surveyor positions have been created, especially for the following projects: the Central/Wanchai Bypass, Chek Lap Kok Link, Liantang/Heung Yuen Wai Boundary Control Point, and HK-Zhuhai-Macao Bridge HKBCF. Professional land surveyors are now present at each site to contribute their land surveying expertise. Let’s keep it up.

In response to increasing demand for more land surveyors in various public works and infrastructure projects, we have supported the Department of Land Surveying and Geo-Informatics, Hong Kong Polytechnic University, in increasing its fulltime student quota in the coming three year period. To meet the shortage of surveying personnel, including both professionals and technicians, in government departments and consultant and contractor companies in mega infrastructure projects, both degree and sub-degree student quotas must be increased.

With regard to the possibility of mutual recognition of membership between the LSD and RICS GPG, a new form of mutual recognition of membership at the divisional level between the LSD and RICS GPG has been proposed. In this connection, a working group comprising representatives from the two bodies has been formed. The HKIS Team is now studying the relevant information, such as the previous and current agreements, and the MoU with both the RICS and ICES.

The biennial LSD Guangdong-HK-Macao networking visit to Chaozhou was successfully held at the end of October 2014. It provided us a very good opportunity to liaise with one of our mainland counterparts - the Guangdong Provincial Association of Surveying and Mapping (廣東省測繪學會) and friends from Macau. I gave a speech on the latest development of surveying and mapping techniques in Hong Kong.

In the coming council year, we will focus on making significant progress on various outstanding tasks, e.g. the mutual recognition of membership between the LSD and RICS GPG. Moreover, casual gatherings for young surveyors are being considered. I look forward to meeting the new LSD Council to further promote our professional services to the public and society.

7) Education

PDD confirmed its collaboration with Shanghai Tongji University to organize a Bachelor's Degree in Planning & Development. On 4 March 2014, our Division signed a letter of intent with Shanghai Tongji University to set up a Bachelor Degree Course in Planning and Development. On 16 April, 2014, we went to Shanghai and met with the responsible professors to discuss the syllabus for the Bachelor Degree Course. At the same time, Tongji proposed the formation of a training centre with HKIS in Shanghai to promote the surveying profession and prepare more students for a surveying centre. Their proposal was forwarded to our General Council for consideration.

PDD is still negotiating with the University of Hong Kong in the accreditation of Mater Degree in Science, Urban Planning and Bachelor Degree in Science, Urban Studies with three top-up courses. In fact, we have to submit our proposal to Board of Education and General Council for approval.

8) PDD's Homepage and Relevant Information in HKIS Web

PDD's homepage in HKIS web has been updated. More events with photos have been uploaded. PDD history and council members' list have been published and the Chinese version for PDD history will be ready later.

PDD Council is now studying the setting up of a list of firms providing P&D services for publication in HKIS web, similar to what other Divisions have been doing. The preliminary idea is that each such firm should have at least a PDD member at its senior management level and must be based in HK providing P&D services. Furthermore, PDD Council will further discuss the admission criteria and if approved by General Council, we shall make announcement to members as soon as possible.

9) P&D Divisional Regulations

PDD Council is reviewing and updating the contents of P&D Divisional Regulations with a view to tallying with HKIS Bye-Laws and other Divisional Regulations.

10) Others

We received a letter from Chairman of Planning Institute Australia, Hong Kong Branch (PIA) on 18 June, 2014. PIA would like to explore the possibility to co-operate with our Division since they only have 82 members in Hong Kong and have not organized any local CPD events. They wish we can open CPD events to their members. On 8 July, 2014, this issue was brought up in our Council Meeting and it was resolved that we all supported the issue.

Finally, I wish to thank all the Past Presidents, Immediate Past President, all Council Members including co-opt Council Members and all the staff of HKIS Secretariat for their contribution of great effort to the success of our Division in the past year. I hope they will continue to support us in the years ahead.

Divisional Council & Young Surveyors Group Reports

Property & Facility Management Division

Sr Dr Edmond Cheng
PFMD Council Chairman

First of all, I wish to express my sincere gratitude to all Council Members and Office Bearers for their dedication to the work of the Property and Facility Management Division for 2013 – 2014.

In the year since the last Annual General Meeting held on 19 November 2013, the new Council has achieved major tasks as follows:

1. Regulation of the Property Management Industry

The Home Affairs Department (HAD) submitted a paper to the Legislative Council Panel on Home Affairs (the Panel) on 6 December 2013. A Property Management Services Bill (the Bill) will be proposed to require that property management companies (PMCs) providing property management service be subject to mandatory licensing.

However, PMCs providing only stand-alone services (e.g. cleaning and security services) will be excluded. Owners' Corporations, other owners' organization and individual owners themselves managing their own properties will also be excluded. A single-tier licensing system will be introduced for PMCs, which will be required to comply with certain criteria and codes of conduct.

A two-tier licensing regime will also be introduced for property management practitioners (PMPs). It was proposed that a first tier licensing should fulfill criteria in terms of academic, professional qualifications, years of work experience, and a pass in the fitness and propriety test. The qualification requirements for a second tier PMP will be lower. For example, the completion of specific diploma/sub-degree course on property management will suffice for a lower tier license.

