## 會長的話

**The time flies in a flash. A year ago I was writing in the Surveyors Times introducing our corporate plan for the year 2007/2008 and encouraging members to actively participate in the HKIS activities, in the spirit of "Concerns, Communication and Commitments".**

The Corporate Plan for year 2007/2008 is devised in order to strengthen our sense of unity for comprehensive development. With the efforts paid throughout the year, we are grateful to share that it was a successful and fruitful year for HKIS. We have made significant achievements and developments in various aspects and the details are provided in the President's report.

In addition to the planned missions, we have quickly and effectively responded and contributed to the relief and reconstruction works to the Sichuan earthquake disaster which happened in May 2008, through providing professional input, visits and other support including donations. We are proud to have members from different divisions and ages to work together to serve the community and to care for those in need.

I would like to express my sincere appreciation to the Office Bearers, all Board members and all Divisional and General Council members for their generous contribution to HKIS as well as the continuous development of the surveying profession.

Thanks for your support to HKIS throughout the year and I wish HKIS a bright future.

時光飛逝，一年前我正於「測量師時代」中介紹學會於2007/08年度的計劃，鼓勵會員積極參與學會活動，「明瞭所需、加強溝通、實踐承諾」。

2007/08年度的計劃目的為使學會的發展更為團結。經過一年來的努力，相信這是有成果的一年。學會於多方面達到了重要目標，詳情已刊載於會長報告當中。

除了已計劃的任務外，學會亦於2008年5月四川發生地震災害時作出了迅速反應，為救災和重建工程作出援助，並提供專業意見、安排探訪及籌募捐款。我們團結了不同組別及年齡的會員服務社會，照顧有需要人士，便我們感到自豪。

藉此機會，我衷心感謝各位執行理事及理事會成員對學會、以及測量專業的發展所作出的貢獻。

我亦在此感謝各位過去對學會的支持，並祝願學會有一個更璀璨的未來。

# General Practice Division

## The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, continuous management and improvement; properties are also developed as direct investments or securitized, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors through their professional training, skill and knowledge are in a position to offer timely and effective advice in connection with the development, use and management of the property resources both for operational needs and investment purposes. They are concerned with the planning, development, use, management, leases administration and valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. And contemporaneously, because of the General Practice Surveyors' understanding of the principles of investment and asset pricing, the profession is ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. They range from professional and agency services connected with the investigation, valuation, planning, development, acquisition, disposal and management of property to more recently, valuation of franchises and intangibles. The major roles played by General Practice Surveyors are as follows:

## Valuation of Properties

General Practice Surveyors value all types of landed properties for various purposes. The range of valuation services covers:

- Valuations for sale, purchase, letting and mortgage purposes.

- Feasibility studies on all types of properties.
- Acting as an expert witness, independent valuer or arbitrator in valuation disputes.

## Development and Town Planning Consultancy

Real estate development is a complex process, which needs professional expertise and judgment. Through proper training and experience, General Practice Surveyors can provide a comprehensive range of professional services covering:

- Market studies and evaluation of development opportunities.
- Negotiation with Government on modification, surrender and regrant of land leases.
- Applications and appeals to the Town Planning Board in respect of change of uses.

- Preparation of development and design briefs.
- Constant monitoring of the development to ensure that it meets the client's requirements and reflects market needs.

## Sales, Lettings and Auctions

General Practice Surveyors, on behalf of clients, negotiate the purchase, sale or leasing of all types of land and buildings. They may act as auctioneers in the disposal of properties or as owner's agents in selling properties by private treaty or tender. They may also advise on marketing strategy and on the preparation of sale and lease documents.

## Property and Asset Management

In a society of rising user expectations, good quality professional management services are an essential element to sustain and enhance the value of the property. General Practice Surveyors have been involved in the management of all types of properties. They negotiate with tenants on rent review, lease renewal and re-letting of premises. They also advise on situations of refurbishment/ renovation and redevelopment. Upon the securitization of properties, General Practice Surveyors will also contribute their expertise to the long range investment strategy and property portfolio planning.

# Land Surveying Division

## The Land Surveyor

**B**roadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts, defining property boundaries, preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

## Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division [RPS(LS)] registered under the Surveyors Registration Ordinance and Authorised Land Surveyors [ALS] registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;

- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

## Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

## Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

### Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in the Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and

continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

### Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection, integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

### Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

### Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

# Planning & Development Division

## The Planning & Development Surveyor

**R**eal estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

### Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximizing project return while minimizing the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

### Land Administration Input

Planning & Development Surveyors specialize in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for a modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

## Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning applications, review and or appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

## Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help to set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

## Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

## Town Planning

### Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

### Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

### Other Common Professional Services

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialize in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (LVIA), and Social Impact Assessment (SIA).

# Quantity Surveying Division

## The Quantity Surveyor

**Q**uantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, Government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

### Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

### Cost Planning

Cost planning is a specialist technique developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximize practical and aesthetic design solutions for a project whilst keeping within the Client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

### Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps; namely:

- establishing an overall cost target;
- checking any deviations that affect the cost target; and
- taking such remedial action as is necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

### Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean at the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

### Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also

form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build, guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

### Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

### Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

### Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- extension of time analysis: forensic analysis and delay demonstration techniques;
- delay and disruption: time slicing, project analysis and productivity analysis; and
- direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

## Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- technical advice and assistance throughout the dispute resolution process;
- preparation of particularized documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- when suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

## Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- insurance administration personnel working for contractors/developers/consultants/ public entities/Government/insurers/or other employers;
- loss adjusters for loss adjusting firms on behalf of the insurers;
- underwriting personnel for insurance brokers/ insurers; and
- risk assessment personnel for insurance broker/ insurers.

# Young Surveyors Group

**T**he Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of more than 3,500 members – comprising student members, probationers and young qualified members of all divisions – the power of the surveying profession in future.

A YSG representative, usually the Chairman of YSG, sits on the General Council and Executive Committee of the Institute and YSG representatives are nominated to various Divisions, Boards, Panels, Committees and Working Groups of the Institute in order to express the views from YSG members' perspective.

YSG organises CPD (Continuing Professional Development) and PQSL (Pre -Qualification Structured Learning) events to provide opportunities for our members to learn from outstanding personalities of the industry, academic or government and also help student members to tackle the Assessment of Professional Competence (APC). It organises and participates in various social events such as leadership training, sports competitions, dragon boat competition, volunteering services, fund raising campaigns, annual dinner and wine tasting training. Apart from the traditional events, it continues to create new themes for members such as goodwill visits to the Mainland and other professional institutions. These are introduced to provide an excellent opportunity for YSG members to train their presentation skills and learn from celebrities within our society.

Beyond the Institute, YSG encourages young members to participate in different kinds of activities. For example, YSG members are actively involved in the annual Education & Careers Expo and HK Real Estates Service Expo in Mainland, which are organised by the Hong Kong Trade

and Development Council, with senior members appointed by the General Council and Divisions. Furthermore, educational visits to universities and promotional visits to colleges and schools have been organised to communicate with undergraduates of universities and to promote the surveying profession respectively.

# President's Report

## 會長報告

As President of The Hong Kong Institute of Surveyors (HKIS) for the Council Year 2007-2008, it is my great pleasure to have served our members and to enhance the respect, recognition and reliance on HKIS by both the Government and the public. For the beginning of the council year, I have succeeded to achieve the Corporate Plan, listened to members' concerns and visited various Governmental departments, private organisations, staff unions and various Divisional Councils. With synergy, I truly believe that surveyors would continue to play more significant roles in all walks of life in Hong Kong. It is an indispensable empowering factor for us to strive for the rights of members and status of our profession.

Some happenings in the council year 2007-2008 are highlighted below:

### Connection with Mainland Government and Overseas Professional Institutes

- In January 2008, we had a meeting with the Ministry of Construction in Beijing alongside other professionals. One of the major issues is how HK professionals can obtain the relevant "practice licence" on the Mainland. A working group has been set up to continue communication with relevant parties on this topic.
- HKIS had agreed with the Building Surveyor's Institute of Japan (BSIJ) for a mutual recognition of professional qualification of Quantity Surveyor between Hong Kong and Japan, with the signing of a Reciprocity Agreement. The Reciprocity Agreement

Signing Ceremony was held at Tokyo, Japan on 24 March 2008 together with a seminar on the related topic. During the seminar, we presented the roles of Quantity Surveyors in Hong Kong and the Mainland while the representatives from BSIJ introduced the role of Quantity Surveyors in Japanese and other overseas projects. The seminar was very useful for a better understanding on the practices of both places.

- On 16 to 18 March 2008, a team of 24 members to Beijing visited several departments in the Mainland. During the trip, we met several important officials from the Ministry of Construction and the Ministry of Commerce and discussed on the mutual recognition of professional qualifications between Hong Kong and the Mainland, the arrangements relating to the implementation of commitments secured under CEPA Supplement IV as well as the development of our industry in the Mainland. We also visited the United Front Work Department of CPC Central Committee and Hong Kong and Macao Affairs Office of the State Council. We hope we can have continual communication with the related Mainland's departments in the future in order to tackle the issues arising on mutual recognition and licensing of our members in the Mainland.
- The Ministry of Housing and Urban-Rural Department of the People's Republic of China (MOHURD) announced on 22 July 2008 that 65 applications for Initial Registration of Cost Engineers from the Hong Kong Region had been approved. These first 65 PRC-Registered Cost Engineers from Hong Kong Region are some of the HKIS members who obtained the Qualification of Cost Engineers about two years ago under the Reciprocity Agreement between China Engineering Cost Association (CECA) and HKIS.
- The Building Surveying Division (BSD) has set up a China Liaison Working Group to enhance

communication with engineering consultant counterparts in Mainland China. It is expected that the frequency of communication will increase after the successful completion of mutual recognition with CAEC.

