The Hong Kong Institute of Surveyors

The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founding members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, the Surveyors Registration Ordinance (Cap. 417) was passed to set up a Registration Board to administer the registration of surveyors.

The number of Corporate Members has grown to 6,404 as at 31 December 2017; Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2017, the Institute admitted 78 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members at the end of 2017 was 3,455.

To qualify as a Corporate Member of the Institute, surveyors must possess a recognised academic degree or similar qualification, complete supervised professional experience within strict guidelines for a minimum period of 24 months, followed by an Assessment of Professional Competence (APC).

The Institute plays an important role from time to time in giving advice to the Government on issues such as land supply, unauthorised building works, building safety campaign, property management, town planning and development strategies, construction quality and housing.

The title "Surveyor" embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A Land Surveyor measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A General Practice Surveyor advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing and management of completed developments. A **Planning and Development Surveyor further** advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A Quantity **Surveyor** is concerned with the building contractual

arrangements and cost control, and will evaluate the likely cost of the development project and advise on the most suitable kind of contract for the project. A **Building Surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **Property and Facility Management Surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continued to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors' Alliance Asia which was inaugurated in November 2004. The Institute has reciprocal agreements with:

General Practice Division

The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, administration, continuous management and improvement; properties are developed as direct investments or securitised, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors are particularly equipped with skills and knowledge to offer timely and effective advice in connection with development, use and management of property resources both for operational needs and investment purposes. They are also concerned with planning, leases administration and valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. Contemporaneously, because of the General Practice Surveyors' understanding of investment principles and asset pricing, practitioners are ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. Recently, we are involved in valuation of franchises and intangibles and business valuation. Major roles played by General Practice Surveyors are as follows:

Valuation of Properties

General Practice Surveyors value all types of landed properties for various purposes. These include:

- Valuations for sale, purchase, letting and mortgage purposes;
- Statutory valuations relating to land resumption, rating, stamp duty, and other taxation purposes;

- Valuations of company portfolios for listing, balance sheet purposes, company floatation, takeovers and mergers;
- Feasibility studies on all types of properties;
- Acting as an expert witness, independent valuer or arbitrator in valuation disputes.

Development and Town Planning Consultancy

Real estate development is a complex process, which needs professional expertise and judgment. Through proper training and experience, General Practice Surveyors can provide a comprehensive range of professional services covering:

- Market studies and evaluation of development opportunities;
- Negotiation with Government on lease matters including lease modification, surrender and regrant of land leases;

Sales, Lettings and Auctions

General Practice Surveyors, on behalf of the clients, negotiate the purchase, sale or leasing of all types of land and buildings. They may act as auctioneers in the disposal of properties or as owner's agents in selling properties by private treaty or tender. They may also advise on marketing strategy and on preparation of sale and lease documents.

Property, Asset and Facilities Management

In a society of rising user expectations, good quality professional management services are essential to sustain and enhance the property values. General Practice Surveyors have been involved in the management of all types of properties and facilities. They negotiate with landlords and tenants on rent review, lease renewal and re-letting of premises. They also advise on situations of refurbishment/ renovation/enhancement and redevelopment of properties.

Upon securitisation of properties, General Practice Surveyors also contribute their expertise in investment strategy and property portfolio planning.

Business Valuation

Contemporarily, experienced General Practice Surveyors are engaged to provide independent valuation of trade-related business assets and enterprises in connection with mergers and acquisitions activities in Hong Kong and Mainland China.

Services in Government and Statutory Body

Apart from their work in the private practice, General Practice Surveyors are also employed by the Hong Kong SAR Government in various departments such as Lands Department, Rating and Valuation Department, Government Property Agency and Housing Department to handle work including government land disposal, resumption, rating, taxation, public housing and home ownership scheme etc. Other major employers include Hong Kong Housing Society, Urban Renewal Authority and MTR Corporation.

Land Surveying Division

The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts; defining property boundaries; preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the

Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- · Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- · Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection, integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/othoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current:
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and

 Collection of any information relating to marine navigation.

Planning & Development Division

The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximising project return while minimising the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

Land Administration Input

Planning & Development Surveyors specialise in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for a modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning

applications, review and/or appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

Town Planning Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending

hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

Other Common Professional Services

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialise in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/ Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (SIA).

Quantity Surveying Division

The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field. Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

Cost Planning

Cost planning is a specialist technique developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximise practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps; namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects

(and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build, guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis

- and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularised documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/ public entities/Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/ insurers; and
- Risk assessment personnel for insurance broker/ insurers.

visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organises and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the Mainland China or overseas countries. YSG representatives also attend local and overseas conferences organised by local institutes and other international organisations such as the International Federation of Surveyors (FIG) and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong. The HKIS was one of the exhibitors in the annual Education & Careers Expo hosted by the Hong Kong Trade and Development Council and YSG has been the coordinator for the HKIS in the past few years.

Young Surveyors Group

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 5,000 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organising various site

1.3 Disciplinary Proceedings

As at the end of November 2017, there was one valid case of complaint which has been submitted for investigation under the disciplinary procedures mechanism of the HKIS.

As a reputable professional Institute, the HKIS is determined to uphold the integrity of the profession. Every member of the HKIS is required to maintain a high and honourable standard of professional conduct and to discharge his/her duties in accordance with the highest standard of business ethics as provided under the Bye-Laws and Rules of Conduct of the Institute.

To keep pace with the development of the profession and the rapid changes in the socio-economic environment, the General Council considered it necessary to conduct a comprehensive review of the

existing professional conduct and disciplinary related procedures of the Institute. A Working Group on the Review of Disciplinary Procedures was formed to study the legal advices from a Senior Counsel and to follow up with the proposed amendments to the Bye-Laws and Rules of Conduct, with an aim to provide for a prescribed order of procedure within the Rules of Conduct and to give the Disciplinary Board a wider discretion to issue the requisite directions determining the relevant practice and procedure. After the completion of the consultation forum with members on 23 June 2017 and the review of the comments received from members on the proposed amendments, the resolutions for effecting the changes to the disciplinary procedures under the Bye-Laws and Rules of Conduct were passed at the Extraordinary General Meeting held on 21 November 2017.

Supplementary Reciprocity Agreements were also signed with the China Engineering Cost Association (CECA) and China Institute of Real Estate Appraisers and Agents (CIREA) respectively, to effect the third batch of training and assessment. The 3rd batch of assessments for mutual recognition with CIREA was conducted on 8 and 9 July 2017 in Shenzhen. 80 HKIS members and 90 CIREA members attended the 2-day training and supplementary assessment. The assessments for the 3rd batch of mutual recognition with CECA were arranged on 15 and 16 August in Changchun for 128 CECA members, and on 29 and 30 August in Shenzhen for 60 HKIS members.

We are proud of our achievements so far and will continue to maintain our international and regional presence, strengthen the connections with our international counterparts and uphold our professional standards so as to maintain and strengthen the status of surveyors in Hong Kong.

The Young Surveyors Group organised different events, including a study tour to Harbin, career talks at secondary schools and local universities, the annual dinner, CPD and social events with other professional organisations. Our young surveyors also appeared in newspaper columns and dedicated interviews.

The HKIS always encourages members to develop their own interests.

The HKIS Dragon Boat Team gave superb performances in both the Stanley International Dragon Boat Championship 2017 on 30 May, and the RSCP Joint Professionals Dragon Boat Race 2017 on 18 June. It was the second consecutive year, for the Dragon Boat Team to take the first place in the Joint Professionals Dragon Boat Race.

The HKIS sports teams participated in competitions including badminton, basketball, bowling, golf, table tennis, tennis, snooker and volleyball organised by the Recreation and Sports Club for Hong Kong Professional Bodies (RSCP). Excellent results were achieved, including the winning of the Joint Institutes' Championships for Bowling, Snooker, Volleyball (female) and Volleyball (male).

The Surveyors Band (S!R) organised a Charity Band Show on 15 September 2017 to raise funds for the HKIS Charitable Foundation. S!R was also the guest performer at the opening ceremony of the Construction Safety Week 2017 on 21 September 2017.

On the expenditure side, the total amount of operating and administrative expenses for the year was HK\$25,757,769, representing an increase of about 7.8% or HK\$1,868,674 when compared with that of the previous year (2016: HK\$23,889,095). With the support of the General Council, we have initiated to reserve a fund from part of the surplus for the necessary maintenance and renovation work in the future.

Contributions from the growth of new membership, the Institute's and Divisional annual conferences, annual dinner, site visits and CPD events, are also of great significance to maintaining a healthy financial situation of the Institute. Thus, I take this opportunity to thank all council members and committees for their greatest efforts in contributing to the Institute.

Honorary Secretary's Report

Honorary Secretary's Report

I am most honoured to be the Honorary Secretary for the year 2016/17 and have great pleasure in presenting this Report. As the Honorary Secretary of the Institute, I was duty bound, under the direction of the General Council, to conduct the ordinary business of the Institute in accordance with the Constitution and Bye-Laws; to keep an accurate record of the proceedings of the Institute and the General Council; to keep the Membership Register of the Institute; to conduct the correspondence of the Institute; and to give notice of all meetings of the General Council and General Meetings of the Institute.

Apart from the above, I was responsible for the membership affairs including the applications for exemptions and concessions of subscriptions, complaints against members as well as disciplinary proceedings. I was also the Chairman of the Editorial Board. The main task of the Board, with representatives from all the Divisions and YSG, is to oversee the production of official publications, including *Surveyors Times* and HKIS Directory and Annual Report. New features of *Surveyors Times* for this year include quarterly articles on legal issues which are relevant to the surveying profession and a members' corner in which members' articles are published.

In 2017, apart from the Annual General Meeting for the election of Office Bearers of the HKIS, two Extraordinary General Meetings in relation to the proposed amendments to the HKIS Rules of Conduct, Constitution and Bye-Laws and ratification of Guidance Notes on Valuation Standards were conducted.

HKIS Extraordinary General Meeting on 20 June 2017

The HKIS was prepared to invite qualified professionals and practitioners in the building and real estate industries as Affiliate of the HKIS, for the mutual exchange of surveying knowledge and experience. It was proposed that invitations were to be extended mainly to the middle management from established building and real estate industries in major Mainland cities. To implement this motion, it was necessary to amend the HKIS Constitution and Bye-Laws.

Having consulted with members and gone through the recommended amendments endorsed by the General Council, two resolutions on the creation of the Affiliate Membership and the relevant Annual Subscription were put to vote in the EGM and the results were shown below.

| Resolutions | Number of | Total number of | |
|--|----------------|-----------------|--------|
| | For | Against | votes* |
| Resolution 1 | | | |
| In respect of Affiliate Membership | 315 (50.3%) | 311 (49.7%) | 626 |
| Resolution 2 | | | |
| In respect of the Annual Subscription and Application Fee for the newly created Affiliate Membership | 322 (51.4%) | 304 (48.6%) | 626 |

^{*}Including 611 votes by proxy and 15 voting in person

The resolution for the creation of Affiliate Membership was not passed as it received affirmative votes of less than the three-fourths majority required for changing the provisions under the HKIS Constitution and Bye-Laws. Although the proposed fees for Affiliate Membership was passed by a majority vote of more than 50%, the fees will not come into effect since it was dependent on the creation of Affiliate Membership.