In order to gauge members' views on the Bill before the 2nd Reading Debate, Committee Stage, and the 3rd Reading resume, the major stakeholders of the industry, including CIHAPB, HKAPMC, HKIFM, HKIS PFMD, HMRB and RICS have jointly organised a forum on 7 June 2014 to acquire members' feedback to the Bill.

Joint forum

2. Implementation of Municipal Solid Waste Charging Scheme

The Council for Sustainable Development (CSD) launched a public engagement process titled "Waste Reduction by Waste Charging – How to Implement?" on 25 September 2013. This exercise aims to encourage stakeholders and the general public to participate in the development of a feasible mechanism to implement municipal solid waste (MSW) charging, and to consider the difficulties involved and the related recycling facilities, with a view to reduce community waste at source and promote the sustainable development of Hong Kong. The public engagement process will last for four months until 24 January 2014. In view of this, The Hong Kong Institute of Surveyors has forwarded our comments to CSD on the "Proposed Municipal Solid Waste Charging Scheme".

3. AP Easy Building Maintenance Advisory Service Scheme

Due to ageing, more and more buildings require building maintenance works. However, many owners of private buildings, owing to lack of expertise, knowledge, and experience, encounter difficulties in appointing Authorized Persons (APs) to assist them to carry out such works, and there have been many disputes between the owners' corporations (OCs) and owners. Some of these disputes were related to suspected irregularities.

At the invitation of the Home Affairs Department (HAD), HKIS Building Surveying Division and Property & Facility Management Division, together with the Hong Kong Institution of Engineers and the Hong Kong Institute of Architects, will take part in the "AP Easy" Building Maintenance Advisory Service Scheme (The Scheme). It is a one-year pilot scheme that started in April 2014, in which members of professional institutes provide pro bono professional and tailor-made advisory and support service to assist OCs in appointing APs to carry out building maintenance works.

The Scheme is intended to guide the OCs on how to appoint a competent and appropriate project consultant and advise them on the basic knowledge of monitoring the performance of the consultant. We are not supposed to get involved into the actual assessment of the building conditions and details of the repair works, not even the specific cost aspect which should be dealt with by the respective consultant. We are also not supposed to be involved in the works supervision stage of the repair works of the buildings.

A Press Briefing session was hosted by Home Affairs Department on this "AP Easy" Building Maintenance Advisory Service Scheme on 20 February 2014, and HKIS is the key supporter of this Scheme, having committed to enroll 30 – 40 volunteers (from BSD and PFMD) to act as the professional advisors to a target of 50 OCs. According to HAD's information, 70 OCs have received professional advices from the three professional institutes as at 30 September 2014.

4. HKIS 30th Anniversary Programme – Surveyors Luncheon Talk

On 18 July 2014, the PFMD organised a Surveyors Luncheon for 80 members on the 38/F of the World Trade Centre Club. It was one of HKIS's 30th Anniversary programmes. The Honorary Guest Speaker was Sr Victor So Hing-woh, JP, Chairman of the Urban Renewal Authority (URA), and the topic was "Challenges and Opportunities in Tackling Hong Kong's Problem of Urban Decay".

5. The 2014 Quality Property and Facility Management Award (QPFMA)

This year, HKIS jointly held the Quality Property and Facility Management Awards 2014 (QPFMA 2014) alongside with The Hong Kong Association of Property Management Companies (HKAPMC). QPFMA is a biennial award since 2010 that honours outstanding projects in the property and facility management industry.

This year, the QPFMA 2014 was organized with the theme "Moving Forward to the New

Era of Property and Facility Management – Sustainability and Liveability”. Beginning with the call for nominations, a series of activities were conducted to determine the winners for this year’s awards, including several site visits and a CPD Conference where finalists delivered engaging presentations to the elite panel of jurors. The winners were revealed at the QPFMA 2014 Award Presentation Banquet, held on 12 September 2014 at the Crystal Ballroom of the Holiday Inn Golden Mile Hong Kong in Tsim Sha Tsui.

The banquet turned out to be a delightful and lively occasion where the industry came together under one roof to celebrate progress. The Guest of Honour for the event was Mr WONG Kam Sing, JP, Secretary for the Environment, HKSAR Government, who shared his vision of Hong Kong’s future with the guests of the evening. Of the over 260 attendants, there were many prominent and distinguished guests.

6. Publications & Researches

The Division’s new leaflet and brochure were published in mid 2014 and the Green Property Management Practices will also be published in early 2015.

We have also appointed the Hong Kong Polytechnic University in 2014 to conduct a research on “Contributions of Property and Facility Management Industry in terms of Gross Domestic Product (GDP) to Hong Kong”, and the University of Hong Kong in 2014 to conduct another research on “The effective use of web-based management tools for the property management companies in Hong Kong”.

9. Membership Growth

Membership growth is always our division's concern. As at 31 October 2014, we have a total membership of 800. In addition, we welcomed 11 new members and 3 probationers in 2014. We shall continue to publicize ourselves to undergraduates and expect more young graduates to join our division in the coming years.

10. Way Forward

The Council has been making our best endeavors to reflect our comments and concerns to HAD regarding the legislation of the Property Management Services Bill and the implementation of the Municipal Solid Waste Charging Scheme

The upcoming year will be a challenging one as we shall arrange a Management Conference cum 10th Year Anniversary Celebration Ceremony in May 2015.