- A consensus regarding the way forward on the Institute's membership with FIG was reached in the General Council meeting, held on 27 March 2008, and the membership issue was resolved. The Institute has also taken part in the FIG Working Week, held on 14 to 19 June 2008 in Stockholm, Sweden.
- The Land Surveying Division (LSD) organised a technical site visit to Zhongshan City on 10 to 12 April 2008. Welcomed by the Vice-Secretary-General of the People's Government of Zhongshan City (中山市人民政府副秘書長) and President of the Association of Survey and Mapping of Zhongshan City (中山市測繪協會會長), we had a chance to assess the title registration system in Zhongshan during the visit. This CPD event attracted some 32 participants from Hong Kong, 7 participants from Macao and more than 40 participants from Zhongshan, Guangzhou and Shenzhen.
- The 12th Pacific Association of Quantity Surveyors (PAQS) Congress was held in Canada from 16 to 18 June 2008. The Congress was hosted by the Canadian Institute of Quantity Surveyors (CIQS) and attracted over 200 local and international audiences. The PAQS Annual Board Meeting was held before the Congress on 15 June 2008 at the same venue. Mr Stephen Lai, the Chairman of Quantity Surveying Division (QSD) and I presented the HKIS report at the meeting. A Reciprocity Agreement between CIQS and HKIS was also signed.
- The bi-yearly full Council Meeting of The International Cost Engineering Council Meeting (ICEC) was held in Toronto, Canada on 28 and 29 June 2008. Mr Honby Chan from QSD attended the Meeting on behalf of HKIS, followed by the 6th ICEC World Congress from 30 June to 2 July 2008.
- To further develop the reciprocity agreement relationship worldwide, the QSD continued the negotiation of a Reciprocity Agreement with The Institution of Civil Engineering Surveyors (ICES), the Association for the Advancement of Cost Engineering Association (AACCI) and other similar international professional bodies, and supported and attended the Pacific Association of Quantity Surveyors (PAQS) in Canada to explore collaboration

with similar professional organisations.

- Representatives from the Planning and Development Division (PDD) attended The International Estate Evaluation Summit Forum organised by Guangdong Real Estate Valuers Associations on 6 July 2008 in Guangzhou. Property Law, the tax system and underground property evaluations from different countries were discussed. Invited by the professionals of the Architectural, Surveying and Planning Functional Constituency, PDD representatives also attended a trip to Guangzhou on 7 July 2008, which focused on liaison with officials, professionals and Mainland developers, to exchange views and explore business and co-operation opportunities in Guangzhou and Pan-Pearl River Delta. Enhanced CEPA arrangements were also proposed.
- During the year, the Mainland Committee of PDD also visited the Peoples' University (人民大學) in Beijing on 17 October 2008 and Tongji University (同濟大學) in Shanghai on 20 October 2008. The main purpose was to study the academic courses in surveying and land administration, which may later lead to a closer relationship with such courses.
- Mr Gary Yeung, representing the Property and Facility Management Division (PFMD), visited the United Front Work Department (UFWD) of the Chinese Communist Party (CCP) in Beijing from 17 to 19 December 2007.
- Another joint professional meeting with Guangdong Property Professions, namely, 香港測量師青年組與廣東省房地產行業協會學術聯誼交流活動, was successfully held on 22 June 2008, with 128 Young Surveyors Group (YSG) members joining the event. During the meeting, views regarding surveying practice in the Mainland and Hong Kong were exchanged.

### **Involvements in Local Professional Affairs, Consultation of Government Policy Making and Professional Practice**

#### *Supplement to the Code of Measuring Practice:*

The HKIS Saleable Area Working Group had meetings with the Hong Kong Real Estate Developers Association (REDA), various Government departments and local surveying firms. A new Supplement to the Code of Measuring Practice for the definition of Saleable Area was issued on 18 August 2008, superseding the previous version in February 2008.

### *Recognition of Technical Associates as Technical Competent Person (T3):*

The Technical Associates in BSD, with three years' post-qualification experience, would be accepted by the Buildings Department to perform the duties of TCP (T3) under the Site Supervision Plan in the Authorized Person's stream and Registered Contractor's stream. HKIS also requested that the Government consider the recognition of Technical Associate qualifications as an alternative qualification when recruiting relevant grades of civil servants and/or Resident Site Staff. A meeting was conducted with the Development Bureau and the Bureau agreed to explore the possibility.

### *Public Consultation on Planning Application Matters:*

The General Practice Division (GPD) Council, by endorsing the recommendation of the Panel of Professional Practice, conveyed to the Government that local views should have already been thoroughly considered and taken into account during the relevant OZP drafting/planning approval process for sites covered by an Outline Zoning Plan or subject to planning approvals under Section 16 of the Town Planning Ordinance.

### *Review of Premium Valuation Process:*

The Lands Department has set up a formal channel to discuss with HKIS on matters relating to premium assessment. The Lands Department/HKIS Liaison Group exchanged views on existing government policies and procedures on land matters. We also proposed recommendations to enhance the effectiveness of the land administration.

### *Business and Property Valuation Standards:*

The Business and Property Valuation Standards Panel of GPD had set up a working group to study the impact of the current Hong Kong Accounting Standards on the valuation practice in Hong Kong, and to identify ways for members to work with the relevant accounting standards.

### *New Research Project on Title Registration System:*

A new research project on Title Registration System of Hong Kong started in February 2008. LSD members, Dr Conrad Tang, Simon Kwok and George Leung, are now engaged in this research project, aimed to develop a suitable land boundary survey for the title registration system in Hong Kong.

### *Boundary Survey Advisory Committee (BSAC) of LSD:*

Facing increasing challenges, the BSAC has set up several sub-committees specializing in (1) Legal

Implications of Section 28, Land Survey Ordinance; (2) Development of digital land record data of Survey Map Office (SMO); (3) Promotion on the nature of DD sheet; (4) LS position in the Government's Infrastructure Projects, (5) Case study on Adverse Possession, and (6) Introduction of extra text book on the Hong Kong Cadastral Survey.

### *HKIS Position Paper on Security of Payment:*

A Working Group of QSD was set up to look into the matter in April 2008. A position paper was prepared after a series of meetings among the members.

### *Planning of Border Restricted Area:*

A study group focusing on the planning of the border restricted areas in the New Territories was formed in April 2008 in response to the Government comments received by members.

### *Qualifications on PSA/PSC Tenders in Housing Department:*

The Housing Department confirmed on 14 February 2008, the qualification of Property and Facility Management Surveyors for the post of Estate Manager (Property Management) in the PSA/PSC Contracts in Housing Department. In a meeting with the Services Support Unit of the Housing Department in late January 2008, we had been given to understand that persons holding professional membership qualifications of HKIS in PFMD would be included in the next batch of tendering for PSA/PSC along with an HKIS (GP) qualification.

### *Green Management Practice:*

The PFMD has set up the Green Management Practice to promote the awareness of the Green Management Practices being applied to property and facility management and to provide technical advice on all matters arising thereof. A working group was formed in March 2008 in the preparation of suitable practice guidelines.

### *Probationary Membership of Accredited Courses:*

The PFMD have accredited the BSc(Hon) degree in Property Management from the Hong Kong Polytechnic University as well as the BSc(Hon) degree in Surveying and the MSc degree in Real Estate (Major in Facility Management) from the University of Hong Kong for Probationer membership of the Division and undertaking the Assessment of Professional Competence. The degree course in Property Management offered by the Hong Kong Polytechnic University is the first such course accredited by PFMD since its formation three years ago.

### *Housing Managers Registration:*

The PFMD Council re-opened dialogue with the Housing Managers Registration Board in pursuit of recognition of PFM surveyors to become Registered Professional Housing Managers.

- In order to fulfil our aims to have a better understanding and communication with local associations in the real estate industry, the General Council and Divisional Council members visited several unions including Local Building Surveyors Association, Maintenance Surveyors Association, Association of Government Local Land Surveyors, Estate Surveyors Association, Quantity Surveyors Association in various Government Departments. In addition to the above associations, we have also visited the Rating & Valuation Department.

### **Activities for Members**

- The six Divisions and the Young Surveyors Group (YSG) organised various CPD events in 2008. In the first CPD event in 2008, "HKSAR Heritage Policy - a case study: HKJC Revitalization Proposal on Central Police Station Compound" held on 12 February 2008, we had speakers from the HKSAR Government and the Hong Kong Jockey Club Charities Trust sharing with us the Government heritage policy and the revitalization proposal on Central Police Station Compound. It is encouraging to see the active participation of our members in local affairs, which is an effective way to reinforce and consolidate our expertise to both the Government and society as a whole.
- A Surveyor's Lunch was held on 29 February 2008 at the World Trade Centre Club. Our honourable guest speaker, Mrs Carrie Lam Cheng Yuet-ngor, JP, the Secretary for Development, shared with us her work schedule in the coming future. Participants had a memorable moment in the luncheon.
- On 17 to 18 May 2008, the YSG took part in a short course in Zhongshan University: 香港專業人士中山大學國情研討班. 55 YSG members joined the course and attended three seminars: 《當前國際形勢和我國外交政策》, 《粵港澳基礎設施的協調與發展》 and 《領導集團關注問題與執政理念》. The course covered the current Mainland diplomatic issues and future main infrastructure developments in the Mainland.
- YSG Study Tour 2008 to Chengdu was held with success from 15 to 19 October, with some 35 participants.

- HKIS will be celebrating its 25th Anniversary in 2009. A committee headed by Vice-President Stephen Yip has been set up to organise a series of events for the celebration.

### **Conferences, Forums and other HKIS Events**

#### *HKIS Annual Conference 2008:*

The HKIS Annual Conference 2008 was successfully held on 26 July at Conrad Hong Kong Hotel. Scheduled right before the opening of the Beijing Olympics, the theme this year was "Surveyors in the Olympics". Eight speakers from different countries were invited to share their views and experiences during the planning and construction process for the Beijing Olympics. About 200 members joined the Conference.

#### *HKIS Annual Dinner 2008:*

The HKIS Annual Dinner 2008 was successfully held on 3 November at the Grand Hyatt Hong Kong as a kick-off event for the celebrations of the Institute's 25th Anniversary in 2009. We were honoured to have the Honourable Donald Tsang Yam-kuen, GBM, Chief Executive of the HKSAR to deliver an opening speech. Around 600 guests had a remarkable evening.

There were two new awards, namely Best Environmental Friendly Award and Best Clubhouse Facilities Award, in addition to the Best Project Marketing Award, Best Layout Award and Best Brochure Award.