HKIS Extraordinary General Meeting on 21 November 2017

Advice on the disciplinary procedures of the HKIS, including the re-drafting of the Bye-Laws and Rules of Conduct were received from Senior Counsel in 2016. The General Council 2016-2017 formed a Working Group on the Review of Disciplinary Procedures. The suggestions raised by the Senior Counsel in revising the disciplinary procedures were studied and followed up by the working group. Amendments to the Bye-Laws and Rules of Conduct were recommended with respect to a prescribed order of procedure within the Rules of Conduct and the provision to the Disciplinary Board a wider discretion in issuing requisite directions in determining the relevant practice and procedure. Having consulted with the members in a discussion forum and gone through the recommended amendments endorsed by the General Council, two resolutions on revising the complaint investigation procedure in the Bye-Laws and amending the Disciplinary Powers in the Rules of Conduct were put to vote in the EGM. Both resolutions were passed by a majority vote of more than 50% as shown in the voting results below:-

| Resolutions | N | Total number of | | |
|---|-----|-----------------|---------|--------|
| nesolutions | For | Against | Invalid | votes* |
| Resolution 1 That the amendments to Part VI of the Bye- Laws in respect of Professional Conduct be adopted. | 216 | 26 | 1 | 243 |
| Resolution 2 That the amendments to the provisions under the Rules of Conduct be adopted AND that the amended Rules of Conduct are ratified in accordance with Bye-Law 6.1. | 218 | 24 | 1 | 243 |

^{*}Including 202 votes by proxy and 40 voting in person

HKIS Annual General Meeting on 8 December 2017

The AGM for the election of Office Bearers to the HKIS General Council for the Year 2017/18 was held on 8 December 2017 during which the new Office Bearers were successfully elected. Also on the agenda of the AGM, a resolution for the ratification of the Guidance Notes on Valuation Standards was put to vote and was passed by a majority vote of over 50% as shown in the voting results below.

| Resolution | Votes | Votes | Invalid | Total |
|--|-------|---------|---------|-------|
| | For | Against | Votes | Votes |
| That the HKIS Valuation Standards be ratified in accordance with Bye-Law 6.1 | 192 | 6 | 0 | 198 |

Sr Daniel Chang
BSD Council Chairman

I am delighted to have the full support of the Council members, co-opt members and others in managing the Council matters, as well as in organising promotional, educational and knowledge sharing events in the past 12 months. Here below is a summary of my report.

1. Membership

As compared with 2016, there was an increase of 50 Corporate Members (+4%), a decrease of 14 Probationers (-6%) and no change to the size of Associate Members. The net membership gain in 2017, excluding Student Members, was 36 (+1.9%). We noticed that the number of surveying students selecting building surveying as their main stream practice had increased.

2. Professional Development

(a) Assessment of Professional Competence (APC)

The Practical Task 2017 was held on 11 November 2017. A total of 149 candidates (147 probationers and two technical grade members) attended the assessment, and around 140 APC assessors were present. In the Final Assessment, 36 assessment panels were formed to assess 86 candidates.

(b) Continuing Professional Development (CPD)

A total of 34 CPD events were organised, covering a diverse scope of professional knowledge/practices such as heritage, BIM, construction & material technology, development control, factory visit, Building Surveyor Awards 2017 winning project and some hot issues (e.g. the collapse of City University's sports hall roof top and the community housing movement). The total CPD registration by the end of October 2017 was 4,000.

(c) Research

A research titled "Professional Guide to Building Inspections – Post-1980 Residential and Composite Buildings in Hong Kong" was confirmed. Consultant were appointed to conduct the research and the target delivery date will be in Q3 2018.

(d) Registered Fire Engineer (RFE) Scheme

Since November 2015, BSD has met with representatives from Fire Services Department and Security Bureau together with the ex-Legislative Councillor, Sr Tony Tse, to discuss on the proposed RFE Scheme. At the end, Security Bureau agreed that a building surveyor who possesses specific qualifications and experience is qualified to register as a RFE under the Ordinance. The relevant Bill was passed by LegCo on 1 March 2017. In this regard, Fire Expert Panel will follow up with Security Bureau on the drafting of the regulations in particular for the formation of the registration committee and on the details of RFE qualifications.

3. Education

(a) Outreach to Students

Talks promoting the building surveying profession

were conducted throughout the year for secondary and university students. Moreover, a large-scale career talk for selected secondary school students was held in October 2017.

(b) Building Surveying Scholarship

The 2016 Building Surveying Scholarship award presentation ceremony was held on 2 March. 10 Form Five/Six students were awarded Stage 1 scholarships. In the same event, two students received Stage 2 award upon their enrollment in surveying degree courses in local universities.

For the 2017 Scholarships, screening and assessment exercises were arranged in late November and December 2017 respectively. Applicants were required to present their submissions on the topic "Built Heritage and Conservation in Hong Kong". The award presentation is planned to be held in February 2018.

(c) Re-Accreditation of Cognate Degree

Members were enrolled by Divisional Education Committee to participate in the re-accreditation of local surveying degree courses.

4. Promotion and Publicity

(a) Promotional Video

A 5-episode promotional video was launched in March 2017. The video is presented in layman

style aimed to raise public's awareness of building regulations, safety, maintenance and the expertise of building surveyors. Different social media platforms such as Facebook and YouTube are used to disseminate the video.

(b) Media

There was an increased exposure of building surveyors in the press, online media, television and radio, with topics covering fire safety, building safety, flat inspection, subdivided flats in industrial buildings, bid rigging and Building Repair Maintenance Authority, etc. The efforts of the spokesmen and veteran surveyors have been well appreciated.

5. Society and Community

(a) Building Surveying Volunteer Team (BSVT)

To conclude the voluntary green roof inspection services scheme, the Building Surveying Volunteer Team held a debriefing session on 21 July 2017 with 28 volunteers in attendance. The purpose of this event was to take all volunteers back in time to revisit the green roof collapse incident at CityU, share their observations of and challenges encountered in green roof inspections, and highlight the public engagement exercise involved.

The Hong Kong Council of Social Service (HKCSS) announced an affordable shared housing project – "Community Housing Movement" in September 2017. BSD considers it another opportunity for building surveyors to contribute to the community by participating in flat screening exercises. A volunteer team is being formed to provide the services.

(b) Building Repair and Maintenance Authority (BRMA)

The BRMA suggestion was again put forward to public and Government through press releases. We trust that the Government should seriously consider setting up BRMA to address the threats of bid rigging to flat owners.

(c) Building Rehabilitation Platform

The Urban Renewal Authority has established a Building Rehabilitation Platform (BRP) to support building owners who face the dilemma of making major repairs to their buildings. Building professionals were invited to join the respective committees of BRP. BSD supports this initiative as its objectives are very similar to BRMA. In this respect, 11 building surveyors were nominated to join the Technical, Service Providers and Promotion Committees.

(d) Services and Talks

BSD participated in the "Create Your District Competition" guided tour, Project SPARKLE and the Construction Industry Alliance rally. In addition, members delivered talks to public on building maintenance issues in various districts in Hong Kong under the arrangement of Home Affairs Department. As invited by the Agency for Voluntary Services, we shared our experience on green roof voluntary inspection services to its members.

6. Conferences, Awards and Events

(a) Building Surveyors Conference 2017

The 31st Building Surveyors Conference titled "Building Health & Safety – The Emerging Risks" was successfully held on 14 October 2017 at Crowne Plaza Hong Kong. It was our honour to have Ir HON Chi Keung, JP, Permanent Secretary for Development (Works), as our Guest of Honour. With the provoking thoughts and presentations from speakers, I trust that all participants have expanded their horizons on building health and safety aspects after this daylong conference.

(b) Building Surveyor Awards (BSA) 2017

The finale of Building Surveyor Awards 2017 was held on 8 June 2017 at JW Marriott Hotel Hong Kong. It was our honour to have Ir HON Chi Keung, JP, Permanent Secretary for Development (Works) as our Guest of Honour. As witnessed by a full house of distinguished guests and fellow members, preeminent projects were commended and conferred with specific awards. The Grand Award went to Dunbar Place, a project by Swire Properties Ltd. under the Client/Client's Representative Group of New Development Category. During this important and meaningful event, participants were able to share, learn, appreciate and recognise the distinguished achievements of Building Surveyors, with projects which truly reflected their diverse expertise and professional services.

(c) CAEC Conference

To commemorate the tenth year of signing the mutual recognition agreement with the China Association of Engineering Consultants (CECA), a Working Group was formed to work closely with its Chinese counterparts in organising a conference in Guangzhou with topics covering building maintenance management in China, professional practice sharing and roles in new development areas. The conference was successfully held on 10 November 2017 with 20 building surveyors in attendance.

(d) Social Events

A drinks gathering was organised in March 2017 for members to relax after work and to meet with their peers.

7. Administration

(a) Stakeholders

Divisional Council & Young Surveyors Group Reports

General Practice Division

Sr Chiu Kam Kuen GPD Council Chairman

It is my pleasure to present the reports and accounts of General Practice Division for the year 2016/17.

I am particularly pleased to be able to report that 2016/17 was an eventful and another fruitful year for the General Practice Division ("GPD"). I will address some of the achievements in more detail.

HKIS Valuation Standards 2017

The HKIS Valuation Standards 2017 ("the Standards") has come into effect on 30 December 2017. The Standards is mandatory in nature to members of the HKIS, and shall be applied to the valuation reports prepared in respect of all properties to be included in any documents or to be used for any other purposes as referred to in the Standards. Through stringent compliance with the Standards, valuation services that are carried out by Corporate Members of the HKIS can be assured of the best quality and standards. Members would be advised to adopt the new Standards.

The GPD Council initiated a review of the HKIS Valuation Standards 2012 Edition with regard to two newly launched standards – International Valuation Standards 2017 ("IVS2017") and RICS Valuation – Global Standards 2017. After a consultation process and a members' discussion forum, the GPD Council have prepared the HKIS Valuation Standards 2017.

The HKIS has received the confirmation from IVSC for the inclusion of IVS2017 in the new HKIS Valuation Standards and the permission from RICS for the reference to its RICS Valuation - Global Standards 2017. The Standards were approved by the General Council on

9 October 2017, and ratified by a resolution at the General Meeting on 8 December 2017. CPD events will be arranged to highlight the changes to members for easy adoption of the new standards.

HKIS/CIREA Reciprocity Recognition of Membership

The China Appraisal Associations Reciprocity Working Group convened by Sr Alexander Lam successfully accomplished the third China Institute of Real Estate Appraisers and Agents ("CIREA") reciprocity event in July 2017. 80 candidates from the HKIS and 90 candidates from CIREA passed the assessment for membership reciprocity.

Over an 18-month working period, GPD has made preparations for the engagement in the third round of talks with CIREA over the two organisations' reciprocity agreement. It led a number of discussions, conducted a forum for our members, entered into serious negotiations over the programme, invited speakers to its events and finalised the entire reciprocity programme. Two CPD events were arranged for the candidates on the fulfilment of the application requirements. In March 2017, three distinguished speakers from CIREA and the HKIS were invited to give talks. In July 2017, another two-day training session covering a wide variety of topics was conducted by nine guest speakers. The veterans of the profession shared with the candidates the valuation practices in China and Hong Kong.