Finally, I wish to express my heartfelt gratitude to all Council Members for their valuable contributions and unfailing support to the growth and development of the Division. Thank you for the support of all fellow members and I look forward to the continuous success of the Division in the years ahead.

3. Mainland Affairs

3.1 Meeting with Mainland's Counterparts

3.1.1 Beijing Engineering Cost Association 北京市建設工程造價管理協會

The Beijing Engineering Cost Association (BECA) visited the Institute on 11 June 2014. The delegation was led by the Secretary General, Mr Tang Shi-hai (唐世海先生), and the Deputy Secretary General, Ms Liu Wei (劉維女士).

Sr Thomas Ho, the Honorary Secretary of the Institute, and I took the time to meet with our guests. The following issues related to the Institute were discussed :

- The routes to qualify as Professional and Associate members
- Continuing Professional Development organised by the Institute in respect of the mode of delivery, contents, and speakers
- The Code of Conduct and disciplinary action against defaulting members
- The role of the Institute on policy making of the Government
- Fee Scale
- Compilation of construction cost information and the tender price index

3.1.2 深圳市建設工程造價管理站及深圳市造價工程師協會

The Council organised a joint meeting with 深圳市建設工程造價管理站 and 深圳市造價工程師協會 in the morning of 21 November 2014 in Shenzhen. We had the pleasure to meet up with 李冬青 (女士) 站長、劉衍偉副站長 and other representatives from 造價管理站 and 造價工程師協會 .

During the meeting the following items were discussed :-

- the current status and future development of managing cost engineering consultancy firms in Shenzhen;
- the current status and future development of managing professional cost engineers and technicians;
- the current situation on the management of qualifications for registration;
- the use of 「建設工程工程量清單計價規範」(GB50500-2013) in Shenzhen.

The fruitful meeting provided us with a more thorough understanding of the functions and practices of 深圳造價管理站 .

3.1.3 廣東省建設工程造價管理總站及廣東省工程造價協會

The joint meeting with 廣東省建設工程造價管理總站及廣東省工程造價協會 was held on 21 November 2014 in Guangzhou, three years after the last meeting. It was high time that there should be an update on the management and development of cost engineering consultancy practices in Guangzhou. Apart from those similar topics which were raised in the morning session with 深圳市建設工程造價管理站 and were discussed once again with the Guangzhou counterpart, we managed to take some time to share experiences on cost engineering courses in tertiary educational institutes and continuing professional development. Both parties agreed to meet on a regular basis for the enhanced development of the industry both in Guangzhou and Hong Kong.

3.2 2014 Mainland and Hong Kong Construction Industry Forum

I represented the QSD Council to attend the 2014 Mainland and Hong Kong Construction Industry Forum organised by the Ministry of Housing and Urban – Rural Development, the People’s Government of the Guangxi Zhuang Autonomous Region (廣西壯族自治區人民政府) and the Development Bureau of the HKSAR Government from 9 – 11 November 2014 in Nanning, Guangxi Zhuang Autonomous Region. The theme of the forum was “協同發展 / 放眼世界 / 創新科技 / 綜合管理”.

The QSD Council was honoured to have two senior members to deliver talks at the Forum. Sr K C Tang talked about “如何享用 BIM 時代的來臨” while Sr Gilbert Kwok’s talk focused on legal issues. The topic of his talk was “內地或香港的承包商進入中東、非洲和亞洲區等地的建築市場和當地承包商合作需要注意的事宜”.

3.3 Co-operative Agreement with the CECA

At the 17th PAQS Congress 2013 in Xian, the CECA enquired if the QSD Council was interested in helping them to translate 「建設工程工程量清單計價規範」(GB50500-2013) from Chinese to English. The

purpose of the translation was to let their overseas counterparts gain a more thorough understanding on the current standards promulgated by the MoHURD on preparation of bills of quantities and valuation of works.

The Co-operative Agreement was eventually signed by CECA and the HKIS(QSD) in early August 2014. The translation has been scheduled for completion in January 2015.

3.4 Third Batch of Assessment of the Qualification of CECA and HKIS Members

The QSD Council has discussed this matter with the CECA for several times. It was agreed that in order to be admitted to the third batch of assessment exercises, both CECA and HKIS members must have at least seven years of post-qualification experience. Other requirements shall follow the first and second batch of assessment exercises. The supplementary agreement will be prepared in due course for execution by CECA and the HKIS. It is hoped that the Institute can sign the supplementary agreement with the CECA soon.

4. Liaison with Government Department and its Surveyors Association

4.1 Meeting with the Architectural Services Department

The Communication Meeting with the Architectural Services Department (ArchSD) was held at its Queensway Government Offices on 27 March 2014, which was also attended by the Association of Consultant Quantity Surveyors (ACQS). The meeting was chaired by the Director of the ArchSD, Sr KK Leung, with the presence of a number of his senior officials including a representative from the Development Bureau.

The QSD Council expressed our concerns and offered comments on the following topics:-

- The wider implementation of NEC3 in works contracts let by the Works

Departments, which includes the ArchSD in 2015.