#### *HKIS Spring Reception:*

A Spring Reception was held on 26 February 2008 at the HK Jockey Club, Happy Valley. A number of honourable guests from the Government, liaison office, universities, etc. joined our party to celebrate the Chinese New Year. During the event, there was a ceremony to present the HKIS Diplomas to our new members. The HKIS Outstanding Final Year Dissertation /Thesis Awards 2007 were held in the same event.

### **Contributions to Community Services**

#### *Sichuan Relief Works:*

An earthquake measuring 8 on the Richter scale struck the province of Sichuan on 12 May 2008. The disaster caused widespread destruction to the area

and there were many difficulties to overcome in the aftermath.

The Hong Kong and Sichuan governments agreed to establish a co-operation mechanism in the reconstruction of Sichuan. The HKIS is a member in the Hong Kong Construction Sector 5.12 Reconstruction Joint Conference (RJC) formed on 10 June 2008. The purpose of RJC is to enable the Hong Kong real estate and construction sector to contribute to the reconstruction of Sichuan by providing their professional expertise.

HKIS recruited members to be volunteers to join and support RJC on the Sichuan relief campaign in person. The volunteers visited Sichuan for 7 to 10 days to assist in the reconstruction and help those in need. I would like to thank our members for joining this meaningful event and for their donations to the victims in Sichuan.

#### *Mainland Snowstorms:*

In February 2008, we raised funds for the relief operation in snowstorm-affected areas in the Mainland. I thank all members for their generous support and donations.

#### *Charity Events:*

YSG joined various meaningful charity events on behalf of HKIS. On 24 February 2008, YSG formed a big team to join the charity walk: New Territories Walk – Route 8 (Tai Wai to Lai Chi Kok). YSG also sent a strong team to participate in the Hong Kong Open Indoor Rowing Championships & Charity Rowathon 2008 on 30 March 2008 at the Kowloon Park after training at the Hong Kong China Rowing Association.

### **Conclusion**

I have always had a vision for building a better profession and a better Hong Kong, which I believe can be realized. Our profession is moving towards the new age of globalization, which urges “Multilateral Professionalism” to remain competitive. We need to cope with the dynamic challenges we face, especially in the “Financial Tsunami” hitting the world at the moment, which is believed to be the biggest financial and economic crisis of the century. We must be proactive and respond sensibly to the likely changes to our economy which are faced by our profession. Let us remain strong and grow our profession amid tough times of financial turbulence.

### **Special Thanks**

Time flies by. To me, 2008 was a busy, fruitful and meaningful year full of challenging experiences. I enjoyed every moment in working with the members for the advancement of HKIS.

I would like to thank the Office Bearers and all Divisional and General Council members for their generous contribution to HKIS. We shall continuously work on every aspect for the development of HKIS and the surveying profession.

# Treasurer's Report

for year ending 31 July 2008

The total revenue of the Hong Kong Institute of Surveyors for the year is HK\$14,638,263, which is slightly less than the amount of HK\$14,698,630 in the previous year. However the general and administrative expenses for the year amounted to HK\$15,206,608 which is more than the previous sum of HK\$11,913,870. As a result of the increased expenditure, we have recorded a deficit of HK\$568,657. The accumulated fund of HKIS at the end of financial year is HK\$14,041,938.

The increase in our expenditure was primarily due to the new rental charges since the tenancy agreement of our administrative offices and Surveyors Learning Centre was only renewed in March 2007. In addition, there are several other items that contributed to the overall increase in our expenditure. These include: increased activities and events organised by HKIS and Divisions, donations to Mainland snowstorm and Sichuan earthquake, consultancy services for drafting of several standard forms of contracts and specification, legal services for disciplinary proceedings, attendance at international and regional conferences, overseas visits, subscriptions for international organisations, and research projects.

On the Divisional Councils and Young Surveyors Group accounts, there is an accumulated fund of HK\$2,301,407 as compared with HK\$1,783,297 in previous year. The breakdown is as follows-

|   |               |
|---|---------------|
| Building Surveying Division               | HK\$441,824   |
| General Practice Division                 | HK\$501,414   |
| Land Surveying Division                   | HK\$75,273    |
| Planning and Development Division         | HK\$20,404    |
| Property and Facility Management Division | HK\$110,059   |
| Quantity Surveying Division               | HK\$638,881   |
| Young Surveyors Group                     | HK\$513,552   |
| Total =                                   | HK\$2,301,407 |

Despite the deficit of our account, the financial position of HKIS is in general considered healthy. The General Council is mindful of the financial position and will explore all means to improve it. We will continue to ensure that the HKIS is well placed financially to face the challenges of the future.

### MAJOR ACTIVITIES WITH MAINLAND COUNTERPARTS

*Mutual Recognition of Professional qualification with China Association of Engineering Consultants (中國建設監理協會)*

Further to the training and assessment for both HKIS BS members and CAEC members from the Mainland held in Shenzhen in July 2006, certificate presentation ceremonies were arranged in Beijing on 8 December 2007 and 23 January 2008 respectively, in which it was very good to see a substantial number of our members present to receive their certificates.

For members who missed the Beijing ceremonies, a separate certificate presentation was held in Hong Kong on 30 January 2008. The President of CAEC Zhang Qing-lin (張青林) and the Secretary-General of CAEC Lin Zhi-yi (林之毅) attended the ceremony to present certificates to members in Hong Kong. In addition, a China Liaison Work Group has been set up to enhance communications with the CAEC.

#### 廣東省建設監理協會交流聯誼會

On 5 to 6 July 2008, we were invited by 廣東省建設監理協會 to attend a liaison meeting in Guangzhou. Those present included 廣州與協會龍建文會長、錢小靖副會長、朱本祥秘書長 and representatives from Guangzhou supervision engineering consulting companies. The Secretary-General and Deputy Secretary-General of CAEC (中國監理協會秘書長林知毅先生及副秘書長溫健先生) also attended the liaison meeting at our invitation. After the meeting, we made a few site visits including the 廣州電視觀光塔 and a project site in 珠江新城. The following day included talks for both parties to introduce their local practices in project management and real estate development process.

接待廣東省建設監理協會訪港

As an exchange programme and to improve communications, we invited 廣東省建設監理協會 to visit Hong Kong on 27 to 28 August 2008. They led a team of ten members including their Chairman (龍建文會長), Vice Chairman (錢小靖副會長) and Secretary-General (朱本祥秘書長) and representatives from Guangzhou supervision engineering consulting companies to attend a series of activities organised by us including a visit to the Science Park, Buildings Department, Development Bureau and some project sites and surveyors firms. It provided a great opportunity for them to understand more of the local building surveying practices.

### CONFERENCES, SEMINARS AND WORKSHOPS

A CPD event titled "Innovative Solution for Countering Water Ingress into Concrete Structure"

was held on 9 April 2008 with more than 50 members attending. The speaker highlighted the causes of water seepage to basement structures and compared different types of waterproofing solutions. Members were interested in the constraints of installation, equipment life, maintenance and life cycle cost of Multi-Pulse Sequencing System (MPS) System.

**CPD Events** comprising three sessions of experience sharing of "Surveyor in Practicing as Authorized Person" were held on 11 April, 18 April and 2 May 2008 respectively. Mr Vincent Ho, Mr John Yip, Mr Tsui Ho, Mr Raymond Chan and Mr Y Y Yip, practicing as Authorized Persons (AP) were invited as the speakers. They highlighted the entry requirements, attitude and professional knowledge that an AP should possess and it was hoped that more surveyors would acquire the AP qualification after this course.

A **Planned Building Maintenance Conference** was held on 19 April 2008 at Mong Kok Community Hall. It was a Conference organised by BSD, sponsored and assisted by the Hong Kong Housing Society and Home Affairs Department. The Conference was to arouse public awareness and provide some general knowledge on planned building maintenance. The Conference included the launching of an educational video titled:- "物業保值有何良策、樓宇維修及早計劃" on planned building maintenance produced by BSD under the sponsorship from the Coalition of Professional Services Atypical Pneumonia Charitable Trust.

The **Building Surveyors' Conference 2008**, one of the most important annual events, was successfully held on 27 September 2008. There were about 200 participants. Eyeing the significance and prominence of building maintenance practice, 'Cultural Changes in Building Maintenance' had been chosen as the theme of the Conference. We were glad to have invited speakers from the public, private and academic sectors to share with us their knowledge and experience in the current practice, as well as to update us with the latest news and researches in building maintenance. We also had our honourable speaker Mr Raymond L M Young, JP, the Permanent Secretary for Development (Planning and Lands) delivering a keynote speech.

he speeches were very informative and inspiring which led us into in-depth re-thoughts of our expertise and the way forward in further developing our profession. The BS profession had evolved to provide services to a wider range of clients both in the public and private sectors, and the quality of service and level of integrity provided by the members of our BS profession were particularly required by the market of building maintenance.

Equally important and in line with the initiatives of the Board of Professional Development and the Board of Education, we have organised other CPD events throughout the year and many of our members were able to develop their professional knowledge continuously. Also, we were frequently invited as speakers by many organisations to deliver talks at their workshops, seminars and training courses related to building maintenance and management. Such organisations included the Home Affairs Department and the Hong Kong Housing Society.

## **RESPONSE TO NEW GOVERNMENT POLICY/ SCHEMES**

### *Mandatory Building Inspection Scheme*

With regard to the Mandatory Building Inspection Scheme, we have been urging the Government for this new initiative for a long time since back in 1997. Although the development of the Scheme has been slow, we will continue to put forward constructive ideas to the Government. In this connection, we have commented on the Draft Code of Practice for Mandatory Building Inspection Scheme.

### *Voluntary Building Classification Scheme*

We have also commented on the Voluntary Building Classification Scheme by the Hong Kong Housing Society and we will closely monitor its development.

## NEW DEVELOPMENT IN EDUCATION AND TRAINING

The BSD followed the proposal prepared by the Board of Education to require all probationers who have yet to pass their APC to continue their PQSL (by way of CPD in not less than 60 hours over a three year period), even though their PQSL training hours have been fulfilled.