Country Park Study

Land and housing supply continues to be one of the major topics of concern for the society. In the 2017 Policy Address, the Chief Executive stated that the Government should consider allocating a small proportion of land on the periphery of country parks with relatively low ecological and public enjoyment value for the construction of public housing and nonprofit elderly homes. In May, the Hong Kong Housing Society accepted the Government's invitation to undertake ecological and technical studies of two selected country park sites. The HKIS Land Policy Panel, chaired by Sr C K Lau, led a working group to investigate and study the matter. A members' forum was conducted on 26 June 2017 to share the results of the study and to provide an opportunity for members to discuss and raise comments on developing country park land. The HKIS has formally submitted a consultation paper on the development of the periphery of country parks to the Development Bureau in September 2017, suggesting a detailed report covering the scientific research and assessment criteria would facilitate the Government and the public for further discussions.

Renewal of Land Leases

In response to the public concerns over the renewal of land leases upon their expiry, the HKIS took a proactive approach and suggested that the Government should issue guidelines and explain the administrative procedures and the timeline for the extension or renewal of land leases to the public

as soon as possible. The application period for lease extensions or renewals should be extended in excess of the usual practice of three years before expiry to allow sufficient time for processing. Moreover, the Government should also review its resources, given the expected workload of the Lands Department ("LandsD") which is going to handle the cases. The HKIS met with LandsD in May 2017 for the discussion on the guidelines for lease extensions.

Bills Committee on the Stamp Duty (Amendment) Bill 2017

LegCo invited the HKIS to give its views on the Stamp Duty (Amendment) Bill 2017 during the Bills Committee Meeting on 28 March 2017. The Bill would introduce a new flat rate of 15 per cent for the ad valorem stamp duty (AVD) chargeable on certain instruments that deal with residential properties executed on or after 5 November 2016. The GPD was assigned to take the lead in this exercise and Sr C K Lau was appointed to represent the HKIS at the meeting.

In response to the Government's justifications, the HKIS does not support the Bill in the view that the implementation of the various stamp duty measures since 2010 have distorted Hong Kong's property market to a considerable degree. A paper was submitted to the Bills Committee to address how the stamp duty measures have distorted the property market. It was suggested that Government should review the possibility of abolishing various stamp duties in an orderly manner to prevent further distortions of the property market.

Competition Ordinance

The HKIS Scales of Professional Charges ("Fees Scales") was abolished on 19 September 2016 as advised by the legal counsel, given that the Competition Ordinance came into effect. Now, there is no yardstick to determine the reasonable fee which is payable to our member who has performed professional works. Representatives of the GPD Council and the Working Group on the Competition Ordinance met with officials from the Acquisition Section and Competition Commission of the Lands Department ("LandsD") on 4 January 2017, and suggested that the LandsD could update the relevant parts of the former Fees Scale on a regular basis, in which case, its assessors would at least be equipped with a benchmark for gauging the legitimacy of a fee claim. However, LandsD declined to consider issuing any guideline on fees.

A discussion forum was held on 13 February 2017 to present GPD's previous discussions with LandsD and to gather views from its members. The members are encouraged to keep records of their agreed-upon remunerations with clients in order to establish and substantiate the practicality of fees. It was also suggested that the HKIS appoints an independent body to conduct a confidential fee/hourly rate survey among surveying firms, with the results to be submitted to the LandsD Land Administration Office ("LAO") as a guide to reasonable fees. Further liaisons with the LAO were suggested.

Members' Affairs

Following the APC Part II Assessment held in December 2016, the GPD's 2016 APC and training cycle were successfully completed. A total of 38 probationers passed the APC Part II Assessment and became HKIS GP Surveyors. The GPD hosted a welcome gathering cum outstanding presentation award ceremony on 7 April 2017 at the HKIS SLC. Certificates of Award were presented to the top three candidates in the last APC Part II Assessment. About 50 members and probationers attended the gathering in which they had an opportunity to meet and communicate with the GPD Council members.

To help GPD candidates prepare for the APC Part I written examinations in 2017, the Education Committee, co-convened by Sr Edward Au and Sr Jim Lam, arranged 17 lectures (a total of 51 hours) of the APC SLP to cover the entire syllabus of the APC Part 1 written examination. Following that, a series of revision classes were conducted. An additional APC Part I re-examination was arranged this year to assist those referred candidates from 2016 to get through the APC Part I Assessment more easily. This arrangement enables the marginally failed second year probationers to sit for the referral interview in June instead of waiting until October and December.

A Briefing and Sharing Session on the 2017 APC Part II Assessment was also held to advise the probationers of the key issues and points that they should take note of during their preparations for the Part II Interview.

CPD Panel convener Sr Alnwick Chan, together with Panel members Sr Andrew Chan, Sr Jason CS Chan, and Sr Clara Ho, organised 14 CPD events this year. Guest speakers were invited to share their knowledge, experiences, and views on topics that were of common interest to industry

practitioners. GPD and University of Hong Kong's Department of Real Estate and Construction have jointly organised a new series of Executive Talks in which senior surveying professionals shared their career experiences and views on current pressing issues in the society. The talks were open to all local tertiary institutions offering surveying degrees, HKIS probationers and secondary school students.

Mutual Recognition of Membership between GPD and its RICS Counterpart

After the AGM in October 2016, we conducted a discussion forum for the proposed Memorandum on the Mutual Recognition of Membership ("MMRM") between the GPD and its counterpart from the Royal Institution of Chartered Surveyors ("RICS"). A survey was conducted afterwards to collect the views from our members. The GPD received 156 completed questionnaires and it was noted that members, probationers, and students generally supported further liaisons with the RICS to facilitate discussions on reciprocity. The GPD's HKIS/RICS Liaison Committee ("the Liaison Committee") started to liaise with RICS. After several meetings, both parties agreed to work on a draft agreement based on the framework of the 2005 MMRM to maintain consistency and to expedite the decision-making process.

Another discussion forum was organised on 20 October 2017 and a background paper was distributed to the members who were updated on the progress of the proposed MMRM and to collect their feedback. The Liaison Committee is now finalising the draft MMRM agreement and our recommendations will be submitted to the General Council for further discussion with RICS. We target to execute the agreement in 2018.

Participation in the Global Platform

To maintain the professional competence of the industry at an international standard, GPD keeps constant communications with and participates in overseas professional groups for academic and experience exchanges.

As a member of the Advisory Forum Working Group of the International Valuation Standards Council ("IVSC"), I participated in the working group's meeting in London in June 2017. During the IVSC 2017 Annual General Meeting and Board Meetings in Mexico in October, Sr C K Lau and I attended its conference. The HKIS proactively provides its comments on the consultation for adoption of IVS and the agenda set for valuation standards development. Moreover, the HKIS was assigned as the lead for the geographic outreach project to connect with the IVSC's Valuation Professional Organisation (VPO) / Institutional Member (IM) in Asia Pacific in respect of the activities or initiatives driven by the IVSC.

Sr Edward Au represented the HKIS at the World Association of Valuation Organisations (WAVO) Board Meeting and its AGM in Berlin in June 2017, which were followed by a conference. Further to the signing of the Memorandum of Collaboration with the IVSC in November 2016, WAVO will launch training courses including an e-Learning course for the new IVS 2017. Sr Au also participated in the WAVO Board Meeting which was held in November 2017 in Singapore.

Strategic Growth Committee

In view of the stagnant growth of corporate membership in the GPD in recent years, the Strategic Growth Committee ("the Committee") was set up in January 2017 to formulate directions, strategies, and action plans to expand the number of Corporate Members. One of the action plans identified was to review and suggest possible improvements to the key components of the GPD's existing APC system with a view to providing a clearer path for students and probationers to become qualified GP Surveyors. The Committee discussed the directions in which the APC Part I examination and Part II interview, in particular the requirements set for cognate degree and non-cognate degree probationers, should be structured.

It was agreed in principle that exemption from one, two, three or all of the Part I examination papers may be granted to the holders of certain accredited bachelor's degrees holders, subject to the satisfaction of the Education Committee that appropriate subject(s) has/have been taken by candidates in their university programmes. The Education Committee will amend the APC Rules and Guide of GPD and have it submitted to the Board of Education and General Council for approval. Details will be announced after the approval.

To promote the General Practice surveying profession to the public and the students, the Committee agreed to do some marketing works, including a new information leaflet, a promotional video and a series of interviews of GP veterans to be published on Facebook and in *Surveyors Times*. Council members also actively participated in career talks at universities and schools, introducing the surveying profession to students.

GPD Annual Dinner

GPD hosted an Annual Dinner in May 2017. It was attended by 103 guests with 40 newly-qualified younger members and probationers. Other attendees included guests from the General Council, industry leaders, members and supporting companies of the industry. The full-house event was successfully held with plenty of time for networking between industry professionals in a warm and cozy environment with lots of laughter. GPD plans to organise more events to encourage younger members to maintain closer ties with the Institute and to connect with experienced industry practitioners.

Divisional Council & Young Surveyors Group Reports

Land Surveying Division

Sr Dr Conrad Tang
LSD Council Chairman

Hi, land surveyors,

Time flies. It is time to review our work accomplished this year, and look into the coming year. The 2017 Council continued with four tasks, namely, 1. Land Boundary Survey; 2. New surveying applications in Smart City; 3. Membership and Mainland affairs; and 4. House-keeping works. Major activities and issues are summarised for your information as below.

1. Land Boundary Survey

Sr Prof S C Leung has continuously led the Land Boundary Committee (LBC) in the promulgation of determined boundary practices in Hong Kong. Albeit primitive in legal settings, the administration sector, i.e., the Hong Kong SAR Government, should provide effective land boundary re-establishment services. With the advice from LBC, Buildings Department has decisively improved the site area determination process. In short, if a lease plan is not available, the Site Area Plan prepared by an Authorised Land Surveyor (ALS) could be adopted as the evidence of the site area. This practice has practically overcome the shortfall of our primitive leasehold land rights registration without legal sanction on land boundaries. As reported from the ALSs, this practice was welcomed by developers, professionals and land-development-related government departments.

Next year, the Land Boundary Committee will continue its communications with Development Bureau, particularly, to promote the land boundary determination scheme for the acceptance by the departments under Development Bureau. We stress that an ALS is the professional who should shoulder the responsibility of boundary determination; however, the submitted and accepted determination can be amended if new evidence is available. Land surveyors should co-operate and build a viable solution for the final legal record of determined land boundaries.

2. New Surveying Applications in Smart City

The second task was on the development of Smart City applications. Land surveyors who master new technologies including 3D modelling, remote sensing, UAV and BIM will contribute a lot to Smart City. LSD was consulted by the Government on the policy of Common Spatial Data Infrastructure in May 2016, and Sr Dr Lesly Lam and Sr Paul Tsui contributed to the meeting. In the Beijing, Hong Kong and Macau Geomatics Conference, LSD presented the advanced technology on rapid formation of city by using UAV. The project was led by Sr Thomas Lee, and the remote sensing applications were led by Dr Charles Wong.

The promotion of new land surveying applications has always been one of our tasks. There are new land surveying technologies and applications around, but many practitioners may not be our members. Understanding that it is our role to introduce new technologies to our industry, LSD encourages our involvement in the new operations. Equally important, we also consider to invite high calibre professionals in related fields like utility, remote sensing and BIM to join us.