- The use of Building Information Modeling (BIM) in Public Works projects.
- The trend of using the design and construction (D & B) procurement strategy in public works projects. Only a handful of experienced contractors have the ability to tender for such projects. Hence, the competition for D & B projects will not be as keen as those projects let under traditional procurement approach.

4.2 Meeting with the Quantity Surveyors Association of the Hong Kong Housing Authority (QSA of the HKHA)

The meeting was held at the Housing Authority's Headquarters in Homantin on 4 July 2014. The current Chairman of the QSA Sr Johnny KW Yung, led eight other members to meet with us. During the meeting, the following topical issues were discussed :

- A brief introduction on the new suites of the General Conditions of Contracts, which were fully implemented in May 2014.
- With the increase in the production of housing units with a target of 20,000 and 8,000 units for rentals and HOS flats, respectively, each year for the next ten years, there should be more outsourcing of QS consultancy services to those QS firms on the HKHA list.
- Creating new QS posts to address the dramatic increase in the workload of quantity surveyors in the coming years.

- The BIM journey currently undertaken by the HKHA with the objective of full implementation in 2015.

5. Consultation on New Engineering Contract (NEC)

The QSD Task Force met with the Task Group on NEC Collaborative Contracts of the Construction Industry Council (CIC) on 12 February 2014 at Pinsent Masons' Office. The purpose of the meeting was to exchange views on the draft frequently asked questions (FAQs) issued by CIC's Task Group. The meeting was convened after we issued our comments on the draft FAQ to the CIC in December 2013.

While the NEC was drafted for engineering works, the QSD Task Force expressed concern over the applicability and suitability of using it on building works projects given the substantial differences in the scope and nature of the works between these two sectors.

As we understand the Development Bureau has issued a directive to all Works Departments (including the Architectural Services Department) that all works contracts to be tendered in 2015 shall use the NEC as much as possible, the QSD will maintain a close dialogue with them to express our comments and views in relation to the implementation of the NEC on a regular basis.

6. Assessment of Professional Competence (APC)

6.1 2013 Assessment of Professional Competence (APC)

The 2013 Assessment of Professional Competence (APC) was completed. The results were follows :-

	written Assessment			Interview for Associate Membership		
	No. of Candidates	Passed	Passing Rate	No. of Candidates	Passed	Passing Rate
Part I	72	62	86%	4	4	100%
Part II	228	98	43%	98	75	77%

In December 2013, 30 referred candidates repeated their professional interviews. Twenty-five of them passed, representing a passing rate of 83%.

6.2 APC Assessors' Briefing Session

The Council organised a briefing session for the Assessors of the APC on 9 October 2014 (Thursday) at the World Trade Centre Club. More than 100 Assessors and Council Members attended the briefing session. The objective of the briefing session was to provide a forum for the Panelists to discuss the marking scheme, provide suggested answers, highlight common mistakes and respond to frequently asked questions. We were pleased to witness the inter-active sharing of opinions / views on some of the questions raised by the Assessors and the sound advice given by the Panelists.

7. Training and Continuing Professional Development

7.1 Continuing Professional Development (CPD)

The CPD Sub-committee organised 55 CPD events successfully during the Council Year. The following is the detailed breakdown of events by nature :-

- Talk by Guest Speaker - 39 No.
- Site Visit - 10 No.
- BIM Workshop - 2 No.
- APC Workshop - 4 No.

Most of the events were over-subscribed by members, reflecting their good qualities and the ability to meet the members' demand in the pursuit of life-long learning.

In view of the overwhelming demand by members, the CPD Sub-committee will keep working hard to organise more high quality / level CPD events in the years ahead.

7.2 Pre-qualification Structural Learning Programme (PQSL)

The Training Sub-Committee successfully organised 17 sessions of PQSL programme for probationers to attend during the Council Year. It covered all the areas of core competence in the Assessment of Professional Competence. The purpose of the PQSL programme is to let probationers be acquainted with all aspects of quantity surveying services / practices prior to attempting the Assessment Exercise.

8. Research Projects

The research project titled "A Feasibility Study in the Use of New Engineering Contract in Hong Kong" was carried out by Sr Leung Hing Fung, Associate Professor of the Department of Real Estate and Construction, the University of Hong Kong is still on-going and shall be completed in Council Year 2014/15.

Another research project proposed by Sr Dr Paul Ho has been approved by the Council in principle. The title of the research project is "BIM – Based Cost Estimating and Planning – The way Ahead for Quantity Surveyors". Subject to fine tuning of some of the wordings of the proposal, Sr Dr Paul Ho may commence the research exercise in Dec 2014. The research project will take two years to complete.

9. Publications

9.1 Standard Form of Contract for Maintenance and Renovation Works

Members may be aware that the Institute has published the Standard Form of Contract for Maintenance and Renovation Works in 2013. This work was the joint effort of two Divisions - the Building Surveying Division, which initiated the task and provided technical input, and the Quantity Surveying Division, which drafted the document from scratch. In order to help the general public understand the Standard Form of Contract, the HKIS plans to publish the Chinese version of the document in 2015.

It is anticipated that the Standard Form

of Contract will be used as a standard document by all building consultants involved in maintenance and renovation works. As it is relatively simple to read, clients / building owners will be able to understand their contractual rights and obligations better. On the other hand, contractors will be less exposed to ambiguously harsh terms and be able to offer better prices and end products.