Further to the revision of the APC (BS) Rules and Guide in March 2007 to tighten up the administrative arrangements so that candidates would not misconceive that they could unduly delay and prolong their APC, we found the response to the revision was quite encouraging. It was observed that there were significant increases in both the submission of Critical Analysis and the application of Final Assessment and many candidates have passed. However, there were still many candidates whose APC (TPC in some cases) were deemed to be terminated as they failed to meet the deadlines stipulated. Some candidates applied and were re-admitted to the APC so that they could continue their pursuit of professional qualification but each application was assessed on an individual case basis.

A status update for the APC Assessment in 2008: between 1 January to 30 October 2008, 119 Final Assessments were conducted and 70 candidates passed. The passing rate was approximately 58.82%. Regarding the Critical Analysis, 221 applications were assessed and 82 passed. The passing rate was around 37.10%.

On the other hand, the Practical Task 2008 was conducted during 5 to 8 November 2008. 43 candidates out of 94 passed. The passing rate was about 45.74%

## INITIATIVES ON PLANNED BUILDING MAINTENANCE

In order to promote and facilitate the implementation of planned building maintenance, we have started to prepare a series of publications which would help:-

- a) To promote the culture of planned building maintenance among private building owners;
- b) To set relevant guidelines for our members;
- c) To streamline the process to lower the administrative cost associated with maintenance works;
- d) To set standards for maintenance works; and

- e) To prepare standardized conditions of engagement and fee scale for consultancy agreements.

As an on-going process to promote Planned Building Maintenance, we have been working closely with the Quantity Surveying Division and other organisations including the Hong Kong Housing Society and the University of Hong Kong. The following are publications which have been completed or are in the draft stage:-

- Practice Guidelines for the Survey of Residential Property

- Layman Flat Inspection Guide - “準業主收樓指南”

- Video titled:- “物業保值有何良策、樓宇維修及早計劃” for promotion of planned maintenance

- General Specification for Maintenance Works

- Standard Form of Contract for Decoration, Repairs and Maintenance Works – “裝修、維修及保養工程標準合約”

- Standard Form of Contract for Maintenance Works

- Practice Guidelines for preparing a Maintenance Manual

The completion of the publications would make a statement helping to establish our recognition and authority in the expert areas.

## VOTE OF THANKS

With the help and support from Office Bearers, Council members, Co-opt members, Young Surveyors Group and an increasing number of active young members, we have completed some of the above tasks successfully this year. I have to express my sincere gratitude to all of them who have devoted a lot of their time in the Council for the future development of the Building Surveying Profession. I wish the incoming Council a more successful and better new term.

### A Challenging Year

One year ago when this Council commenced its two-year term of office, both the stock and property markets were blooming with the Hang Sang Index double the current level. At that time, I am sure no one would have anticipated the coming of the financial tsunami and its disastrous impact on our economy within just a few months. While this financial tsunami has caused much damage to us, it has at the same time taught us a good lesson that we have to always make ourselves prepared for changes and ready for opportunities. While individual members may have their own ways to deal with the challenges ahead, the Council will continue to endeavour to work for our members, creating the best environment for them to meet such challenges.

### Education Committee

Apart from the perusal of interim reports and approval of diaries, the Education Committee had organised three workshops (19 July, 26 July and 30 August 2008) jointly with YSG to help APC candidates prepare for their APC.

The Committee is also in the course of reviewing the

Rules and Guide of the APC, aiming at having the review completed next year.

For the written APC held on 8 October 2008, 39 out of 72 candidates passed the written assessment, representing a passing rate of about 54%. Together with 17 referrals, there were 56 candidates sitting the Oral Assessment to held on 8 December 2008.

### Continuous Professional Development Panel

During the past year, ten CPD events, covering a wide spectrum of topics have been held to cover such areas as property marketing, land administration, investment, property law and REITS. We were delighted to have speakers who are our senior fellow members, experienced practitioners as well as professionals from other professions for the following topics:

### Public Relations Panel

Officials from the Rating and Valuation Department, Lands Department and Property section of the Urban Renewal Authority were invited for lunch gatherings to exchange views on the development of our profession.

We were delighted to have guests from our mainland counterparts to join our HKIS Annual Dinner on 3 November 2008. They were 廣東省房地產估價師與房地產經紀人學會勞應勳會長，劉瑞萍秘書長；廣東省土地估價師協會胡紅兵會長，謝戈力常務副會長，薛紅霞秘書長；深圳市不動產估價學會李加林常務副會長，程家龍副會長。 We were also pleased to have Mr Alnwick Chan, Ms Susanna Kwan, Mr K K Mok,

Mr Kenneth Pang, Mr S K Pang, Mr P K Tang and Mr William Wan, who have spent a lot of time serving our Division, joining the Annual Dinner with us.

### Professional Practice Panel

The Professional Practice Panel was co-convened by Simon Cheng and Tony Wan. During the period, three panel meetings were held on 19 February, 19 May and 2 October 2008 respectively. Various hot topics such as the provision of public facilities in private developments, urban design study for the new Central Harbourfront and the review of the Code of Measuring Practice relating to Saleable Area were actively discussed with useful comments put forward to the Council.

With the help of the Professional Practice Panel, a HKIS paper on the provision of public facilities in private developments highlighting the views of HKIS was presented to the Legislative Council's Panel on Development at its meeting held on 31

May 2008. Special thanks to Alan Ho, Alnwick Chan, Andrew Fung, Charles Chan, Cliff Tse, Eugina Fok, Eric Ho, Jim Lam, Simon Cheng and Tony Wan who have contributed their valuable views and input for this paper.

For saleable area, we were pleased that both the government and other stakeholders have now agreed to follow the definition and measurement method adopted by the HKIS, which reassures the leading role of the Institute. Although the GPD has taken the lead in this review exercise, the concerted efforts of other Divisions should not be ignored.

### Business and Property Valuation Panel

Due to recent changes to the financial reporting standards and the development of the commercial sectors, the Business and Property Valuation Panel is in the process of reviewing and rewriting, if necessary, the HKIS Business Valuation Standards and the Property Valuation Standards to meet the current changes in Hong Kong. The tentative schedule is to have the revised and combined standards presented for public consultation in May 2009 and effective in November 2009. Panel members are now being subdivided into several small working groups to study relevant details of the standards and are targeting to have the preliminary draft available for discussion in February 2009.

During this period, the panel will form a working group to study the relationship between the Hong Kong valuation and financial reporting standards and hope to conclude a guidance note for members in early 2009.

### Sales and Marketing Panel

The HKIS Property Marketing Award was one of the remarkable events during the year. With the hard work of the organising committee under the chairmanship of Mr Ronald Cheung, the presentation ceremony was successfully held on 4 November 2008 and widely reported by the media.

### Vote of Thanks

Finally, I would like to take this opportunity to express my wholehearted thanks to all the Council members, Committee and Panel members, and other members in various working groups and subcommittees for their efforts and hard work, without which our Divisional works would not have been so successful. With their continued support, I have confidence that we can advance our profession to a new height and turn crisis into opportunities.

## Land Surveying Division

SUNG Hon Kwong  
Chairman

**M**y second year in office passed quietly without much controversy though the world is now frustrated by the economic tsunami, which unavoidably affected most of us land surveyors. I just hope that the economic turmoil will be over very soon and the world economy returns to the right track.

Through the hard work of our Council and members, the Council has done a lot of things which I will detail in the following paragraphs. Without the hard work of the Council and the members who helped, we just could not have achieved so much. I therefore wish to thank all the Council members and Office Bearers for their dedication in the work of the Division. I also wish to thank all committee/working group chairmen and members for their contribution to keep the business of the Division so successful.

### International Affairs

#### *The XXXI FIG General Assembly & FIG Working Week 2008 in Stockholm*

The XXXI FIG General Assembly and FIG Working Week 2008 was held in the City of Stockholm, Sweden, in June 2008. A delegation of six from HKIS participated in the event. As the host of the last FIG General Assembly, I was nominated to be one of the two tellers of the Assembly to assist in the elections of Vice Presidents and Commission Chairs elect. Same as in the past, the event was a huge success. Being a member of a truly international organisation, I just wish that every one of us could treasure the chance of seeing the world and meeting the experts by participating in this meaningful event organised by FIG.

### Mainland Affairs

#### *Mutual Recognition with the Registered Surveyor of the Mainland*

A delegation of the HKIS attended a meeting in Beijing arranged by the Development Bureau and the Ministry of Construction (建設部) on 18 January 2008 to discuss the follow-up actions after the signing of the CEPA IV arrangement. The representatives from HKIS included the Senior Vice-President, Mr Francis Leung, the Honorary Secretary, Mr Lesly Lam, the Vice-Chairman of LSD, Mr Simon Kwok, and I discussed with the officials of the State Bureau of Surveying and Mapping the possibility of a mutual recognition with the newly established qualification of Registered Surveyors (測繪師) of the Mainland. Some consensus was reached but further meetings would be required before anything fruitful could be materialized.

#### *Visit of the Association of the Survey, Mapping and GIS of Huizhou*

On 22 November 2007, 15 members of the Association of the Survey, Mapping and GIS of Huizhou (惠州市測繪與地理信息系統協會) visited our Institute. Mr Lesly Lam, the Honorary Secretary, Mr Simon Kwok, our Vice-Chairman, Mr Ted Chan and Mr Ronald Chan met the visitors to introduce to them the work and organisation of our Institute.

## Local and Institutional Affairs

### *Technical Visit to Zhongshan*

As a regular liaison with our counterparts in Guangdong, LSD had organised a technical visit to Zhongshan (中山) between 10 to 12 April 2008. We had met government officials of Zhongshan and land surveying professionals of Macao, Zhongshan, Shenzhen and Huizhou to share the achievement and development of the three regions. We had also visited sites of interest to surveyors. The next visit is scheduled for spring 2009 and the target city to visit would be Zhan Jiang (湛江).

### *Meeting the Permanent Secretary for Development (Works)*

Some members of the General Council had met Mr MAK Chai-kwong, Permanent Secretary for Development (Works) on 13 June 2008 to exchange views of the development and problems of the surveyors in general. Among other things, we had talked particularly on the issue of registration of surveyors and the contribution of surveyors to the society. We were able to convey our views and concern on the issues of land boundary survey plan for land transaction, professional staff strength in consultancy projects, land registry and land information system of Lands Department etc to Mr Mak.