3. Membership and Mainland Affairs

Membership has always been a sensitive issue. Last year, as well as in the coming year, LSD continues to uphold two main themes. First, as the government's recognised land surveying professional institute, we have the obligation to maintain a constant supply of professional workforce in the open market. This professional workforce must keep up with the professional and technical standards as maintained by LSD of the HKIS. The Assessment of Professional Competence (APC) is an established mechanism in securing the quality of the incoming members. Treading this theme, LSDEC advises and facilitates probationers in going through this quality assurance process. We thus have a modest increase of seven corporate members in the past year (see below table).

| Membership number of Land Surveying Division | 2016 | 2017 |
|---|------|------|
| Fellow | 45 | 46 |
| Corporate | 225 | 232 |
| Associate | 48 | 34 |
| RPS (LS) | 127 | 141 |
| ALS | 27 | 26 |

The second theme is the extension of our professional influence in this ever changing world. In practice, LSD has been promoting our professional involvements in newly emerging services which include BIM, 3D modelling, Virtual Reality, UAV, spatial scanning, remote sensing and all location based services (LBS). We understand that various technologies and professions are involved in these emerging services, but we are well qualified to contribute. More importantly, we need to show and to claim that we are the most suitable party to provide such services. CPD events now serve as a platform for the sharing of new technologies to our members. Yet, attracting fore-front practitioners in the ever changing LBS will be another important theme for our development.

To help the leading practitioners in the new surveying technology sector of LBS (which includes engineering surveying, remote sensing, utility, GIS & BIM), LSD has obtained approval from the Board of Examination that our division may grant exemptions from the submission of structured training records by the probationers. In short, such probationers still have to go through all written assessments, including APC Part I written examination, APC Part II professional report and attending the final professional interview. Hopefully, this practice will help our institute to attract new members and strengthen our new surveying professionals.

With regard to interactions with the Mainland, LSD followed the HKIS Office Bearers to visit the National Surveying Bureau on 6 and 7 November 2017, and gave a short report on the progress of the Application to the Hong Kong Professional Services Advancement Support Scheme (PASS). The panel of the PASS planned to meet in January 2018 and HKIS will receive the decision on the application by March 2018. The application seeks a funding of 2.6 million dollars to support three promotional activities in Belt and Road countries, as well as seminars and conferences in Hong Kong. The membership of the HKIS in the International Federation of Surveyors was also brought up. The National Surveying Bureau would like to see Hong Kong more actively participating in international professional activities. Lastly, the examination and license system for the national land surveyors will be completed in 2020. Hong Kong SAR is urged to participate in this system.

4. House-keeping Works

The day-to-day house-keeping tasks always demand great efforts from our young members. Keeping our website updated, organising 14 events of CPDs, working on our Annual Dinner, APC workshops and Probationer Meetings, our councils have contributed a lot in the operation and management of the services. I wholeheartedly thank our councils and the colleagues of the Land Surveying Division Education Council, and look forward to hearing from and meeting our members in the Year of the Dog.

Divisional Council & Young Surveyors Group Reports

Planning & Development Division

Sr Prof James Pong
PDD Council Chairman

It has been my honor to continue with the chairmanship and lead the Planning and Development Division for another year in 2016/17. In my report, I shall summarise what I have done for the past 12 months:-

1. PDD Annual Conference 2017

The Conference titled "Country Park-Conservation or Development?" was successfully held at the Royal Plaza Hotel in Mongkok. It was well-received by over 200 participants. Similar to last year, friends from the media were invited, and their attentions were fully drawn to the distinguished speakers throughout the conference. The Conference was unprecedented for PDD in both its scale and number of participants.

I would like to take this opportunity to thank the following learned speakers again for their valuable contributions to the conference:-

- Mr Eric Ma Siu Cheung, GBS, JP, Immediate Past Secretary for Development,
- Mr Raymond Lee, JP, Director of Planning, HKSAR Government
- Prof Wong Fook Yee, Former Assistant Director of Agriculture, Fisheries and Conservation, HKSAR Government
- Prof Lam Chiu Ying, SBS, Adjunct Professor of the Geography Resource Management Department of the Chinese University of Hong Kong
- Prof Ng Cho Nam, SBS, BBS, JP, Associate Professor of the Department of Gropgraphy of the University of Hong Kong

2. Annual Dinner 2017

On 13 October 2017, the 2017 PDD Annual Dinner was successfully held at the Craigengower Cricket Club in Causeway Bay, Hong Kong. Ten tables were booked with participation of over 125 diners. Many honourable guests attended this dinner, including more than 20 guests from relevant government departments, professional institutes and educational institutes:-

- 傅芃芃博士, Deputy Researcher of Liaison Office of the Central People's Government in the HKSAR Education and Technology Ministry
- Dr Cheung Tin Cheung, JP, Director of Buildings

On 29 March 2017, I was invited to deliver a 2-hour

lecture to the year one MSc (Urban Planning) students at the University of Hong Kong. I covered the development controls in Hong Kong, namely: (a) the statutory controls under (i) the Town Planning Ordinance Cap. 131, and (ii) the Buildings Ordinance Cap. 123; and (b) the administrative controls under the government lease.

19. Financial Surplus for 2016/2017

For the year under my leadership, there were three main sources of income:-

| CPD events | \$127,467.90 |
|-------------------|--------------|
| Annual Conference | \$157,750.00 |
| Annual Dinner | \$50,700.00 |

After deducting all the expenses for the year 2016/17, there was a net surplus of \$72,298.94. This amount together with our asset carried forward from the previous year 2015/6¹, totaling at \$253,982.71² will be handed over to the next council.

Finally, before I pass the torch to the next council and my successor, I would like to take this opportunity to express my heartfelt thanks to all past chairmen, office bearers and council members for their unfailing support, without which I could not have completed all the works in the past two years so efficiently and smoothly. There was about 8% of membership growth. I hope the next council will be even more successful in growing membership without lowering standards, and recruiting more new blood from the ranks of students and graduates from the newly-accredited university courses. This will definitely provide the necessary impetus for PDD's future growth.

Divisional Council & Young Surveyors Group Reports

Property & Facility Management Division

Sr Prof Eddie Hui, MH PFMD Council Chairman

This has been a fruitful year for the PFMD in which a number of critical issues have been addressed and various tasks have been successfully accomplished. Moreover, some CPD events have been organised to enhance the technical know-how of the members.

I would like to summarise the major activities organised and tasks performed over the past year for members' information.

1. Research

Two research studies were completed. One of the research topics was "The Effective Use of Web-based Tools for Property Management Companies in Hong Kong". The PFMD commissioned HKU to conduct this study. Its objectives were twofold. First, the study would investigate the latest developments in webbased property management tools in Hong Kong. Second, it would try to find out the ways to improve the user-friendliness of the current interfaces, which would then allow home-owners to get around with the available functions more easily. The study also explored the extent to which one can maximise the capabilities of webbased and cloud technologies and how this could benefit the PFM profession.

PolyU was commissioned by the PFMD to conduct the other study with the research topic "The Relationship between Green-Certified (BEAM Plus) Buildings and Property Prices in Hong Kong,". The aim of this study was to investigate the relationship between the transaction prices of flats in residential developments and BEAMS Plus certifications.

Both reports have been completed and their findings were uploaded to the HKIS website for your reference.

2. Regulation of the Property and Facility Management Industry

Following LegCo's enactment of the Property Management Services Ordinance, the Property Management Services Authority (PMSA) was established in late 2016. It is responsible for regulating the mandatory licensing regimes for property and facility management companies and practitioners in Hong Kong. In October 2017, the PMSA held two focus group meetings to solicit views on licensing issues for companies and practitioners. During these meetings, the PFMD spoke on behalf of its members. It also worked with the other major stakeholders of the industry (HKIH, CIHAPB, HKAPMC, HKIFM, HMRB, and RICS) to draft and submit a joint letter to the PMSA to further articulate their concerns on important regulatory issues such as the definition of property management, licensing requirements for property management companies, the academic requirements, professional qualifications, and amount of experience required for Tier 1 and Tier 2 property management practitioners.

3. CPD Events and Site Visits

The following is a summary of the CPD events and site visits conducted by the PFMD over the past 12 months.

4. Membership Growth

As at 13 October 2017, the total number of Corporate Members in the PFMD was 769, of which 734 held multiple memberships. In addition, there were 33 probationers and seven student members.

5. Study Tour Sponsorship Assessment Working Group

The Division has been cultivating young people to study in and contribute to the PFM sector. To this end, it recently set up a working group to review the study tour proposal(s). This initiative aims to provide financial assistance for study tours to potential PFM practitioners who fulfill the Division's funding criteria.

6. Promoting Property and Facility Management Services

The PFMD has actively promoted itself to the general public through a wide range of activities over the past year. It is through these activities that the PFMD has been playing a more influential role in the society – particularly among the secondary schools and tertiary education institutions. In addition, it has spared no effort in supporting the structural learning process for the probationers. Some major events are:

- a. The support of the "Touring Sham Shui Po with Surveyors" activity as one of the cicerones in 2017 events which has helped participants in the tour understand the contributions made by surveyors to the development of Hong Kong and, more specifically, the role of the PFMD surveyors in this development process.
- b. The participation in the mentorship programme at Shatin Pui Ying College and sharing the general duties of surveyors in the various divisions, as well as the experiences of the PFMD surveyors in delivering project and property management services for various financial institutions in Hong Kong.
- c. Continued support of PolyU's Info day by arranging for younger surveyors to share their personal experiences and career development paths with prospective students.

- d. Working together with PFMD Council Members and the HKIS IT department in uploading the PFMD's past exam papers on assessing professional competency (APC) to the HKIS website, which has helped APC probationers better prepare for their professional examinations.
- e. Preparation of APC-related templates for Critical Analyses, Interim Assessment Reports, Training Plans, Property Rotation Schedule, Competence Checklists and CPD Event Log Sheets, which has effectively helped probationers in the structural learning process and professional examinations.

7. Dispute Resolution Committee (DRC)

In order to increase the HKIS's public exposure, its DRC proposed the introduction of the Mediation Pro-bono Scheme to the public. The Scheme's pamphlet, application form, and disclaimer clause are being prepared for its launch in the near future.

8. Members Welfare Committee

In addition to the drinks gathering arranged by the Members Welfare Committee on 5 June 2017, the PFMD also plans to hold the following welfare events:

- a. Pet Fun Day in West Kowloon
- b. Different recreational activities: bowling, basketball, yoga and a visit to TVB Studios
- c. Green ecotourism and cultural & ecological tour.

9. Heritage Committee

The Heritage Committee decided to invest \$2 million in the Funding Scheme for Public Engagement Projects on Built Heritage Conservation from the Built Heritage Conservation Fund, with three Priority Project Themes to choose from:

- a. Timely Maintenance and Conservation of Privately-owned Historic Buildings
- b. Our Community's Built Heritage
- c. Young Force in Old Buildings

Following detailed discussions, the Committee decided to choose Theme A because it can

demonstrate the expertise of surveyors and promote the HKIS's professional image to the public. A Task Force, with one representative from each Division and YSG, along with two past presidents, was formed to prepare the proposal and the necessary documents. The submission of which is now under review.