9.2 Practice Notes

The QSD launched six Practice Notes in October 2012 covering the following core subjects :

- Tendering
- Cost Control and Financial Statements
- Valuation of Interim Payment Certificates
- Valuation of Variations
- Contractual Claims
- Settlement of Final Accounts

The Sub-committee on Professional Practice / Practice Notes of the Council is working on another set of three Practice Notes on the subjects of “Procurement”, “Pre-contract Estimate and Cost Plan”, and “Dispute Avoidance and Management”. It is also translating the previously issued Practice Notes into Chinese for the Institute’s Mainland members. The new set of Practice Notes will be available early 2015.

10. Promotion

10.1 HKIS QSD Scholarship Presentation Ceremony 2014

The HKIS QSD Scholarship Presentation Ceremony 2014 was successfully held on 28 March 2014 at the Institute’s Surveyors’ Learning Centre.

The objective of setting up scholarships for students attending relevant quantity surveying courses at local universities and the Institute of Vocational Education (IVE) is to nurture and encourage more young people to join the surveying profession in view of the shortage of quantity surveyors in Hong Kong. The Council considers that we should not only attract a large

number of young people to the profession, but also help maintain the social status of quantity surveyor as a highly-valued profession in the construction industry. By awarding scholarships and conducting other promotional activities, we will be at the forefront of industries in attracting more high caliber young people to join the profession.

10.2 Visits to Universities

10.2.1 The University of Hong Kong

The Council paid a visit to the undergraduate students studying for the BSc degree course in Surveying at the University of Hong Kong on 9 October 2014. More than 40 students attended the briefing session held in the Knowles Building of the University. The Vice Chairman Sr K L Wong introduced the background information of the Institute as well as that of the QSD Council. The students were very enthusiastic about their career prospects as professional quantity surveyors after graduation. The visit was useful for them to plan the way forward in becoming professional surveyors.

10.2.2 The City University of Hong Kong

The Promotion Sub-committee organised a visit to the City University of Hong Kong on 17 November 2014. Approximately 40 Final Year Students studying for the Bachelor of Science in Surveying attended the event. In order to let students gain a more thorough understanding on the work of surveyors employed in different sectors of the industry, we invited a number of Council members from

different backgrounds to share their practical experiences. The event was proved to be very useful for students in their choice of career paths.

10.2.3 The Hong Kong Polytechnic University

This was the last visit to a university during the 2013 / 2014 Council Year. More than 30 students attended the briefing session on 18 November 2014 at the University campus. Sr K L Wong gave an introduction to the background information of the Institute as well as that of the QSD Council. Other Council Members shared their experiences in respect of the different functions of professional quantity surveyors. Many students found the briefing session to be very useful.

10.3 Visit to the Hong Kong Institute of Vocational Education (IVE)

10.3.1 Tsing Yi Campus

Sr Thomas Ho, together with Sr K L Wong visited the Hong Kong Institute of Vocational Education (IVE), Tsing Yi Campus on 27 October 2014. There was a big

turn out at the session by the students studying for a Higher Diploma in Building Studies / Surveying. The students showed keen interest on the routes leading to a professional qualification. Our members explained not only the pathway leading to the professional qualification, but also the job opportunities of IVE graduates.

10.3.2 Morrison Hill Campus

The QSD Council paid a visit to the Hong Kong Institute of Vocational Education (IVE), Morrison Hill Campus on 30 October 2014. We were very pleased to interact with more than 140 students reading Higher Diploma in Surveying during the session which lasted for one and a half hours. Students raised questions regarding the route leading to a professional qualification and the career prospects of being a construction technician. We also shared our experiences in respect of the work of surveyors in different sectors of the industry.

10.4 Visits to Secondary Schools

With the successful launch of a series of visits to secondary schools during the last Council Year, the Council has embarked on another series of visits to secondary schools in order to encourage students to select quantity surveying as their course of study when they enroll in universities.

10.4.1 Shaukeiwan Government Secondary School

We started off by visiting the Shaukeiwan Government Secondary School on 9 April 2014. Council Members, Sr Sunny Choi, Sr Dr Ken Hui, and Sr Steven Tang, together with Sr Thomas Ho and I, joined this visit. We started off showing a video to students describing the Institute and the QSD. I then delivered a short

speech regarding the structure of the Institute and the function of its six surveying divisions. Sr Sunny Choi and Sr Dr Ken Hui shared their experiences as quantity surveyors for the government and in a tertiary educational institute, respectively. Finally, Sr Steven Tang gave a quiz to the students and presented them with souvenirs.

10.4.2 Pui Ching Middle School

For the second consecutive year, we visited Pui Ching Middle School on 9 July 2014 through the kind arrangement of our Promotion Sub-committee in conjunction with the school's career office. Council Members Sr Thomas Ho, Sr Raymond Kam, Sr Tzena Wong, and Sr Dr Ken Hui accompanied me to visit the school. Approximately 60 senior form students attended the talk. As there were female students at the event, Sr Tzena Wong took this opportunity to highlight what she did as a project manager with quantity surveying background for international luxury chain stores. The students were quite fascinated with our talk.

The last item on the agenda was a Q&A session with the Council passing out gifts.