### *Recognition of Technical Associate membership by the Government*

Mr T N Wong, as the representative of HKIS, had met together with representatives of the Hong Kong Institution of Engineers and Hong Kong Institute of Architects, officials of the Development Bureau to discuss about the recognition by the government of the Affiliate/ Associate/ Technical Associate (TA) membership of the three institutes. The three institutes suggested the government to take the TA membership as an alternative route for entry to the basic ranks of the relevant grades in the government and for outsourcing projects. Incremental credit and promotion criteria for TA membership were

also suggested by the institutes during the meeting. Though there were views of reservation and objection during the staff consultation exercise, the Bureau had agreed to focus their attention on exploring the different means for recognition to be implemented in outsourcing projects and further views on possibility of recognition as an alternate qualification for recruitment in the government. The study on possible promotion criteria and the incremental credit would be a longer term option.

### *Research Project in Title Registration System of Hong Kong*

Dr Conrad Tang, Mr Simon Kwok and Mr George Leung are now engaging in a research project funded by HKIS. The objectives of the project are (i) to identify the characteristics of a suitable land boundary survey system for the title registration system of Hong Kong by comparing land boundary survey systems in terms of legal and institutional framework of advanced countries; (ii) to investigate how a suitable land boundary survey system can best protect Hong Kong people's right to land and boundaries; and (iii) to identify distinguished steps of developing such a land boundary survey system in Hong Kong. The members will visit other countries to learn a bit more about the systems of other countries. A report on the study should be ready in the near future.

### *CPD Events*

LSD arranged quite a number of CPD events for members in the past year. The notable one was a technical visit to the Stonecutters Bridge construction site on 12 January 2008. The function attracted 36 participants from LSD and other Divisions. The Chief Resident Engineer of the Consultant, Mr Peter J Lowther, gave a vivid introduction to the technicality and progress of the construction of the bridge. With suitable lighting in the night, the completed bridge will become a new gem of the Victoria Harbour night view. Mr Lowther also led us to the showroom where sophisticated models of the bridge and the road network were displayed. Lovely photomontages were shown. According to Mr Lowther, the bridge would probably be open to the public before mid 2009. We were lucky to be able to go up the newly built bridge deck to enjoy a magnificent view of the bridge tower, the Kwai Chung Container Port Terminals and the busy Rambler Channel. Another CPD worthy of mentioning was the one titled "Cadastre - The tool for understanding the land market, supporting sustainable development and

enabling the government and the society" delivered by Professor Ian Williamson, Professor of Surveying and Land Information, the University of Melbourne, Australia, AM, FTSE, FISA, FIEA, FRICS, Hon FMSI, Hon member of the International Federation of Surveyors, who visited Hong Kong in early October 2008. The CPD attracted some 90 members and I am sure that those who participated had benefited from the event.

## Hong Kong Polytechnic University LSGI

### Advisory Committee for the Department of LSGI, HKPU

I attended the Advisory Committee for the Department of LSGI, HKPU held on 13 October 2008. The meeting was chaired by Mr WONG Chung-hang, our Past President. Professor Ding and his fellow professors introduced the development of the relevant courses in the Department.

### Visit to HKPU LSGI

LSD Council members visited the Department of Land Surveying and Geo-informatics of Hong Kong Polytechnic University on 29 October 2008 and discussed various issues with Professor Ding, Professor Esmond Mok, Dr Conrad Tang and other teaching staff. Co-operation suggestions were put forward and would be implemented in the year to follow. We had dinner with the teaching team afterwards.

## Conference

### The 5th Across-the-Strait Geomatics Conference

As one of the organisers of the event, Mr Dominic Siu, our past Chairman of LSD, and myself represented HKIS to attend the 5th Across-the-Strait Geomatics

Conference (海峽兩岸測繪發展研討會), which was held between 18 to 21 November 2007 in the Chiao Tung University (交通大學) of Hsin Chu (新竹市), Taiwan. The event was well attended by over 100 participants. The next Conference will be held in Macao in October 2009 and a preparatory meeting is being planned before the event.

## Social Functions

### LSD Annual Dinner

The LSD Annual Dinner was held on 17 October 2008 at the Eaton Hotel in Kowloon. Honourable guests included the Hon Professor Patrick Lau, our representative in the Legislative Council, Professor Ding Xiao-li, Head of the Department of the Land Surveying and Geo-informatics of the Hong Kong Polytechnic University, and Senior Vice-President of HKIS, Mr Francis Leung. About 70 guests and members enjoyed a night of good food, chances of relinquishing old friendship and acquainting new ones. Fabulous prizes were given out to the lucky ones of the night. The change of venue from the traditional Jockey Club in Happy Valley to the Eaton Hotel is a response to the members' quest for a more convenient location for such event. The change did attract some more members but not as much as we thought. We will review the situation before deciding on the venue for next year.

## Conclusion

I think the LSD Council had accomplished a lot this year. The hosting of the 6th Across-the-Strait Geomatics Conference in 2009 goes to Macao thus we are spared for one year. There is every chance that we will have to take up the challenge in the not too distant future. Your contribution will certainly be sought if Hong Kong is committed to hosting the event.

Though the recognition of our Technical Associate membership by the government is still forthcoming, I am pretty confident that it will finally come when the effort of the Board of Membership comes to fruition. The strength of our Technical Associate membership stands at 47 as at 31 October 2008 and we might need a bit more to convince the government of our representativeness in this.

Having worked very hard on the policy deliberation on the joint APC scheme with RICS, the working group concluded that it is still premature to have such cooperation, particularly that the support from the General Council is still missing. The issue might be brought up again when the necessary condition presents.

The mutual recognition with the Registered Surveyors of the Mainland is still slim and there is still a long way before the issue comes to fruition.

With the support of members, our CPD turn-up rate was high. I hope you will continue to support your Council so that we can achieve even more in the coming years.

# Divisional Council & Young Surveyors Group Reports

## Planning & Development Division

Edwin TSANG  
Chairman

**Y**ear 2008 was a quiet but extraordinary year. It was extraordinary in that, firstly, 2 council members of the Planning and Development Division (PDD), Mr YU Kam Hung and Mr Stephen Yip, elected in the last PDD AGM 2007, was elected as President and Vice President of the Institute. Secondly, the PDD had a breakthrough in introducing the work of the Planning & Development Surveyors in the Mainland. The Chairman of the Division as Vice Chairman of the Mainland Committee helped to lead a study trip to Beijing and Shanghai and visited the Ministry of Housing and Urban / Rural Construction, the Institute of China Real Estate Appraisers and Agents, the Peoples' University in Beijing and the Shanghai Real Estate Appraisers Association and Tung Che University. The work of the Division was introduced to counterparts in the Mainland. Thirdly, the Division organised a CPD event in Health Management for all professional institutes in development ie the Hong Kong Institute of Architects, the Hong Kong Institute of Planners, the Hong Kong Institute of Landscape Architects and the Hong Kong Institute of Surveyors. Fourthly, the Division proposed the first joint Fellowship Dinner for General Practice Division and PDD, which will be held in January 2009.

### Membership Development

Recruitment of new Corporate Members through the P&D APC examinations was slow despite the APC Examination System having already started since 2004. However, the admission of members through multiple membership arrangement is promising.

As at 1 December 2008, membership in PDD stands at 31, including 11 Fellows and 20 Members, with an increase of 24 members from 7 members in 2004. In addition, there is one student and 2 probationers.

### Education

The Surveying Course in University of Hong Kong has been reaccredited, including the recognition of the undergraduate P&D stream and MSc course in Real Estate in P&D. A study visit to universities in Beijing and Shanghai was conducted in conjunction with the Mainland Committee in October 2008. The study visit revealed that the undergraduate land administration courses offered by the universities visited were rather broad and comprehensive.

The Division is exploring opportunities for requesting the leading universities in the Mainland to introduce post-graduate courses in planning and development for practicing appraisers to extend the scope of their services to related fields, such as planning and development, the work of which would otherwise be taken over by other persons in the property field.

### Institute Events

The Division took the lead in organising the Mainland Committee's visit to Beijing and Shanghai in October 2008. The Division also participated in the FIG Forum on "Valuation and Property Protection" jointly organised by the Institute of China Real Estate Appraisers and Agents, FIG and the Hong Kong

Institute of Surveyors in Beijing in October. Earlier in the year, the Division took part in the International Estate Evaluation Summit Forum in Guangzhou in July 2008.

### Joint Professional Events - Guangzhou Trip for Property Professionals on 7 July 2008

PDD has actively taken part in many joint professional events. In July 2008, at the invitation of the professionals of the Architectural, Surveying and Planning Functional Constituency, we joined a trip to Guangzhou and had liaison with officials, professionals and mainland developers to exchange views and explore business and co-operation opportunities in Guangzhou and Pan-Pearl River Delta. Enhanced CEPA arrangements were also discussed.

### CPD Event

A CPD Event on "Health Management in the Workplace" was organised for Architects, Planners, Surveyors, and Landscape Architects in August. About 100 persons attended the event. The end of the year CPD site visit to the Mainland was deferred as the event clashed with the Mainland Committee's visit to Beijing and Shanghai.

### Active participation in Institute Activities

The Division's representatives took active part in the General Council, Executive Committee meetings, Board of Education, Board of Membership, Board of Professional Development, Annual Conference and

Annual Dinner, visit to the Ministry of Construction in March 2008, Quality Building Award 2008, HKIS Property Marketing Award 2008, other committees and field visits of the year.

### Fellowship / Sports

The membership has been steadily increasing. It is proposed to organise a fellowship dinner jointly with the General Practice Division in January 2009. The Division has proposed to the HKIS Sports and Recreation Committee to form a table tennis team for inter-institutes' matches in addition to other sports events.

### Way Forward

Year 2009 will be the second year of the term of the current Council. We anticipate extending membership and upgrading the image of the Division.

#### 1 Institute Events

The Institute will be organising an Annual Conference in Urban Regeneration in 2009 and celebrating its 25th Anniversary. The Division shall take active part.