9. The Way Forward

I want to express my heartfelt gratitude to our Council Members for their unfailing support and their valuable contributions to the PFMD. Special thanks go to all fellow members who are committed to the Division's well-being. With your support, I expect the continuous success of the PFMD in the years ahead.

On 20 March 2017, QSD received a big delegation from Singapore Building & Construction Authority (SG BCA). The delegation was represented by Dr John Keung, SG BCA CEO, and eleven members.

QSD was honoured by the presence of current and past HKIS Presidents in welcoming and receiving the SG BCA delegation:

It was a very enjoyable and fruitful exchange of views on various topics regarding procurement strategies and the possible adoption of NEC by the SG BCA.

1.2 Visit by the President of the Chartered Institution of Civil Engineering Surveyors (7/4/2017)

The President of the Chartered Institution of Civil Engineering Surveyors (ICES), Mr Harry Bell, visited the Institute on 7 April 2017. He was accompanied by the Chairman of ICES (Hong Kong Region), and a delegation of eight. I attended the meeting along with the following HKIS representatives: Sr Thomas Ho (President), Sr Tony Chan (Honorary Secretary), Sr Raymond Kong (QSD Vice Chairman), Sr Paul Wong (QSD Immediate Past Chairman), and Sr Michael Wong (LSD Council member).

During the meeting, Mr Bell and his delegates briefly explained ICES's recent developments in respect of the CEng and Engineering Council; future collaboration under the ICES Second Strategic Plan, 2017-2021; and its reciprocal recognition of professional membership with the HKIS. President Ho and I shared the HKIS views on the reciprocal agreement.

Both institutes agreed to collaborate in future CPDs and explore the possibility of organising other joint functions, including joint seminars/workshops, for their members to enhance their eligibility for reciprocal membership along the path of reciprocity agreement.

1.3 The ICES Annual Dinner 2017 (7/4/2017)

The ICES Annual Dinner 2017 was held at the Royal Plaza Hotel Grand Ballroom in the evening of 7 April 2017. HKIS President, Sr Thomas Ho and I attended this event, which was a very useful gathering for the maintenance of dialogues and exchange of views on professional issues with ICES.

1.4 Accreditation Visit to the University of Reading Malaysia in Johor Bahru, Malaysia (8/5/2017)

I was appointed Chair of the PAQS Accreditation Panel to assess the QS (Hons) degree course at the University of Reading Malaysia in Johor Bahru, Malaysia. The assessment was conducted with Sr Prof Florence Ling from the Singapore Institute of Surveyors and Valuers (SISV) and Sr Dr Wan Maimum Wan Abdullah from the Royal Institution of Surveyors Malaysia (RISM) at the university's campus on 8 May 2017. The visit was a full-day event. We were impressed by the school facilities and the enthusiasm of the teaching staff. This is an overseas degree course run by the University of Reading and has the same structure and design as the one in England. The campus is a new construction that takes into account sustainability elements and has a huge indoor welcoming green space.

1.5 Accreditation Visit to the University of Malaya at Kuala Lumpur, Malaysia (9/5/2017)

The same team made an accreditation visit to the University of Malaya in Kuala Lumpur on 9 May 2017. The prospective accreditation was for the Bachelor of Quantity Surveying programme. The University of Malaya was established over 60 years ago with a large campus of over 920 acres and over 17,000 students. The visit was very successful and well-organised by the Department of Quantity Surveying, Faculty of Built Environment.

1.6 The 21st Pacific Association of Quantity Surveyors (PAQS) Congress 2017 in Vancouver, Canada (22 – 25/7/2017)

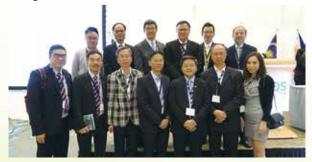

1.6.1 Introduction

The PAQS is an international association of the quantity surveying and cost engineering professions in the Asia-Pacific region. Members comprise quantity surveying and cost engineering institutions from 14 countries/regions including Australia, Brunei, Canada, China, Fiji, Hong Kong, Indonesia, Japan, Malaysia, New Zealand, Philippines, Singapore, and Sri Lanka. The HKIS is a full member of the PAQS. South Korea's KIQS became an associate member last year.

The 21st PAQS Congress 2017 was held during 22-25 July 2017 at the Westin Bayshore Hotel in Vancouver, Canada. The Canadian Institute of Quantity Surveyors (CIQS) served as the organiser of the Congress.

1.6.2 Hong Kong Delegates

Altogether, 16 delegates from the HKIS attended the PAQS Congress. President Sr Thomas Ho; Past Presidents, Sr TT Cheung and Sr Francis Leung; myself as the QSD Chairman; QSD Vice Chairman, Sr Raymond Kong; QSD Honorary Secretary, Sr Sunny Choi; Past QSD Chairmen, Sr Daniel Ho, Sr Dr Paul Ho, and Sr Antony Man; QSD Council members, Sr KC Tang, Sr Joseph Chong, and Sr Dr Sandy Tang; YSG representatives Sr Karen Wong and Sr Frank Poon; and QSD members, Sr Dr Leung Mei-yung and Sr Ellen Lau formed the delegation.

1.6.3 PAQS BIM Committee Meeting (22/7/2017)

Sr Sunny Choi (PAQS BIM Committee Vice Chairman and QSD Honorary Secretary), Sr Dr Paul Ho (QSD Past Chairman) and Sr KC Tang (QSD Co-opted member), joined the PAQS BIM Committee meeting held on 22 July 2017.

To improve collaboration among members from different countries/regions, the BIM Committee set up a Dropbox platform for members to post relevant BIM documents and information for sharing. A MOU was signed between the HKIS, RISM, and SISV on 9 September 2016 in Hong Kong.

During the meeting, Sr Sunny Choi highlighted the latest progress of Hong Kong's BIM implementation with a special focus on the Chief Executive's Policy Address 2017, which highlighted the HKSAR Government's encouragement of consultants and contractors to use BIM.

After the representatives from all countries had reported on the status of their BIM implementation, it was clear that Malaysia, Hong Kong, New Zealand, Australia, and Singapore were all supportive to the development in BIM.

There was also a deliberation over the need to simplify the current SMMs for the best interests of the QSs who use BIM technology.

1.6.4 PAQS Research Committee Meeting (22/7/2017)

The PAQS Research Committee also met on 22 July 2017. Sr Dr Leung Mei-yung represented the HKIS in the meeting.

The HKIS submitted a preliminary report for the study on sustainability in different Asian countries and territories. The Committee encouraged PAQS members to complete a survey that would enrich the research on promoting sustainable development. The publication of a practical journal for the PAQS was also planned.

In addition to the above, value management will be the next topic in the pipeline for collaboration next year.

1.6.5 PAQS Sustainability Committee Meeting (22/7/2017)

The PAQS Sustainability Committee convened a meeting on 22 July 2017, which was chaired by Sr Daniel Ho, PAQS Sustainability Committee Chairman and QSD Past Chairman. Representatives from 11 countries/regions were in attendance.

Three items from the last meeting (an HKIS-funded study on the costs and benefits of green building projects, the establishment of a platform for sharing information, and the setting up of an e-mail group to facilitate better communication) were followed-up and addressed.

The meeting concluded that a summary of macroinformation relating to green buildings would be posted on the PAQS website. The summary will need input from each PAQS member to provide information according to the member's respective country and it has to be updated annually. The committee also proposed the regular maintenance of the information-sharing platform and an e-mail group. It was proposed, if possible, that communication sessions through the internet, rather than meeting in person, should be held at least twice a year. From 2017, each committee has to be responsible for

its own research projects. Hence, the PAQS Board will be requested to appropriate funding in its annual budget for research.

1.6.6 PAQS Accreditation & Education Committee Meeting (22/7/2017)

On 22 July 2017, I attended the PAQS Accreditation & Education Committee meeting as an HKIS representative and as the Committee Secretary.

The meeting endorsed three accreditation reports on the surveying degree programmes at UNITECH, New Zealand; the University of Malaya, Malaysia; and the University of Reading, Malaysia.

Through this endorsement and the HKIS's decision to opt into the accreditation of all three surveying programmes, the HKIS recognised them as cognate degree programmes. Graduates of these programmes, upon application to the HKIS, may commence APC training in Hong Kong.

Members of different countries also updated the status on BIM training implementation in their respective local QS degree programmes.

1.6.7 PAQS Board Meeting (23/7/2017)

The PAQS Board Meeting was held on 23 July 2017. Our President, Sr Thomas Ho, and other delegates (Sr Francis Leung, Sr TT Cheung, Sr Raymond Kong, Sr Daniel Ho, Sr Antony Man, and I) were in attendance.

It was a whole-day meeting, with reports presented by the PAQS Chairman, Mr Ian B Duncan (CIQS); the officers; the committees; and the official delegates of all member countries/regions. I represented the HKIS and reported on the current construction activities in Hong Kong and provided an update on the QSD's activities since the last Congress in 2016.

Sr TT Cheung, a member of the PAQS Council of Advisors, proposed some changes for the sustainable development of PAQS. The second PAQS Vice Chair also proposed some constitutional changes for various country and regional members to consider.

Our President, Sr Thomas Ho, signed a reciprocity agreement (RA) with the host, Canadian Institute of Quantity Surveyors (CIQS), to signify their mutual recognition of professional status and membership.

1.6.8 PAQS Congress (24 - 25/7/2017)

The PAQS Congress was held from 24 to 25 July 2017. The event began with a song by a renowned local artist. The Congress was officiated by the Chairman of the CIQS, Mr Matthew K Weber; and Chairman of the PAQS, Mr Ian B Duncan.

The theme of Congress 2017 was "Green Developments: the New Era". The keynote speakers were Mr David Suzuki and Ms Sarika Cullis Suzuki who gave their speeches on 24 July 2017, and Mr Alan Oishi who gave his speech on 25 July 2017. All were reputable motivators in the study and development of green concepts and measures.

The ICMS Coalition is a joint effort of over 46 professional institutes and organisations from all over the world, including the HKIS. The governing body of the ICMS Coalition is the ICMS Trustees. Sr TT Cheung is its HKIS representative.

The ICMS is a standard that is free for adoption. It is the result of 20 months of cooperation and effort by cost consultancy experts (among them is Sr KC Tang from HKIS QSD) from all over the world.

Thanks to Sr TT Cheung and Sr KC Tang for their excellent work. For more details on the ICMS, please visit: icms-coalition.org.

我們也談及香港並沒有招標代理(即諮詢公司) 及招投標辦公室(即政府部門),無論私人或 政府項目的招標工作,一概由工料測量師負 責,協會也明白這是內地與香港之間的分別。

協會指出香港企業在「一帶一路」計劃的項目 上有優勢,我們有國際項目的經驗及語言的方 便,在「走出去」的國家策略上,內地企業會 深化和香港企業合作的機會,具體合作情況需 要再探討。

4. NETWORKING WITH EXTERNAL BODIES

4.1 HKIS Media Luncheon (8/2/2017)

The HKIS arranged a media luncheon, which was well-covered by the media, at the World Trade Centre Club, Causeway Bay, on 8 February 2017. Four QSD spokesmen Sr Raymond Kong (Vice Chairman),

Sr Paul Wong (Immediate Past Chairman), Sr Keith Yim (Past Chairman), and I attended the event to answer media enquiries and share our professional views on issues related to quantity surveying.