10.54 Visit to the Hong Kong Gifted Education Teachers' Association

A delegation of five Council members comprising Sr Thomas Ho, Sr Raymond Kam, Sr Steven Tang, Sr Joseph Chong, Sr Dr Ken Hui, and I took the time to visit the Hong Kong Gifted Education Teachers' Association on 8 July 2014. The title of our talk was 測量之路：力臻完美. The audience, which numbered 30, included students, teachers, and parents. A lot of questions were asked about the route to becoming a professional surveyor and the employment prospects for professional quantity surveyors in the next few years. Our members took time to answer each question thoroughly.

11. Networking

11.1 Welcoming Party for Newly Qualified Members

The Welcoming Party for Newly Qualified Members was held on 21 March 2014 at the Institute's Surveyors Learning Centre.

The party has become a prime social event for networking among members. I had the great pleasure to represent the Council to introduce the functions of its various sub-committees and organising committees to our newly qualified members in the hope that more young surveyors would

participate in the tremendous activities of the Council. In order to sustain the Council's development, we need to inject new blood into it on a regular basis. The party provides a platform to promote the work of the Council and attract members to contribute their efforts to the Council.

The Party was well received by the eighty members and guests who attended the event. They had a great time participating in all sorts of games organised by the committee. Before the party was over, I had the honor to conduct a lucky draw with the grand prize being an iPad air.

11.2 HKIS QSD Annual Dinner 2014

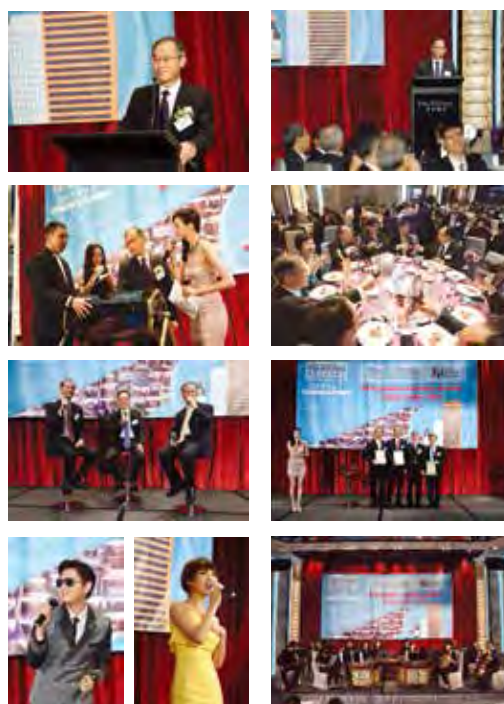

The HKIS QSD Annual Dinner was held on 26 September 2014 at the Grand Ballroom of the Royal Plaza Hotel, Kowloon. Fellow members were able to take this opportunity to socialize with other learned members / friends and government officials who worked closely with the surveying profession in a casual atmosphere. We had the pleasure to receive distinguished guests from government departments, the Legislative Council, educational

institutes, other professional institutes and the Liaison Office of the Central People's Government in the HKSAR. Other guests included the President, Office Bearers of the General Council, Divisional Chairmen, Past Presidents and Past QSD Chairmen of the Institute.

The Organising Committee allocated a time slot for "Experience Sharing with Special Guests". Although it was only 15 minutes, the talks presented by the Special Guests brought back a lot of memories from the good old days. Many thanks go to the special guests, Sr K. M. Chau and Sr C. F. Wong as well as the facilitator, Sr K. C. Tang.

For a more entertaining evening, we arranged for TV celebrities to act as Master of Ceremony and Singers. The event would not have been so enjoyable if it was not for a series of fabulous performances such as Chinese music played by an orchestra, songs performed by artists, interesting games and a lucky draw.

To recognise the outstanding performance of our newly elected member, Ms Canaan Wong in her Assessment of Professional Competence, we presented her with a prize – "The 2013 APC Best Performance Award". We are confident that she will keep up with the good work in her career.

12. Independent Role of Cost Consultant for Infrastructure Projects

The HKIS representatives met with Mr C. S. Wai, Permanent Secretary for Development (Works) on 3 July 2014 to express our views on budget over-run of some of the infrastructure projects currently undertaken and / or recently completed by the Works Departments of the Bureau.

The QSD Council has always stressed to the government that the functions and duties of cost consultant should be separated from those of lead consultant. The benefit of an independent cost consultant is that the former can perform the function of “check and balance” during the decision-making process.

Quantity surveyors perform their functions very well in building projects. It is a common practice for the employer / project manager / designer / architect to seek our advice independently prior to committing a substantial sum of capital expenditure. We do not see why the specialised skills of quantity surveyor cannot be independently used in infrastructure projects.

While it is true that the problem of unforeseen ground conditions is one of the inherent characteristics of infrastructure projects – a risk that is very difficult to control, this risk can be mitigated by adopting an equitable

risk allocation approach in contractual arrangements. The quantity surveyor can advise employers / other consultants on the most suitable approaches to deal with different kinds and various magnitudes of construction risks.

In the meeting we also highlighted our suggestion on how to improve the process of cost control and cost management for infrastructure projects. It is expected that more meetings will be required to convince the Bureau that we, quantity surveyor, are here to help without undermining the authority of the Engineer under the Contract.