#### 2 Promotion of PDD

The introductory leaflets of the Division have been written for quite some time. The Division will be updating the marketing materials such as capability statements, flyers and brochures in 2009, and promoting the Division to Government Departments, universities, corporations and counterparts in the Mainland.

#### 3 Promotion campaign

There are quite a number of surveyors with substantial experience in Planning and Development and have not yet joined the Division. A promotion and recruitment campaign will be lodged.

#### 4 Co-operation with Universities in Mainland

The Division is exploring opportunities with the GP Division to encourage post-graduate courses in leading universities in the Mainland to maintain closer relationship and to broaden our vision in future careers.

## Property & Facility Management Division

Kenneth CHAN  
Chairman

### Current Membership Status

The membership of the Division as at 24 November 2008 runs at a total of 712 including 81 Fellows, 611 Members, 12 Probationers and 8 Students.

Let me recap some of the highlights of the year 2008.

### The New PFMD Council 2007-2009

The following members were elected during the AGM on 29 November 2007 to form the new Council for a term of office of 2 years expiring at the AGM in 2009 with the following office bearers:

|                    |                      |
|--------------------|----------------------|
| Chairman           | Kenneth CHAN Jor Kin |
| Vice-Chairman      | Gary YEUNG Man Kai   |
| Honorary Secretary | Dick KWOK Ngok Chung |
| Honorary Treasurer | Alan WONG Shing      |

### Council Reception and Small Chow

We had a very pleasant evening immediately after the AGM on 29 November 2007. We all enjoyed tasting the new wine from Beaujolais – Beaujolais Nouveau 2007, pizza, pasta, mussels, etc. It was a memorable evening in that members could chat freely and the event had inspired us somehow about the continuous development of the Division.

### Qualifications on PSA/PSC Tenders in Housing Department

The Housing Department had confirmed on 14 February 2008 that the qualification of Property and Facility Management Surveyors for the post of Estate Manager (Property Management) in the PSA/PSC Contracts in Housing Department. In a recent meeting in late January 2008 with the Services Support Unit of the Housing Department, we have been given to understand that persons holding professional

membership qualification of the Hong Kong Institute of Surveyors in the Property and Facility Management Division will be included in the next batch of tendering for PSA/PSC alongside with HKIS(GP) qualification.

### Green Management Practice Guidelines for Surveyors

Charles C K Hung is heading up a working group in the preparation of suitable practice guidelines for surveyors in the green management of properties and facilities. The Council has set a target for such guidelines on residential properties and commercial

properties to be completed within the year 2008 and 2009 respectively.

### Local Degree Courses Accredited for APC of the PFM Division

The Division has recently accredited the BSc(Hons) degree in Property Management from the Hong Kong Polytechnic University as well as the BSc(Hons) degree in Surveying and the MSc degree in Real Estate (Major in Facility Management) from the University of Hong Kong for Probationer membership of the Division and undertaking the Assessment of Professional Competence. Subject to further review, the Division will also accept candidates who had obtained Surveying degrees recognised by the Building Surveying and General Practice Divisions of the HKIS engaging in property facility or related asset management to commence training for the PFMD APC.

### Meeting Undergraduate Students in Property Management and Surveying of the Hong Kong Polytechnic University on 8 March 2008

The degree course in Property Management offered by the Hong Kong Polytechnic University is the

first such course accredited by the Property and Facility Management Division. As the first batch of graduates will be turned out this summer, it is opportune for the Division to meet the students and potential APC candidates there. Eight members of the Divisional Council met about 50 students including final year ones. First and second year students also gathered in the hall during Saturday afternoon to listen to our presentations. I briefly introduced the expertise of surveyors in the field of property and facility management and background information concerning the formation of the Division. Council members Kenny Chan and Gary Yeung shared about the APC requirements and employers' perspective on the expectation of graduates entering the profession. Ms Rebecca Mau, one of our co-opted council members shared the challenges in her road to becoming a professional surveyor in property and facility management.

After the structured presentation, attendees broke into groups and council members had a good chat with them. I am sure they learnt more about the opportunity of the profession and in becoming a professional surveyor in property and facility management.

### HKIS Visit to Beijing in March 2008

The Honorary Secretary, Dick Kwok and Vice Chairman, Gary Yeung joined the HKIS delegation, led by the President and comprising all six Divisions and YSG, in a visit to Beijing on 16 to 18 March 2008. The delegates met the former Ministry of Construction (now renamed as 住房和城鄉建設部), United Front Work Department of The CPC Central Committee (中共中央統戰部), Ministry of Commerce (商務部) and Hong Kong and Macao Affairs Office of State Council

(國務院港澳事務辦公室). The purpose of the visit was to raise members' opinion on the difficulties to practice in the Mainland although they had obtained qualification to membership of various professional institutes. During the visit to the Ministry of Construction, I had taken the opportunity to discuss with the Department of Personnel and Education of the MOC and its Director had promised to assist in liaising with the 物業管理師協會. While back in Hong Kong, Gary has formally written to the MOC on 3 April 2008 as a follow up of the Beijing visit and to try to explore the possibility of reciprocal recognition between our PFM members and the 物業管理師 qualification in the Mainland.

### Green Property Management

Gary and I were interviewed by Hong Kong Economic Times in April and the content was published in the newspaper on 30 April. For those of you who have missed the publication, I would like to recap some of the issues discussed in the interview.

It is essential that an organisation intending to embark on green property management should first familiarise themselves with the international quality management system on environmental management practices, namely: ISO 14000. By adopting ISO 14001, clear environmental objectives and plans could then be drawn up and steps to collect data information to measure and evaluate performance could then follow. Involvement of owners and tenants at large will enable the success of introducing environmental schemes.

### CPD Events

The first CPD event was held in the evening of 20 May 2008 on the topic of "REIT – Is it a safe bet in a volatile market?" The speaker was our President, Mr YU Kam Hung. Despite the heavy rain that day, about 80 members attended this event and Mr YU gave some insights and hints on REIT as one of asset management tools.

The second event was held on a sunny morning of 24 May 2008 on a visit to **Bethanie**, which was a historic sanatorium with a chapel that was granted to the Hong Kong Academy for Performing Arts (APA) and subsequently conserved with necessary renovation work to enable the complex to become the second campus of APA as the School of Film and Television. The speaker, Mr Nelson Ho, Estates Manager of APA gave us a briefing on the history and the process of obtaining the complex including the adjacent octagonal cowshed from the government as well as on the renovation work carried out on site. Nelson then provided us with a guided tour around the complex and its facilities. The Chapel has become a popular venue for wedding ceremonies. The visit ended with group photos at the front entrance to the Chapel.

### Guide to Property Management Practice

Some members, especially the ex-Property Management Committee members, may remember that in year 2001, a draft "Code of Property Management Practice" had been drawn up and was intended to be published for HKIS members' reference in practicing day-to-day works of property management and maintenance. After some extensive discussions and failure to resolve some crucial issues, the draft "Code" had been shelved since then. The earlier PFMD Council Meeting had agreed to revitalise the draft "Code" and intended to re-write it as a more user-friendly "Practice Guide". With the agreement of the majority of the ex-Property Management Committee members, a Working Group led by Daniel Hui has been set up and comprise members from both the PFMD Council and ex-PMC members including Professor Eddie Hui, Alan Wong, Kenny Chan, Daniel Kwok, Oliver Chan and Gary Yeung. The initial contents of the draft "Practice Guide" will include such headings as: Introduction, Management Operation Procedures, Security Service, Cleaning Service, Repair and

Maintenance, Financial Management, Procurement and Tendering Procedures, Emergency Procedures, Deed of Mutual Covenant and Tenancy Management.

### Registered Professional Housing Manager

The PFMD Council had re-opened dialogue with the Housing Managers Registration Board in pursuit of recognition of PFM surveyors to become Registered Professional Housing Managers. Our Vice-Chairman and Honorary Secretary met the Chairman of HMRB, Mr Kelvin Yau, on 13 June 2008 and the response was positive. The President of the Hong Kong Institute of Housing, Mr Henry Chan, joined the meeting and both the HKIH and HKIS(PFMD) agreed to form a working group to explore further cooperation and possibly reciprocal recognition. In the PFMD Council Meeting of 14 July 2008, a Working Group comprising Gary Yeung, Kenny Chan and Charles Hung was formed to look further into this matter.

### World WorkPlace and Expo 2008 Dallas, 15 to 17 November 2008

Dick KWOK and I represented the Institute in attending this year's World WorkPlace and Expo organised by the International Facility Management Association on 15 to 17 November 2008 held at the Dallas Convention Centre, Dallas, USA. It was a very exciting and refreshing experience in listening to keynote speeches by world class scholars, education sessions in the latest development in FM practices by researchers and practitioners, browsing the exhibition, visiting new facilities and meeting friends and FM professionals gathered there from around the world.

### Voluntary Building Classification Scheme

A 'Voluntary Building Classification Scheme (VBCS)' for the management and maintenance of residential

buildings is being looked at by a Task Force supported by the Hong Kong Housing Society as a supportive measure for the proposed 'Mandatory Building Inspection Scheme (MBIS)'. This scheme is expected to be launched one year before the MBIS. Buildings being successfully assessed shall be granted with a certificate and exempted from the MBIS.

PFMD would like to draw to members' attention that Registered Professional Surveyors (PFM) has been included in the list as Qualified Property Manager under the assessment of Building Management System, as decided in the Assessment Criteria Sub-committee meeting in July 2008. Our Honorary Treasurer, Mr Alan Wong, represents our Division as one of the members of this Sub-Committee.

A briefing for the second trial of building assessment was also conducted on 5 September 2008 in the presence of participating Incorporated Owners and Management Companies. Under the smooth schedule, this scheme will be probably launched in 2009/2010.

#### **Memorandum of Intent on Collaborative CPD**

I represented the Institute on 11 October 2008 to sign the Memorandum of Intent (MOI) entered into by six organisations, namely: the Research Centre for Construction and Real Estate Economics of the Department of Real Estate and Building, the Hong Kong Polytechnic University, Institute of Shopping Centre Management, RICS Hong Kong, the Hong Kong Institute of Facility Management, the Hong Kong Institute of Housing and the Hong Kong Institute of Surveyors.