During the luncheon, I introduced the QSD 2017 theme "Promoting the Services of Quantity Surveyors and Increasing the Public Awareness of Construction Cost Control." The primary message that QSD delivered to the media was: "Quantity surveyors are professionals with expert knowledge on construction costs and contract administration, and they are well-acquainted with building costs, labour and material prices, construction economics, finances, tenders, and contractual arrangements in the construction industry". This year, the QSD promoted its scope of services to increase the public's awareness of quantity surveyors' roles in construction cost control and monitoring, tendering, and contractual arrangements.

During the meeting, the parties exchanged views and opinions extensively on the applicability of NEC to public works projects in Hong Kong. The QSD raised its concerns, including the effectiveness of NEC in controlling a project's time and budget, the public accountability due to the project manager's dominant role in NEC, and the importance of maintaining the role of an independent cost consultant in public works projects. The Development Bureau expressed that all kinds of feedback on NEC from different stakeholders were welcome and would be considered.

We were received by the ArchSD QSA Sr Wong Chi Lok (Chairman), Sr Rachel Yu (Vice Chairperson), and Sr Kevin Lai (Honorary Treasurer).

During the meeting, the QSD brought up a number of topics, which included the up-coming project volume, NEC Contracts and BIM adopted in the ArchSD future projects, and the implications of the Security of Payment Legislation. I wish to express my heartfelt thanks to all the sponsors of the event for their generous contributions and support. Thanks also go to the Organising Committee Chairman, Sr Raymond Kong, and his team members for their valuable efforts in arranging such a successful and enjoyable event.

The QSD Annual Dinner is an important annual event that provides precious opportunities for members to mingle and meet with learned friends from the surveying profession, other professional institutions, and officials from the government, as well as to make new friends in the construction industry. The QSD has successfully achieved these aims again this year.

PQSL aims to enrich Associate Members and Probationers with essential knowledge in quantity surveying practices and principles in construction contracts, so as to prepare them for the APC examination. There are a series of PQSL events, namely measurement, procurement, standard form of building contract, contract administration, and specialisation, covering QS topics such as:

7.2 Continuing Professional Development (CPD): Retrospect and Prospects

Continuing professional development (CPD) is "the systematic maintenance, improvement and broadening of knowledge and skills and the development of personal qualities necessary for the execution of professional and technical duties throughout the practitioner's career."

To upkeep our members' professional competence in their professional practices and technical performances is one of the importance tasks of the QSD. In the past 6 Council Years from 2011/12 to 2016/17, the QSD CPD Sub-committee, working

with the QSD BIM Sub-committee and QSD Macau Sub-committee, has organised 361 CPD events on a variety of topics, including contractual and legal, cost management, insurance, management, BIM, green measures, and other technical issues. In order to collaborate with other construction professionals, the QSD has organised many joint CPD events with other professional institutes, such as the Australian Institute of Quantity Surveyors, Chartered Institution of Civil Engineering Surveyors, China Engineering Cost Association, Macau Association of Building Contractors and Developers, the Hong Kong Institute of Landscape Architects, Hong Kong Institute of Construction Managers, the Hong Kong Institute of Value Management, the Hong Kong Concrete Institute and other divisions and YSG in the HKIS.

It is encouraging to know that most of the QSD CPD events (279 out of 361) have been welcome by full house attendance.

On behalf of the QSD, I express my heartfelt thanks to our Immediate Past Chairman, Sr Paul Wong, for his vision, devotion, and tremendous efforts working together with other dedicated members in promoting and strengthening the QS profession to the public and its professional counterparts both locally and overseas in the past six years (as QSD CPD Subcommittee Chairman). I also thank the members' active participation in the CPD events organised by the QSD.

Looking forward, the QSD will continue to organise good quality CPD events in diversified areas, collaborate with other construction professionals, and cater for professional development and lifelong learning for our members.

8. PUBLICATIONS

8.1 Proposed Amendments to the Current HKSMM4

The current Hong Kong Standard Method of Measurement of Building Works - Fourth Edition (combined Building Works and Building Services) (HKSMM4) was published in 2005, with incorporation of the corrigenda dated September 2013. During the past years, there were numerous changes in the construction method and procurement practice. The QSD opines that the current HKSMM4 needs a complete revamp and update to deal with modern practices. Due to the fact that the preparation of a new SMM would take considerable time, as an interim measure, the QSD decided to issue an amendment to the current HKSMM4 first and has worked on it for 3 years. In order to hear any suggestions or comments from the members and stakeholders before publication of the new HKSMM, the QSD held two Forums at the Surveyors Learning Centre on 6 December 2016 and 4 January 2017.

Discussions and reviews on respective work sections of a new edition of HKSMM is in progress. It will be published tentatively in 2018.

8.2 Practice Notes for Quantity Surveyors

The QSD launched seven Practice Notes for Quantity Surveyors since November 2012 covering the following core subjects:

- Tendering (First issue in November 2012)
- Cost Control and Financial Statements (First issue in November 2012)
- Valuation of Variations (First issue in November 2012)
- Contractual Claims (First issue in November 2012)
- Final Accounts (First issue in November 2012)
- Valuation for Interim Payment Certificates (First issue in October 2015)
- Pre-contract Estimates and Cost Plans (First issue in October 2016)

These seven Practice Notes were prepared jointly with the Association of Consultant Quantity Surveyors (ACQS) and the Hong Kong Construction Association (HKCA) to produce some basic guidelines for quantity surveying core practices. They have been available in both hard and soft copies [http://www.hkis.org.hk/en/publication_sales.php] for some time. The QSD has arranged some hard copies for members' collection during the CPD events.

9. PROMOTION OF THE QUANTITY SURVEYING PROFESSION

9.1 Education & Careers Expo 2017 (23 – 26/2/2017)

The Education & Careers Expo was held at the Hong Kong Exhibition and Convention Centre from 23 to 26 February 2017.

The HKIS booth was managed by HKIS YSG members who introduced the surveying profession to students and the general public with some minigames.

On the first day, HKIS President, Sr Thomas Ho; YSG Chairman, Sr Chris Mook; and other members attended the Opening Ceremony.

On Day Two, QSD Vice Chairman, Sr Amelia Fok; QSD Immediate Past Chairman, Sr Paul Wong; and QSD Council member, Sr Staw Wong attended the booth and helped introduce the surveying and QS professions to visitors.

On Day Three, HKIS President, Sr Thomas Ho; QSD Vice Chairman, Sr Raymond Kong; and I attended the Education & Careers Seminar with other HKIS members from the different divisions. Sr Thomas Ho shared his experiences in the surveying profession, while I gave the outlook on the prospects for the QS profession.

9.2 2017 HKIS Quantity Surveying Division Scholarship Presentation Ceremony (19/4/2017)

The 2017 HKIS QSD Scholarship Presentation Ceremony was successfully held on 19 April 2017 at Surveyors Learning Centre. This was the seventh consecutive ceremony that the QSD has organised. The main objective of the scholarship programme is to reward students who study quantity surveying at local universities and the Institute of Vocational Education (IVE) in the hopes of becoming professional quantity surveyors. A secondary

objective is to promote quantity surveying as a highly-valued profession in the construction industry to the students. The fulfillment of both objectives would attract more talented young people to join the quantity surveying profession.

It was our pleasure to see President, Sr Thomas Ho, who attended this event and gave an impressive speech to the awardees. I, together with Sr Amelia Fok (QSD Vice Chairman) and Sr Paul Wong (QSD Immediate Past Chairman), represented the QSD Council in extending thanks to the guests, department heads, and teaching staff from the three universities and IVE, as well as QSD Council members, for supporting and attending the ceremony. I also said a few encouraging words to the awardees.

This year, 18 scholarships were awarded to students in recognition of their outstanding performances in key quantity surveying courses leading to a bachelor's or associate's degree or higher diploma. The recipients are as follows:

9.5 Visits to Universities and IVE

st2017/201710/2017st10_6_mem.pdf

From time to time, the QSD participated in promoting the quantity surveying profession through visits to local universities and IVE. The objectives of these visits are to introduce the Institute, the scope of professional services of quantity surveying, the membership admission routes and APC training schemes. I hope that some of the students who attended the events will become interested in the quantity surveying profession and consider studying surveying at Hong Kong's universities or at the IVE before becoming members of the Institute.

9.5.1 Visit to THEi (Tsing Yi) (11/4/2017)

Sr Paul Wong (QSD Immediate Past Chairman), Sr Philip Lo (THEi's External Examiner), speakers from the PFMD, and I visited THEi (Tsing Yi) to deliver a career talk to Year 1 students in its Bachelor of Science (Honours) in Surveying programme on 11 April 2017.

During the visit, I introduced the HKIS's six divisions, the career prospects for surveyors, and the routes to obtaining HKIS membership. Sr Paul Wong and Sr Philip Lo shared their

on the career prospects for the QS profession from a contractor's and a consultant's perspective, respectively.

THEi's Bachelor of Science (Honours) in Surveying programme is a new course that commenced in September 2016. It covers five surveying specialties. including quantity surveying. I hope that after this talk, the students will be able to decide on the surveying specialties they will enter after graduation.

9.5.2 Seminar at the University of Hong Kong (2/9/2017)

A seminar was held on 2 September 2017 at the University of Hong Kong to introduce and promote the HKIS to MSc students in Real Estate and Construction Project Management.

HKIS President, Sr Thomas Ho; Immediate Past President, Sr C K Lau; QSD Council member, Sr Tiffany Chan; and representatives from the other divisions introduced the HKIS to the students. Sr Tiffany Chan briefed them on the scope of QS services, the routes to becoming quantity surveyors and the career prospects, and shared her own

professional QS experiences. About 70 students majoring in urban development and quantity surveying attended this joyful event and had many questions for the speakers at its conclusion.

9.5.3 Information Day at City University of Hong Kong (7/10/2017)

Upon invitation by the Department of Architecture and Civil Engineering of City University of Hong Kong (CityU), I, as QSD Chairman, attended its Information Day on 7 October 2017. The purpose of my visit was to introduce the quantity surveying profession and the HKIS to prospective students who would consider surveying as their choice of study at CityU.

The presentation session was well-attended by over 40 prospective students and parents. Here I wish to extend my sincere thanks to Dr Daisy Yeung, who kindly organised the presentation session.

9.5.4 2nd Visit to THEi (Tsing Yi) (21/10/2017)

On 21 October 2017, the QSD's Immediate Past Chairman, Sr Paul Wong; QSD Honorary Secretary, Sr Sunny Choi; and QSD Honorary Treasurer, Sr Poleon Chan, visited THEi's Faculty of Science and Technology at its Tsing Yi Campus. The purpose of the visit was to obtain updates on the development of THEi's BSc (Hons) degree in Surveying Programme (QS & PFM Stream), which had enrolled its first batch of Year 1 students in Summer 2016.

The QSD's representatives were well-received by the Department Head of Engineering, Technology and Construction, Professor KL Pun; the Course Programme Leader, Sr Dr Terence Lam; and programme team members Sr Dr Ken Chan, Dr Ernest Tsang, Dr Danny Wan, and Ms Waiman Ho. The programme team gave a detailed presentation on the following:

- Programme structure
- Teaching staff
- Four-year curriculum
- Student profiles
- Student academic performance for 2016-2017
- Support facilities for students
- Attachment activities and site visits
- Industry links
- Recent research
- Publications

Taking the QSD's previous advice, the programme team created two compulsory elective modules - dispute resolution and advanced contract administration - for students on the QS stream. We talked with some students, who shared their study experiences at THEi over the past year, what they had learned in their measurement and contract

procurement modules, and their exposures during their internships. The visit was very successful and we were impressed by the students' communication skills.

