### **About the Hong Kong Institute of Surveyors**

Established in 1984, The Hong Kong Institute of Surveyors is the only professional organization representing the surveying profession in Hong Kong. As of 2 December 2015, the number of members reached 9,565, of which 6,124 were corporate members. The Institute's work includes setting standards for professional services and performance, establishing codes of ethics, determining requirements for admission as professional surveyors, access and award the professional qualification, and advance members' professional knowledge, technical and services standards through continuing professional development.

The Institute has an important consultative role in government policy making and on issues affecting the profession. We have advised the Government on issues such as unauthorized building works, building safety campaign, problems of property management, town planning and development strategies, construction quality and housing problems. We are working on amendments to standard forms of building contract and have issued guidance notes on floor area measurement methods.