Following the signing of this memorandum, it is anticipated that a series of nine high level CPD lectures will be organised for members of the professional institutions. They will be conducted about once a month on a Saturday afternoon for members' knowledge management pursuits.

#### **Research and Development**

The research paper on "Benchmarking of Maintenance and Management Fees for Residential Housing in Hong Kong" prepared by City University of Hong Kong is being finalised for promulgation in early 2009. Another research in the same subject area in respect of Office Buildings will be undertaken by the Hong Kong Polytechnic University.

#### **Property and Facility Management: Opportunities and Challenges**

The signing of the MOI was succeeded by a conference with speakers from shopping centre management, mainland property management guru and university research centres on real estate. The event was organised by The Research Centre for Construction and Real Estate Economics of Department of Real Estate and Building of The Hong Kong Polytechnic University and well attended by practitioners and members of the institutions and HKIS members.

#### **Good Practices in the Procurement of Professional Consultancy Services for Major Renovation Works**

The first of such the series of good practices suggestions on the Procurement of Professional Consultancy Services for Major Renovation Works was published in October 2008.

## Quantity Surveying Division

Stephen LAI  
Chairman

**A**t the beginning of my term of office as Chairman, I set out a number of goals to be achieved in this Council year.

I am delighted that most of my tasks set out have been accomplished with the effort and assistance of the Council Members, Committee Members and all other members. It gives me great pleasure to share them with you as follows:

### PROMOTION OF QS PROFESSION

With the increase of developments within Hong Kong, China and Macau, and the decreasing supply of QS from the universities in Hong Kong, it is foreseeable that there will be a great demand for quantity surveyors in the coming years.

The Council had identified the immediate needs to promote the profession not only in the universities but also in the secondary schools. The following events were organised:

#### *Video for QS Profession*

In order to attract and encourage more students and graduates to join our profession, the Council decided to produce its own video introducing the roles of QS profession to the public and the target group. A sub-committee led by K S Yam, including Avan Fan, Ricky Chan and Sunny Chan, was formed to take care of the tendering, design and production process.

A production company was appointed in May 2008 after a short-listing and tendering exercise.

We are now in the final stage of the production of a promotional video for QS profession.

#### *Seminar on Quantity Surveyors' Road to Success*

"Quantity Surveyors' Road to Success" was held on 28 October 2008 at the Surveyors Learning Centre for the public.

The organising committee was led by Ricky Chan and Joseph Chong. Career Times, one of the most popular human resources companies was appointed to provide networking in human resources.

The purpose of this Seminar was to enable students and the public to have a better understanding on quantity surveying profession, nature of the professional works as well as the career path entering the profession. Four eminent speakers from different posts of the Quantity Surveying profession were invited for the Seminar. They were: Mr Francis Leung, Senior Vice President of HKIS, signified the role of quantity surveyors in Hong Kong's infrastructure with a chain diagram of construction process. Dr Paul Ho, the head of the Division of Building and Technology at City University of Hong Kong, shared his views on career building. He revealed the keys for climbing up the career ladder. Ms Joanna Kwok demonstrated her path in joining the profession after graduating from university. As Chairman of QSD, I shared my views on mutual recognition and industry prospects over into mainland China.

The event attracted about 150 visitors, 50% were members of Career Times, and the remaining 50% were students from University of Hong Kong, Hong Kong Polytechnic University, City University of Hong Kong and secondary schools. The seminar was well commented by all parties.

### *University of Hong Kong Info Day*

On 18 October 2008, Joseph Chong, our Council Member, attended the annual Information Day at the Department of Real Estate and Construction, the University of Hong Kong. He introduced the quantity surveying profession to some secondary school students at the HKIS booth as well as giving a seminar to about 50 attendees.

The Information Day turned out to be a great success and attracted a large number of secondary school students to our HKIS booth. Joseph answered enquiries from students and parents. In addition, he promoted the Career Times "QS Road to Success" to the participants.

### *Jupas Open Day in City University*

New young blood is vital to the sustainability of the Quantity Surveying profession. The school leavers should have a chance to know about quantity surveying prior to making their applications to the Universities. This year, besides the Seminar on QSs' Road to Success, they also had another opportunity to learn more about the QS profession in a presentation delivered by our Vice Chairman, Mr Daniel Ho, in the JUPAS open day in City University of Hong Kong on 11 October 2008. About 200 school leavers attended the presentation. They were briefed about quantity surveying services, job opportunities and how to become a qualified quantity surveyor. Hopefully, they will join us in the near future.

### *Poly University Visit*

A visit to Hong Kong Polytechnic University arranged for surveying undergraduates by the HKIS Board of Education, was held on 18 November 2008. Led by Mr K C Tang, Vice Chairman of Board of Education, representatives from the six Divisions together with YSG, presented the professional services and prospects of individual Divisions in order to let the students have more understanding prior to selection of their major subject. The Quantity Surveying Divisions was represented by Mr Antony Man, Honorary Secretary of the Division.

### *City University – Chinese Foundation Students*

I made a presentation to about 60 Chinese Foundation Students at the City University of Hong Kong on 14 November 2008. The purpose of the visit was to enable the Chinese students to have an understanding of quantity surveying profession. Hopefully, they will choose to study the QS course.

The Head of Department of Building and Construction, Professor S Kitipornchai, commented after the presentation that this kind of event should be held regularly for their students.

### *Visit to IVE (Morrison Hill)*

Mr Ricky Chan and Mr Raymond Kam visited the Institute of Vocational Education (Morrison Hill) on behalf of HKIS QS Division together with Mr Jeffrey Wong representing the Young Surveyors Group on 22 April 2008. They met about 50 students who were studying the Higher Diploma in Surveying there. Graduates from this four-year full time course (also accepting entry to Year 2 of Study) are aiming to work either in the Quantity Surveying or Building Surveying fields.

## **MAINLAND**

### *Mainland / CECA Registration*

It was announced by the Ministry of Housing and Urban-Rural Department of the People's Republic of China (MOHURD) on 22 July 2008 that 65 applications for Initial Registration of Cost Engineer from the Hong Kong Region had been approved. These first 65 PRC Registered Cost Engineers from the Hong Kong Region are part of the 173 HKIS members who obtained the Qualification of Cost Engineers about two years ago under the Reciprocity Agreement between China Engineering Cost Association (CECA) and HKIS.

The distribution of these successful applicants included 15, 7 and 43 members registered in Beijing City, Shanghai City and Guangdong Province respectively.

A ceremony to present the certificates and chops was held at Crown Plaza Hotel in Shenzhen on 3 December 2008.

### *Official Visits to Shenzhen Construction Costs Management Department*

We paid a return visit to Shenzhen Construction Costs Management Department on 10 April 2008. Delegates included Stephen Lai, Antony Man, Tang Ki-cheung, Yam Kwan-sum, Thomas Ho, Anthony Lau, Michael Yu and Paul Yeung. ## PUBLICATIONS AND TECHNICAL PAPER

### *Standard Form of Building Contract for Decoration, Repair and Maintenance Works*

The Contracts Committee of QS Division announced that a new Standard Form of Building Contract for Decoration, Repair and Maintenance Works drafted by Dr Paul Ho, past QSD Chairman, was completed.

This Contract is designed for use in decoration, repair and maintenance works with a small contract sum. If the work is of a complex nature or the contract sum is larger than HK\$400,000 (at 2008 prices), the Minor Works Contract or even the Main Building Contract should be used.

This Contract is expected to be administered directly by a layman, i.e. the building owner without appointing any building professional consultant. Thus, we have tried to make this Contract easy to understand by using plain English and without much technical or legal jargon (like variation, extension of time, valuation of variation, liquidated damages, etc.).

### *Position paper of the Hong Kong Institute of Surveyors on Security of Payment*

In response to a request from Mr TT Cheung, our representative in the Construction Industry Council (CIC), a Working Group of QS Division led by Mr Daniel Ho, including Mr TT Cheung, Mr KC Tang, Mr Bernard Wu and Mr Gregory Tung, was set up to look into the matter in April 2008. A position paper was prepared after a series of meetings among the members. An extract of the position paper is as follows:

Views of the Hong Kong Institute of Surveyors (HKIS) have set out in response to requests from some stakeholders in the construction industry for legislation for security of payment which subject has been raised in the Committee on Sub-Contracting of the Construction Industry Council ("CIC").

# Divisional Council & Young Surveyors Group Reports

## Young Surveyors Group

Joseph WONG  
Chairman

2008 was a remarkable year for the Young Surveyors Group (YSG). We conducted a variety of activities including educational courses, social events, charity functions and inter-professional alliance. We have successfully held 46 events which are listed in Appendix I.

We participated in over 30 HKIS events with other external institutes/ groups to promote the YSG.

The YSG Video was reproduced this year. It was launched during the YSG Annual Dinner and we received numerous positive feedback from our guests and members. This video will be used to promote YSG to the society and to the public.

We have also enhanced our internal communications and link with senior members by holding regular monthly meetings.

### CPD and PQSL events

The CPD events covered the areas of China studies, technical development, legal updates, contractual studies, railway projects, project management, investment and professional image consulting, etc. An auctioneer workshop was also jointly held with the Transport Department of the HKSAR Government and those attendees will be invited to be an Auctioneer in the coming Vehicle Registration Marks Auctions.

### Technical visits

Several technical visits were held locally and in the Mainland. The knowledge-enhanced visits included a furniture factory and paint warehouse in Shenzhen.

In October, a five-day study tour to Chengdu, Sichuan, was held successfully with the support from the Coordination Department of the Liaison Office of the

Central People's Government in the Hong Kong SAR. Several government offices, private developments and The Hong Kong Economic and Trade Office in Chengdu were visited.

### Charity Events

YSG formed a big team to join the charity walk namely, New Territories Walk - Route 8 (Tai Wai to Lai Chi Kok) on 24 February 2008. The total distance was approximately 6 km and there were numerous tunnels throughout the journey. We hope this activity can raise funds for the charity.

During our Study Tour to Chengdu, with the donations from our HKIS friends, a total of 150 gift sets (including a school bag, some scrap books, coloured pencils, pastels, ruler sets, pencil cases etc) were bought, packed and sent in person with our best wishes to the students of Taipingjie Primary School (都江堰太平街小學), who were affected by the 5.12 earthquake.