9.5.5 HKU Information Day 2017 (4/11/2017)

The HKU Information Day 2017 was held on 4 November 2017. To facilitate students' understanding of surveying professional, the Institute was invited to participate in this event.

Our QSD Council member, Sr Joseph Chong; and QSD Co-opted members, Sr Stephen Lam and Sr Rachel Yu, were three of QSD representatives. They introduced the HKIS, quantity surveying profession and APC qualification requirements to the students.

9.6 Visits/ Talks to Secondary Schools

9.6.1 Visit to Pui Ching Middle School (29/9/2017)

Following the QSD's visits to Pui Ching Middle School in 2013, 2014, and 2016, the school once again invited HKIS QSD to deliver a career talk to the students on 29 September 2017. QSD Vice Chairman Sr Amelia Fok and QSD Council member Sr Tiffany Chan joined this event, which was attended by approximately 40 Form 5 students. Amelia and Tiffany introduced the HKIS, the development of the quantity surveying profession, and the routes to membership. The students showed a great interest in surveying, as reflected in their eager responses during the Q&A session, in which they were asked questions regarding the HKIS, its board duties, the functions of its various divisions, and other issues relating to quantity surveying. As a reward for joining

the event, each student received a divisional fact sheet and souvenir. Many thanks go to Pui Ching Middle School for organising the visit.

9.6.2 Career Talk to Secondary School Students (12/10/2017)

A fruitful and successful career talk (《把握未來大方向 探視專業測量前景》測量師行業就業講座) was held in collaboration with the Education Bureau at Surveyors Learning Centre on 12 October 2017. The HKIS introduced all six surveying divisions to the upper-level students from nine secondary schools. I represented the QSD to introduce the work involved and job opportunities in quantity surveying.

9.7 Talks in Conference / Seminar

9.7.1 One-Day Seminar on Contract
Management 2017 (Jointly
Organised by the Young Groups of
the CIArb, CIBSE, HKIE, HKIS, & ICE,
22/4/2017)

The One-Day Seminar on Contract Management Seminar 2017 was held at the Christian Family Service Centre, Kwun Tong, on 22 April 2017. This annual event has been jointly organised by young professionals from the various institutes since 2004. This year, the HKIS's Young Surveyors Group was one of the organisers.

Seven experienced speakers with diverse backgrounds were invited to share their experiences in and insights on contract management. Our QSD Immediate Past Chairman, Sr Paul Wong, was one of the speakers. His topic was "Good Practices in Construction Contract Management – a Case Study on a Heritage Project".

9.7.2 ACEHK Annual Conference (19/6/2017)

On 19 June 2017, I attended the ACEHK Annual Conference with the main theme "Enhancing Project Cost Management" at the Hong Kong Convention and Exhibition Centre.

I was one of the invited speakers and my topic was "Cost Management of Engineering Projects from Quantity Surveyor's Perspective". The Conference was well supported by over 200 participants. Among other speakers, there were also the Permanent Secretary for Development, Ir Hon Chi Keung; the Head of Project Cost Management Office, Ir John Kwong; the Deputy Director (Development

& Construction) of Housing Authority, Ms Ada Fung. I was very much honoured to be one of the speakers and hope the conference could enhance the communication and collaboration between engineers and quantity surveyors.

10. BUILDING INFORMATION MODELLING (BIM)

BIM has gained a lot of attention in recent years across the full spectrum of stakeholders and key players in the construction market. Various studies and researches have been conducted in the subject and there were already some breakthroughs like 5D BIM since our first BIM Conference back in 2013.

10.1 BIM Training

The QSD BIM Sub-committee was set up in 2012. Its

main purposes are: (1) to keep members updated on the use and development of BIM; (2) to promote BIM to and train members in its use and application; and (3) to collaborate with other organisations to study and review the use of BIM and the BIM Standard Methods of Measurement. Since its establishment, the BIM Sub-committee has worked with various organisations by attending and organising a number of BIM events, such as attending the 2012 BIM Conference in Singapore, organising the 2013 and 2017 International QS BIM Conference in Hong Kong, attending BIM Committee meetings during each year's Pacific Association of Quantity Surveyors Congress, organising BIM CPD talks and training courses, and conducting BIM research papers, etc.

In this Council year, the QSD successfully organised three BIM CPD talks with high attendance rates on 20 May, 19 July, and 14 August 2017. Certainly attendees had learned a lot about BIM by attending these talks.

The QSD has organised various introductory handson and intermediate BIM training courses since 2012. In order to help members gain more knowledge of BIM, the QSD has arranged three new BIM training courses in this Council Year.

10.2 The 5th ICUMAS 2017 (30/3/2017)

I attended the ICUMAS Conference as one of its speakers on 30 March 2017. The theme of the conference was "BIM, Control & Utility Management for Smart City and The Sponge City". My topic was "The BIM Journey of the HKIS". The conference served as a platform for different building and BIM professionals to share their visions of and way

forward for BIM implementation. It was well-attended by the Guest of Honour, Ir Hon Chi-keung, JP; the keynote speaker, Ms Ada Fung, JP; and other distinguished guests, architects, and engineers.

10.3 The HKIUS BIM Conference (22/5/2017)

The HKIUS BIM Conference - Showcase of BIM Procurement Methods - was

held at the Charles K Kao Auditorium, Hong Kong Science Park, on 22 May 2017. I represented the HKIS at this conference, which was coorganised by Construction

Industry Council and Hong Kong Institute of Construction Managers and supported by the HKIS. During this Conference, different BIM procurement methods and different contract forms were introduced by local and overseas speakers from London and Singapore.

10.4 PAQS BIM Committee Meeting (22/7/2017)

Sr Sunny Choi (PAQS BIM Committee Vice Chairman and QSD Honorary Secretary), Sr Paul Ho (QSD Past Chairman), and Sr KK Tang (QSD Co-opted member) represented the Institute to attend the PAQS BIM Committee Meeting on 22 July 2017. It was a good opportunity to share experiences on BIM amongst the delegates of the PAQS member countries/regions. More details are covered in paragraph 1.6.3 of this report.

10.5 International QS BIM Conference 2017 Hong Kong (18/11/2017)

The International QS BIM Conference 2017 Hong Kong was successfully held at the Regal Ballroom, Regal Hongkong Hotel, Causeway Bay, on 18 November 2017. This conference was jointly organised by the QSD, the Construction Industry Council (CIC), the Australian Institute of Quantity Surveyors (AIQS), the Royal Institution of Surveyors Malaysia (RISM) and the Singapore Institute of Surveyors and Valuers (SISV). About 350 participants attended and gave good responses.

The theme of the conference was "Quantity Takeoff (QTO), Cost Management and the Way Forward of BIM for Quantity for Quantity Surveyors". The conference aimed to share both local and overseas BIM experience and expertise in construction budget planning and cost management.

The conference started with my welcome speech. It was followed by the keynote speech "Building a Collaborative Future: BIM in Hong Kong" by Ms Ada Fung Yin-suen, BBS, JP, Deputy Director of Housing (Development & Construction) of Hong Kong Housing Authority, and Chairperson of Committee on BIM of CIC. There were also other 11 heavyweight speakers from Australia, China, Malaysia, Singapore and the elites in Hong Kong, who delivered thought-provoking presentations.

I must thank the guests, speakers, sponsors, and supporting organisations. My most heartfelt thanks also go to the Joint Conference Organising

Committee members headed by our OC Chairman, Sr K C Tang. In addition, I also thank the participants at this conference for their support and making it a wonderful and successful event. I hope everyone gained some knowledge from the conference.

- Group photo of representatives from AIQS, RISM, SISV and HKIS.
- Presentation of Certificate to speakers by HKIS President, Sr Thomas Ho.

10.6 Consultation Forum on Proposed Building Information Modelling (BIM) Contract Conditions (29/11/2017)

The Government of the HKSAR actively promoted the use of BIM in major capital projects in its Policy Address 2017. While BIM appears to be a worldwide and irreversible trend, local employers, consultants, contractors and subcontractors are concerned with their risks and liabilities when using BIM. Therefore, proper contract conditions which set out the obligations, responsibilities and liabilities of the contracting parties are essential for successful implementation of BIM. In response to this industrial need, the QSD has drafted standard conditions of contract for BIM.

The QSD organised a consultation forum on the proposed BIM Contract Conditions for QSD members on 29 November 2017. In this consultation forum, our Past QSD Chairman, Sr Dr Paul Ho, outlined the proposed BIM contract conditions which included the general provisions, priority of contract documents, obligations of the project participant, digital data and BIM management, BIM execution plan, risk allocation in respect of the model, intellectual property rights of the model, indemnity and insurance, and termination, recession or expiry of the agreement. While explaining the rationale

of each contract condition, Sr Dr Ho also briefly compared the proposed BIM contract conditions with some overseas BIM contracts such as UK's CIC BIM Protocol, US's AIA BIM and Digital Data Exhibit and Singapore's BIM Particular Conditions. In the consultation forum, our QSD members contributed their views for the refinement and improvement of the proposed BIM contract conditions.

In order to collect views from other professionals other than quantity surveyors, the QSD will organise a similar consultation forum for the members of other professional institutes shortly.

11. CONTRACT FORMS

11.1 Discontinued Printing of the Old Standard Forms of Contract

Members are advised that the HKIS will stop printing and selling the standard forms of contract listed below from 1 February 2018:

- The Agreement & Schedule of Conditions of Building Contract for use in the Hong Kong Special Administrative Region Standard Form of Building Contract Private Edition - Without Quantities, 1986 Edition; First Amendments published in September 1997 and Second Amendments in July 1999.
- 2. The Agreement & Schedule of Conditions of Building Contract for use in the Hong Kong Special Administrative Region Standard Form of Building Contract Private Edition With Quantities, 1986 Edition; First Amendments published in September 1997 and Second Amendments in July 1999.
- 3. The Form for Use When the Sub-Contractor is Nominated under the Standard Form of Contract for Hong Kong Sub-Contract, 1986 Edition, First Amendments published in September 1997 and Second Amendments in February 2000.

Limited copies of the above publications are available for sale for as long as the stocks last.

11.2 New Edition of Standard Forms for Building Contract

The four standard building contracts (2005/2006 Edition; hereafter New Forms), which include the Agreement and Schedule of Conditions of Building Contract with Quantities (2005), Agreement and Schedule of Conditions of Building Contract without Quantities (2006), Agreement and Schedule of Conditions of Nominated Sub-Contract (2005), and Agreement and Schedule of Conditions of Nominated Supply Contract (2005) have become four of the most popular standard contracts used in the construction industry.

A new edition of the New Forms (hereafter New Edition) will be published tentatively in 2018. The New Edition will mainly incorporate the suggestions and comments received from users and stakeholders of the New Forms since the 2005/06 publication.