The QSD Council hopes that the Government will assign a few “pilot” projects to test whether an independent cost consultant can help reduce budget / cost overrun of infrastructure projects.

13. Conclusions

I am pleased to report that the Council has accomplished most of the tasks set out in the Year Plan 2014 with the concerted efforts of the Office Bearers, Council Members, Co-opted Members, Advisors and the Secretariat of the Institute.

My sincere thanks go to the various Organising Committees, particularly the Organising Committee for PAQS 2014, Sub-committees and Task Force for their tremendous effort in organising well received events and participating in the consultation of policy making of the Government.

I would also like to take this opportunity to thank all members of the Quantity Surveying Division for your continuous support and active participation in various activities and events organised by the Council.

Finally may I express my sincere gratitude to all members of the Quantity Surveying Division and the Divisional Council for giving me the opportunity to serve the Council as Chairman for the Council Year 2012 to 2014. Indeed it was my great honour to take up the post as Chairman of the Council. As the new Council term has been commenced, I wholeheartedly request members for your continuous support to the Council for the Year 2014 / 15.

Accreditation exercise and review of the Course Accreditation Manual 2012

The BOE has completed one new accreditation application this year and the result will be announced in early 2015.

We have received some enquiries regarding the accreditation requirements of the top-up degree courses and conversion programme. The current Course Accreditation Manual does not have provisions on this part. The Board would review the viability of accepting the top-up degree courses and the conversion programme and make relevant amendments to the Manual if necessary.

It has been another busy but fruitful year for the members of BOE, Divisional Education Committees, and the Divisional Panel of Assessors. I would like to take this opportunity to convey my heartfelt thanks to all colleagues who have offered their unfailing supports and contributions to the profession. Thank you very much for your dedicated service!

In order to provide timely response to membership applications, the Board continued to hold bi-monthly meetings. The dedication of Divisional Membership Committees and the YSG Membership Committee is deeply appreciated, for without which, the Board could not have functioned so efficiently. The Divisional and YSG Membership Committees comprised the Divisional and YSG representatives to the Board and co-opted committee members and assessors for the vetting of applications and to conduct assessment interviews with the applicants where required.

During the session year, the statistics of membership applications processed are as follow:

The above statistics refer only to the number of applications processed during the year and does not reflect the actual changes in the membership base of the Institute. It should be noted that applicants may migrate from one membership grade or category to another. For full details of all members, readers should refer to the Membership Registers kept by the Honorary Secretary in accordance with Bye-law 2.1 of the HKIS Constitution.

Deliberation on the introduction of alternative routes to both professional and technical membership, which was carried down from the previous two years, was held in abeyance. It was considered more pertinent to review our membership strength and our market share in society, before the formulation of a suitable resolution to increase and strengthen the membership base of the Institute. In other words, we have tried to assess the demand on the surveying profession in the foreseeable future and evaluate whether and how our Institute could meet such demand. It was, however, considered that this survey would be a mammoth task which is not readily achievable by voluntary participation. It was recognized that government is in fact the prime provider, whether directly or indirectly, of relevant jobs for the surveying profession. The survey will not be comprehensive without government participation. This notion has to be deferred for want of suitable scientific research.

During the session year, the application for fellowship has been reviewed and a section of "Declaration of Competence" has been added to the fellowship application form to standardize the processing. The Board also deliberated on the criteria for re-admission of former members under Bye-law 2.14. Such criteria were approved by General Council on 25 November 2014 and came into effect immediately. The relevant Guidelines for Re-admission have also been published in the Surveying Time and uploaded in the Institute's web site.

Sr Billy Mak Yiu-chung	YSG Representative

In pursuance of the provisions of Part VII of the Bye-Laws, the Board continues to consider the policies and control mechanism for mandatory continuing professional development and lifelong learning to help members enhance not only their professional competence but also their social status as professional surveyors. All professional and technical members are required to engage themselves in a continuous process of sharpening their expertise and broadening their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute may strengthen its strategic position in the property industry for the long-term sustainability of the surveying profession in Hong Kong.

In 2014, 178 CPD events were organized by various Divisions and the Young Surveyors Group (YSG), reflecting a 48% increase from 120 of the previous year. Apart from the 4 institutional events, QSD was the largest CPD organizer among all the Divisions, which had provided 81 events (including 1 joint CPD with

BSD, 1 joint CPD with GPD and 1 joint institutional event). The ranking order of the other Divisions was as follows: GPD (40, including 1 joint CPD with QSD), BSD (15, including 1 joint CPD with PFMD & YSG, 1 joint CPD with QSD, 1 joint CPD with YSG and 1 joint institutional event), LSD (15, including 1 joint CPD with YSG), YSG (12, including 1 joint CPD with BSD & PFMD, 1 joint CPD with BSD, 1 joint CPD with LSD and 1 joint CPD with PFMD), PFMD (7, including 1 joint CPD with BSD & YSG and 1 joint CPD with YSG) and PDD (6).