The Stanley dragon boat championship remains a challenge for us although practices started as early as February this year. We were the 2nd runner up in the Men's Heat, 2nd runner up in the Mixed Silver Bowl Final and finished the race with 10 other boats within 1/2 second in the Men's Silver Cup Final.

Other social events held included a Joint University BBQ at 西貢濠涌金喜花園, 香港測量師青年組與廣東省房地產行業協會同樂日, Rock Climbing Class, War Games and 5-side soccer competition.

In November, our YSG Annual Party was held successfully with lots of fun at Club Cixi in Central. The party theme was Masquerade and attracted more than 170 of our members and students as well as other young professionals in the construction industry.

### External activities

YSG continues to extend its network to other professional organisations as well as organisations related to our industry. Various events like Joint Professional Hiking, Joint Professional Junk Party, sports games, Joint Seminar and wine tasting session, etc were jointly held with HKIA (Hong Kong Institute of Architects), HKIP (Hong Kong Institute of Planners), HKILA (Hong Kong Institute of Landscape Architects), HKIE (Hong Kong Institution of Engineers), LSHK (Law Society of Hong Kong), CI Arb (Chartered Institute of Arbitrators), HKMA (Hong Kong Medical Association),

HKICE, HKIBSE, Gammon YPG, RICS Matrix, 廣東省工程造價協會, 廣東省建設監理人協會及廣東省房地產與經紀人協會, etc.

Through the Open Indoor Rowathon, HK Youth Network Meeting and Building Safety Carnival, we had extended our exposure to the local community.

The welcome drinks session with newly qualified members and school visits to the surveying students at the Hong Kong Polytechnic University and the University of Hong Kong could maintain a close tie with the new professional members, student members and probationers.

### Conclusion

Time flies! When I look back on my life as the YSG Chairman in the past twelve months, I have learnt a lot. I have seen the faith of our YSG Committee. Let me quote a famous phrase: "Don't ask what our country can give you but ask what you can give to our country". This can apply to the HKIS and our profession. As you may all know, the HKIS was founded by 84 members in the year of 1984. As at 28 September 2008, there were more than 7,200 members. In 24 years, we have made known the HKIS to the society and we need someone to continue to keep promoting and supporting our institute. One may ask what HKIS could give members after they have joined the membership and paid the high annual subscription fee. I always say: (1) You are rewarded by printing your professional title on you name card; (2) By telling others you are a professional surveyor; (3) By increment of salary after being qualified; and (4) By feeling more confident of being a professional. On the other hand, I would say: (1) You are the one who fly the flag of HKIS; and (2) You are the one who are promoting our Institute. In what way? By joining as a volunteer in the various committees, divisional committees and the YSG of HKIS. Please come forward and join YSG to start promoting our institute and profession.

Again, I would like to take this opportunity to thank the General Council and senior members for providing us a good platform to gain experience and broaden our horizon. I often tell our members that YSG can provide us with experience which could never be gained from our jobs. Though I am about to hand over my duties to the next YSG Chairman, I will continue my support to the HKIS and contribute to our profession and to the society.

In the coming council year, a new committee will be formed. With your support, I believe they are ready to face to all new challenges.

\*Experts serving in more than one Division

Accreditation of surveying courses continued to be pursued in accordance with the approved Policy and Procedures for Course Approval, Maintenance and Review. During the year, one local degree programme and one higher diploma programme were accredited. One mainland degree programme, one local degree programme and one overseas programme were under the assessment process.

The Board wishes to take the opportunity to express its appreciation to all members on the Panel of Experts who have contributed much of their time and energy to various vetting and assessment activities.

## Assessment of Professional Competence (APC)

During the calendar year of 2008, there were 297 new APC candidates (88 BS, 71 GP, 16 LS, 113 QS, 2 PD and 7 PFM). This represents an overall decrease of 2.7% over the 2007 figure of 305 candidates (66 BS, 83 GP, 15 LS, 131 QS, 4 PD and 6 PFM).

Apart from the P&D Division, Assessors of which are yet to be recruited, there are currently 173 BS, 207 GP, 78 LS, 538 QS and 3 PFM Assessors. The full lists of the Divisional Panel of Assessors are attached in the Annexes. The BOE wishes to record a note of appreciation to all the Assessors who have made much contribution to maintaining the professional standard of the new surveyors. In order to help APC candidates better prepare themselves for the assessments, the Young Surveyors Group in collaboration with the respective Divisions organised workshops and training programmes, which were well received by candidates.

The Practical Task of the BSD was held on 5 to 8 November 2008 with the involvement of some 91 assessors and moderators. A total of 94 candidates attempted and 43 (45.7%) passed. There were 57 candidates undertaking the Practical Task for the first time and 30 (52.6%) passed. Professional interviews were conducted throughout the year. A total of 160 candidates presented themselves in 2008 for professional interview and 95 (59.4%) were found satisfactory. A critical analysis is required upon completion of the 21st month of training. There were 277 candidates undertaking the analysis and 101 (36.5%) passed.

The Written Assessment of the GPD was held on 9 October 2008. A total of 72 candidates took part and 39 (54.2%) passed. Professional interviews were conducted for 56 candidates of whom 28 (50%) were found satisfactory.

During the year, 10 Land Surveying candidates applied for the Final Assessment and 8 passed (80%).

On 29 to 30 September 2008, 283 candidates attempted the Practice Problem of the QSD. The papers were each marked by three assessors and 82 (29%) candidates passed. Professional interview for 93 candidates were conducted and 71 (76.3%) were found satisfactory.

The Practical Task of PFMD was held on 22 November 2008. 2 candidates undertook the Practical Task and one passed. One candidate applied for Final Assessment and failed.

## Assessment of Technical Competence (ATC)

For the LSD ATC, two candidates were assessed and passed the final assessment.

The QSD ATC written and oral assessment was held on 9 May 2008 and 14 June 2008 respectively. Two candidates attempted and all passed the final assessment.

## Others

To cater for the needs of the industry, the APC and ATC systems have been undergoing constant review and improvements. The revised APC Rules & Guide for the BSD and LSD have been endorsed by the General Council in 2008.

In view that the alternative routes to HKIS Professional Membership was rather long and not appealing, Board members and Divisional Education Committees would review the APC and ATC systems and seek for modifications. In this regard, the Board discussed about the eligibility for entering APC for experienced students. Under the discretion of the Divisions, experienced students of the HKIS recognised course might be allowed to record their training experience concurrently with their study, but not less than 12 months of training experience should be recorded after the course completion. Board members agreed to formulate the divisional practice as HKIS policy and be applicable to all Divisions. A paper would be prepared and submitted to the General Council in due course.

It has been another busy but fruitful year for the members of BOE, DEC, Assessors and the Panel of Experts. I would like to take this opportunity to express my appreciation to all colleagues who have worked extremely hard and made significant contributions to the profession. Thank you very much for your dedicated service!

The following are some of the milestone events for 2007/2008:

- 1) The membership statistics for last year shows a general increase in members by 3.08% compared to last year with a total membership of 7,326.
- 2) Increase in the number of members was topped again by the QS Division which recorded 78 more members (a 4.33% increase), followed by the BS Division with an increase of 55 more members (a 8.54% increase) and closely followed by the GP Division's increase of 48 members (a 3.53% increase) in the last year. The LS Division shares the largest number of Technical Associates (47 nos.) among all the Divisions representing approximately 75.8% of the total Technical Associates of the Institute. The number of Technical Associates is growing very slowly at only 1.64% compared to last year.
- 3) The Property and Facility Management Division, since its formation in year 2005, has grown into a 692 member division.
- 4) Notwithstanding that there is an overall increase in the number of members to the Institute, the number of probationers increased marginally at only 0.3%. The divisions have increased the effort in raising and maintaining new members. The Board of Education will be looking into a revamp

of the APC and the ATC system to attract more new blood to join the surveying profession.

- 5) There is an increase of approximately 5% for student members largely from students with interest in the LS, QS and PFM Divisions. There are fewer student members for the BS and GP Divisions compared to last year.
- 6) The Technical Associates provides an alternative route to becoming a full member of the Institute. The Institute has had meetings with the Development Bureau of the HKSAR together with other professional institutions (including HKIE and HKIA) to discuss the recognition of Technical Associates in the recruitment of civil servants of the appropriate grade. It is a long drawn process and little progress has been made in the past year.
- 7) The BOM has convened four meetings to process membership applications and to discuss membership matters in the last year.

During last year, BOM members have been actively participating in discussion of matters raised and decisions made for the General Council's approval. Issues have been discussed with adequate input from the divisions with fruitful resolution. The BOM thanks the continued assistance of Ms Kiny Hung who enables the Board to continue running smoothly.

In pursuance of the provisions of Part VII of the Bye-Laws, the Board continued to consider policies and control mechanism for mandatory continuing professional development and lifelong learning to help members enhance not only their professional competence but also their social status as professional surveyors. This is to require all professional and technical members to engage themselves in a continuous process of sharpening their expertise and broadening their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute may strengthen its strategic position in the property industry, for the long-term sustainability of the surveying profession in Hong Kong. Further to the implementation of the mandatory CPD in 2007, to facilitate members in their pursuit of CPD, the Board introduced the on-line logging-in of CPD profile records and on-line booking of CPD activities. The Board was also exploring the feasibility of converting CPD events into on-line CPD packages for future reference and usage.

In 2008, 110 CPD events were organised by the various Divisions and the Young Surveyors Group (YSG), which reflected a 4% increase from 106 of the previous year. Apart from the 23 institutional events, YSG continued to be the principal CPD organiser providing 30 events (including 3 joint CPDs with GPD). The ranking order of the other Divisions was QSD (19, including 1 joint CPD with BSD), BSD (14, including 1 joint CPD with QSD), GPD (13, including 3 joint CPDs with YSG), LSD (10), PFMD (4) and PDD (1).

To promote members' professional and social status, the General Council has approved the Board's motion to amend the Constitution to change the designation of "professional surveyor" to "certified professional surveyor". Before the relevant EGM was to be arranged, the Board sought further refinement to the proposal by conducting a questionnaire survey followed by an Open Forum. This is being pursued in the following session year.