12. NEW LEGISLATIONS

12.1 Competition Ordinance & Contracts (Rights of Third Parties) Ordinance

Two ordinances highly related to the construction industry, namely: "Competition Ordinance (Cap. 619)" and "The Contracts (Right of Third Parties) Ordinance (Cap. 623)" took effect on 14 December 2015 and 1 January 2016 respectively. To comply with the Competition Ordinance, the QSD has undertaken prompt and decisive steps to remove the fee scales from the HKIS website before 14 December 2015.

To let our members understand the concepts and implications of these two ordinances, the QSD has organised several relevant CPD talks. Penalties for failing to comply with these two ordinances can be severe. Members are required to be fully aware of the effects of these ordinances.

12.2 Proposed Security of Payment Legislation (SOPL)

The HKIS has been working closely with the Hong Kong Institute of Architects (HKIA) and the Hong Kong Institution of Engineers (HKIE) on the proposed SOPL. Further to the two forums held with the members of HKIA, HKIE and HKIS, a number of meetings on this issue were held with the Development Bureau (DevB) since the public consultation concluded at the end of August 2015. One focus of the discussions was on the establishment of the Joint Adjudication Appointing Body by the HKIA, HKIE, and HKIS. The three institutes are still reviewing the said issue and other outstanding issues with the DevB.

13. CONCLUSIONS

I am pleased to conclude that the QSD Council has accomplished most of the tasks set out in the 2016/17 Year Plan with the concerted effort of the Officers, Council members, Co-opted members, Sub-committee members, Panel Advisors and the Secretariat of the Institute.

This year has been a very successful one for the QSD in terms of connections with its members, training for probationers and associate members, continuous professional development for its members and external collaborations and liaisons with other local and overseas professional bodies. The QSD has also maintained connections with various Mainland cost engineering associations from Beijing, Shanghai, Guangzhou, Shenzhen, Foshan, Dongguan and Zhuhai.

My heartfelt thanks go to all outgoing Council members for their unfailing support and valuable advice, without which the QSD would not have been able to accomplish its remarkable feats in the Council Year 2016/17. I also thank all members for their support to the QSD and wish they will continue to lend their support to the QSD in the Council Year 2017/18.

Divisional Council & Young Surveyors Group Reports

Young Surveyors Group

Sr Chris Mook YSG Chairman

HKIS YSG consists of young surveying practitioners and university students who are under the age of 40. For many years, YSG have been devoting to the promotion of professional knowledge learning, career development and interpersonal network development for the young members as well as the assistance of the younger generation in developing themselves in the surveying profession.

This year, YSG deepened these goals further with the theme of "Y-S-G":-

- **Y:** represents the youth innovation in introducing the surveying profession to students and the public.
- **S:** represents the search for interesting topics that are relevant to the surveying profession.
- **G:** represents the gatherings for younger surveyors in YSG events which provide the opportunities for networking and sharing of dreams.

Y: Youth Innovation

During the Education and Careers Expo in 2017, YSG encouraged young members, together with surveying students from HKU, PolyU and CityU, to exert their utmost energy and creativity in introducing the surveying profession to the public via a series of specially designed mini-games which demonstrated the daily tasks of surveyors.

In a joint professional career day named 「專業發展分享日 2017」暨「生涯規劃教育區域發展網絡啟動禮」, which was attended by 200 secondary students from various secondary schools, YSG committees designed and hosted a sharing game called "One Cloud or One Dream?", in which students were to share whether the career day had added nothing to their minds (their views of the profession were still "Clouded"), or had already made some difference to the visions of their future careers (changed from a "Cloud" to a "Dream"). All of the students chose "Dream" and shared the things they learned from our young professionals on that day!

S: Search for Interests

YSG helped organise various types of CPD events (about 40 CPDs held this year) and the Harbin YSG Study Tour, as well as provided support to young members in attending international conferences so that the young members can learn more about the surveying profession in Hong Kong and around the world.

G: Gather for Dreams

YSG have set up a series of networking platforms across various divisions as well as with youth groups in other professions (e.g. YCPG Joint Professional Networking Party 2017), which are to give our young members more opportunities to meet with friends who share the same interests and dreams.

An excellent example of such activities is the HKIS dragon boat team (港測龍), which gathers together a team of young members from various divisions and university students with the same dreams. One of their dreams this year was to stay at NUMBER ONE among all professionals in the Joint Professional dragon boat race. To achieve their goal, the YSG committees recruited more than 40 paddlers and arranged weekly practices since March 2017. With their great devotion, the HKIS dragon boat team succeeded in staying at NUMBER ONE among all professionals in the Joint Professional dragon boat race. Meanwhile, they also managed to get a prize in the highest standard race, the Gold Cup Final of the international dragon boat championship!

With the above achievements, I believe YSG can foster our young and energetic members, who dare to innovate and love to learn, to become a new force in the surveying profession and to realise their dreams!

Finally, I would like to sincerely thank all the YSG committees, co-opted members, and university students for their vital contributions to all the YSG/

joint professional events that were aimed to fulfill the "Y-S-G" themes during the year! Their great works are presented in the video called "理想…你想?" at the link below:

https://youtu.be/SBZTJ4AsOQQ

Lastly, I would like to stress that I am confident that YSG will continue its efforts in striving to achieve the Group's and our "DREAMS".

In order to provide timely response to membership applications, the Board continued to hold bi-monthly meetings. The dedication of Divisional Membership Committees and the YSG Membership Committee is deeply appreciated, for without which, the Board could not have functioned so efficiently. The Divisional and YSG Membership Committees comprised the Divisional and YSG representatives to the Board and co-opted committee members and assessors for the vetting of applications and the conducting of assessment interviews with the applicants where required.

During the session year, the statistics of membership applications processed are as follow:

The above statistics refer only to the number of applications processed during the year and do not reflect the actual changes to the membership base of the Institute. It should be noted that applicants may migrate from one membership grade or category to another. For full details of all members, readers should refer to the Membership Registers kept by the Honorary Secretary in accordance with Bye-law 2.1 of the HKIS Constitution.

In pursuance of Bye-law 2.5.2 where Probationer membership is restricted to 8 years provided that the General Council may vary such period in particular cases, the Institute has introduced an administrative mechanism at the time of issuing demand notes for renewal of membership subscription. Probationers must declare their membership status and their APC progress. If they are still pursuing the APC, they may apply for an extension to their probationer membership by one year. If they are no longer pursuing the APC, their applications for extension of probationer membership will be rejected, or they may otherwise withdraw from probationer membership on their own accord. Thus the membership statistics may be rationalised to reflect the legitimate status of surveyors-in-training.

During the session year, the statistics of the changes of probationer membership are as follow:

| Probationers | BSD | GPD | LSD | PDD | PFMD | QSD | Total |
|----------------------------|-----|-----|-----|-----|------|-----|-------|
| Applications for extension | 96 | 58 | 31 | | 2 | 284 | 471 |
| Rejected | 58 | 27 | 15 | | 1 | | 101 |
| Approved | 38 | 31 | 16 | | 1 | 284 | 370 |
| Withdrawals | 4 | 3 | 4 | | | 11 | 22 |

The proposal for "Affiliate of HKIS" put forward by the Mainland Affairs Committee was not supported at the EGM and the Board of Membership had no further role to play in this regard.

During the session, the Board was commissioned by the Executive Committee to re-visit the former proposal for direct membership, which was turned down by the members at large at an EGM in 2013. An analysis paper on Admission to Membership was deliberated by both the Board of Membership and the Board of Education and it was resolved, inter alia, that a new category of "mature candidates" for membership through the assessment by the APC may be viable. Since this proposal involved primarily the educational concerns under the prerogatives of the Board of Education, the Board of Membership had no further role to play. The proposal was endorsed by the General Council for open forum consultation in due course and approval by an EGM as appropriate.

In pursuance of the provisions under Part VII of the Bye-Laws, the Board continues to consider the policies and control mechanism for mandatory continuing professional development and lifelong learning with a view to enhancing the members' professional competence. All professional and technical members are required to engage themselves in continuous enhancement of their expertise and enrichment of their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute can strengthen its leading role in the local real estate and construction sector.

In Year 2017, a total of 258 CPD events were organised by various Divisions and the Young Surveyors Group (YSG) of the HKIS, representing a 31% increase as compared with 197 events in the previous year. Excluding the 38 institutional events, QSD, having put together 88 events, was the top CPD organiser among the Divisions.

The table below summaries the number of CPD events held by the HKIS and its divisions:

| Division | Number of CPD Events | Number of Social Events |
|----------|---|-------------------------|
| QSD | 88 (including 5 joint CPD with BSD, 7 joint CPD with YSG, 4 joint CPD with ICES & MABCD, 2 joint CPD with HKIE, 2 joint CPD with AIQS, 1 joint CPD with GDECA & HKIPM, 1 joint CPD with HKIE & HKCI, 1 joint CPD with HKILA, 1 joint CPD with CIC, AIQS, RISM & SISV, and 1 joint CPD with HKIVM & HKICM) | 5 |

| BSD | 32 (including 5 joint CPD with QSD) | 1 |
| LSD | 15 | N/A |
| PDD | 13 (including 1 joint CPD with HKIS and 3 joint CPD with YSG) | N/A |
| PFMD | 9 | N/A |
| HKIS | 38 (including 1 joint CPD with PDD, 4 joint CPD with CIC, 5 joint CPD with PGBC, and 10 CPD in China) | 2 |

Mandatory CPD Requirements Checking 2013 - 2015

The Board has completed a two per cent sample check on professional members' compliance with the mandatory CPD requirements for the 2013-2015 CPD years. About 60% of the selected members satisfied the mandatory CPD requirements. The major CPD requirements and non-conformities noted are tabulated below so that general members may avoid the non-conformities when recording their CPD events:

| Clauses in the GN | CPD Requirement | Non-Conformities | | |
|-------------------|--|---|--|--|
| GN 7.1, 7.3 & 7.4 | For each event, CPD hours in a multiple of 0.5 shall be rounded up to 0.5 and be subject to a maximum of 10 hours. | Use 0.25-hour as a multiple. More than 10 hours claimed for a conference. | | |
| GN 7.2 | Travelling time and breaks longer than 0.5 hours shall be discounted. | Travelling time or lunch time (no indication of speaker during lunch) is included. | | |
| GN 2.2 | Type 1 CPD: minimum of 15 hours within any three-year period. | Mix up different types of CPD (e.g. committee meeting [Type 4] is recorded | | |
| | Types 2, 3, & 4 CPD: maximum of 15 hours for each type within any three-year period. | under Type 1; a seminar on IT/business/ financial skills [Type 2] is also recorded under Type 1). | | |
| GN 2.3 | Type 3 CPD: HKIS committee meeting, maximum of one hour per meeting and five hours per CPD year. | Each meeting is recorded without observing GN 2.3. | | |

As the Board does not restrict members from recording a Type 2, 3, or 4 CPD after reaching the maximum of 15 CPD hours, we are studying if the system could be programmed to minimise wrong CPD entries.

HKIS Website Revamp

The HKIS is revamping its website at the moment. The BoPD has made recommendations for improving the existing system regarding the CPD functions. For better service to our members, we very much hope that the revamped website will offer more user friendly features in CPD registration and payment logistics.

It had been another challenging but successful year. I would like to take this opportunity to thank all the BoPD Members, the CPD organisers and the helpers for their valuable inputs and participation. Without your participation and dedication, we would not have accomplished such achievements in Year 2017.