Mandatory Continuing Professional Development and proposed amendment to Bye-laws

In order to sustain the professionalism of our members and to preserve the confidence of the public to the surveying profession, all members must comply with the Guidance Notes for Mandatory Continuing Professional Development (June 2007) and complete a minimum requirement of 60 CPD hours over a three-year period. The Board started the first checking exercise for Mandatory Continuing Professional Development (CPD) in 2010 and the second checking exercise was conducted in 2013. To enforce and better implement the Mandatory CPD, the Board started the review of the Guidance Notes for Mandatory CPD (June 2007) since 2011.

In October 2011, the proposal on the sanctions for non-compliance of Mandatory CPD requirements was first submitted to the General Council for consideration and refinements were made from time to time. The proposal has already taken into account the merits of various enforcement measures adopted by other professional bodies such as HKIA, HKIE, HKICPA, HKICS, the Law Society of Hong Kong and RICS. The proposal is a four-tier sanction system for non-compliance of the Mandatory CPD requirements: from issuing reminders and warning letters; conducting interviews; to publishing the names of the defaulting members in Surveyors Times; and finally suspension of membership.

To empower the Board and the General Council to enforce the sanctions for non-compliance of Mandatory CPD, it is necessary to amend the existing Part VII of the Bye-Laws on Professional Development. A discussion forum for the proposed amendment of the Bye-Laws was held on 13 October 2014 to seek views from all members and an EGM will be held to confirm the proposed amendments in early 2015.

E-learning system

With an aim to provide web-based CPD hours for members, especially those residing in Mainland and overseas, the Board will continue to explore the possibility of providing an E-learning system.

Enhancement of the HKIS website for CPD events and CPD registration procedures

To simplify the online registration procedures, the Board has sought comments from the Divisions, which gave positive feedback on opening the Divisional CPD events for all members to register. That is, no priority will be given to divisional members for the CPD event except special CPD and site visit. The Board proposed that members registering for CPD event online are required to settle the reservation fee via PayPal or credit card instantly. To facilitate the above, enhancement work to the HKIS website has been carried out and the new system shall be ready for use in early 2015. Announcement on the new CPD registration procedures will be made in due course.

提倡社區服務

市區重建局與信和置業於90年代一同發展荃灣區楊屋道七街的重建計劃。citywalk 荃新天地由2008年落成至今，獲得建築設計獎項無數，最近更榮獲香港測量師學會 (HKIS) 及香港物業管理公司協會 (HKAPMC) 所頒發「優質物業設施管理大獎」以及大中華物業管理學會頒發的「大中華區優秀商場管理大獎」。

不過，市區重建局物業及土地總監溫兆華先生認為只改善社區設施是不足夠的，加入軟件配套更為重要。過去幾年，citywalk 荃新天地一直為非牟利服務機構和藝術團體提供場地協助，至今舉辦超過300項各類社區活動，惠澤社群。

兩岸四地物業管理研討會

大中華物業管理學會籌辦「2014兩岸四地物業管理研討會」，交流行業心得。出席會議的市區重建局物業及土地總監溫兆華先生，除了以 citywalk 荃新天地的商場項目為例之外，也分享了活化及保育舊灣仔街市的計劃，保留原有建築設計，改善內部營運空間，並獲得OVO集團進駐商場，提供悠閒的藝術空間，以及推廣環保健康的生活理念。

另外，市建局於中環中心地庫項目更以象徵式年租一元租予非牟利機構，並邀請街頭藝術家蘇五雲先生為地庫長廊繪製全港最大最長的室內油彩壁畫，取名為「心靈旅途」，增加文化氣息。

重視學生德育

連續5年，citywalk 荃新天地與資深電台主持人麥潤壽先生所創辦的「永不放棄同學會」和「永不放棄同學仔」合辦暑期訓練計劃，以多元化的活動啟發中小學生追夢，建立正確人生態度。麥潤壽先生分享成立初衷，「常說下一代不好，只因他們不懂堅持。我們特意製造困難，從中訓練學生的意志。5年前與citywalk 荃新天地結緣，很欣賞他們的理念，故一直合作下去。」

連續10星期的暑期活動，包括中醫講座、主播訓練、參觀浸大電影學院、航空公司，還有於 citywalk 荃新天地舉行畢業匯演等等，鼓勵學生投入團體生活，多接觸社會的不同層面，從而建立自信、發展潛能，培養永不放棄的意志力。溫兆華先生分享，「與麥潤壽先生合作，我們的服務對象不再局限於區內的學生，而是跳出商場，擴闊學生眼界。」

推廣藝術活動

荃新天地於2009年設立 citywalk gallery 荃新藝廊，作為非商業運作的長期室內展覽地點。溫兆華先生透露，「藝廊提供平台給藝術家展示才華，亦讓市民免費欣賞藝術創作，從而提升市民的生活質素和文化素養。」畫廊現正為80多歲的花婆婆婆舉辦「賞花之花婆婆花花世界」作品展。而藝術家胡小萍女士亦曾應邀舉辦名為「蝶誌」的蝴蝶手作作品展覽。除此以外，著名街頭藝術家蘇五雲先生亦曾於 citywalk gallery 荃新藝廊舉辦多次大型主題畫展，透過水墨畫分享創作心得。蘇先生談及，「畫畫多年，我也常思考如何回饋社會，citywalk 荃新天地的理念跟我相近。街坊們欣賞作品後很開心，這與平時的商業畫廊很不同。」
